

March 30, 2020

Dear ICMI Country Representatives,

I hope this finds you and your families and friends in good health.

Although the ICME14 has been postponed to July 2021, a main item of the General Assembly, which is the election of the new EC must take place this year. This will enable the new EC to take office on January 1, 2021.

Given the current global situation, the only option we have is to hold the election electronically. Fortunately, in our world today this is possible. The EC has thus decided to hold the election in July 2020 as planned. Since all previous elections have taken place during a General Assembly, we will need to make some adjustments this time; however, making sure at the same time, to abide by the Terms of Reference¹ within which ICMI operates. Following the procedures carefully will ensure that we will hold a fair, transparent, and secure process.

We intend to send out detailed procedures for the election by late April.

Sincerely yours,

Abraham Arcavi
ICMI Secretary General
