IMU AO Circular Letter 1/2024

To: The Adhering Organizations of the International Mathematical Union (IMU)

From: Christoph Sorger, IMU Secretary General

Updated Contact Information

Dear colleagues

I will shortly send out individual emails to all IMU members regarding your country's contact information for the IMU.

The most recent contact information regarding the IMU members can be found [here](#). We will send you the email addresses that we use when we contact your country. Please take time to check if you want us to update them.

Please reply to me with cc to manager@mathunion.org
– confirming that the information above is correct, or
– sending corrected/updated information.

Electronic voting

The individual email I will send to IMU members with voting rights will also ask for confirmation of the unique email address to be used for electronic voting.

Advice re email addresses

In order to establish and maintain reliable and sustainable connections with the IMU, the following steps are recommended:

- Create generic addresses like “president@mathsociety.country”, which will remain unchanged. Emails to a generic address can be forwarded to the person(s) holding the office.
- Emails sent from the IMU should be received by at least two different recipients, preferably using different mail servers. If we have only one email address for a country, and that address ceases to work, we will be unable to discover that you did not receive our email, and, thus, we will lose contact with your country. Similarly, having at least two recipients helps ensure communication is maintained in situations such as individual prolonged absences etc.
- Please try and maintain the email addresses you give us and send us updates if necessary. We reserve the right to remove addresses that constantly bounce.
- Please create a stable URL for your Adhering Organization.

Fraud alerts

The IMU is regularly exposed to attempted frauds, usually in the form of emails requesting immediate transfer of money due to some emergency. I would like to take this opportunity to reiterate that the IMU never requests money on an individual basis.

Fraudulent emails often appear to be sent in the name of the IMU President or other IMU office holders, and can seem quite authentic, but closer scrutiny of the email reveals that the IMU is not the sender. Please also note that emails sent from the IMU President or IMU Secretary General are digitally signed (S/MIME certification) and have a signature with the IMU Logo below. Any other email should be considered as suspicious, in which case please do not respond to it and report it to me.

Regards

Christoph Sorger
Secretary General of the International Mathematical Union
