House Budget Does Not Deliver Enough SEEK Dollars for Adequate Raises

No dedicated raise for educators, as opposed to governor's 11%, "increases SEEK instead"

KASA survey: 54% of superintendents estimate raise <2% as a result

House budget: Per pupil guarantee
+4% in 2025
+2% in 2026

But. . .

Inflation projected at
+3.2% in 2025
+3.2% in 2026

Also. . .

Attendance is down (-3.6% in 2026 compared to 2022)

Thus total SEEK base dollars lower than last budget

Other Education Funding Items

Other Areas Still Underfunded

- Increased but still not fully funded school transportation
 - 80% in '25, 90% in '26
- Funding is flat for preschool (Gov had universal), extended school services, mental health providers (Gov had added \$6.2 million social/emotional)
- No funding for professional development (Gov: \$13 million), textbooks (Gov: \$17 million)

Some Areas with Additional Dollars

- \$4 million/year for more FRYSCs (though half of governor's request)
- \$4.8 million for teacher student loan forgiveness pilot (Gov had \$26.3 million)
- \$500 million more for TRS unfunded liability
- \$16.5 million for school resource officers

House Budget Does Not Deliver Enough for Proper Reinvestment in Education

- Total SEEK funding falls from 26% to 30% below 2008
- Total P-12 education funding is 14% less in House budget than Governor's, \$1.6 billion over the biennium

Total SEEK Funding Continues Real Decline in House Budget

Troubling additional provisions

- \$750,000 audit of JCPS
- Requirement to “prominently display” test scores on every page of website in “at least 16 point type”

“The failure of a local board of education. . . to make adequate progress in the recruitment and retention of classroom teachers and classified employees may lead to the closure of individual schools, the takeover of an individual board of education, or the potential consolidation of boards of education. . . .”
