DESIGNING BRILLIANCE
SINCE 2001

ABOUT US

OUR STUDIO STARTED WITH A SIMPLE IDEA: TO CREATE TRULY INTERESTING DESIGNS RATHER THAN REPLICATING BORING AND MONOTONOUS CONCEPTS ALL OVER THE WEB. THIS DESIRE TURNED INTO A PROJECT AND LATER BECAME A REALITY.

WE KEEP STANDOUT
SINCE 2001

For 23 years we have been creating designs, web solutions, mobile applications, brand identities and marketing materials.

We consistently increase measurable indicators such as conversions and engagements to provide the most effective results for our clients.

The ideas we offer have been field-tested by major clients and successful start-ups in highly competitive markets.

We have extensive experience across various industries and technologies, ensuring tailored solutions for unique challenges.

OUR CORE COMPETENCIES INCLUDE:

- Independent audit and consulting on the business processes related to the design, marketing, and development of Internet services;

- Development of technical specifications, designs, branding, identities and advertising;

- UI and UX design and development leveraging our vast experience and all the latest research and trends;

- Development of fast and responsive front-ends - using the latest JavaScript, HTML/CSS stack - of any complexity, on any platform and on any device;

- Quality assurance and optimization of complex web projects and mobile applications;

- Marketing of any product based on existing marketing goals or the creation of new advertising strategies that align with your business plans.

WE CREATE TOP-NOTCH IT SOLUTIONS FOR BUSINESSES

23 YEARS
OF EXPERIENCE

700+
IMPLEMENTED
PROJECTS

20+
SPECIALISTS

Today our team is made up of professional graphic designers, developers and marketers with a large number of design projects, websites, systems and applications under their belt. We have extensive knowledge and experience in various fields. And that is just the beginning!

We are very flexible when it comes to your schedule, your time zone, or the speed at which you want us to work on tasks.

Our long-standing track record of delivering creative and impactful solutions makes us the ideal partner for your next project!

WE ARE READY TO TAKE ON A PROJECT THAT REQUIRES:

- Front-end and back-end development;
- Mobile application development;
- Chrome and Firefox extensions development;
- UI/UX design;
- 2D and 3D design;
- Marketing Strategy Development;
- Promotional and advertising materials design and development;
- Customer journey design and mapping;
- Brand identity design and development;
- Logo design.

# VARIOUS INDUSTRIES, DOMAINS AND TECHNOLOGIES

We approach every solution with care and clarity, taking into account all necessary security and certification requirements - our core areas of strength: Fintech, Marketing, Business Automation, Data Analysis and Aggregation, E-commerce, Browser Extensions, Payment Systems, SaaS, Multi-Vendor Solutions, CRM and ERP Systems, Social Networking and more.
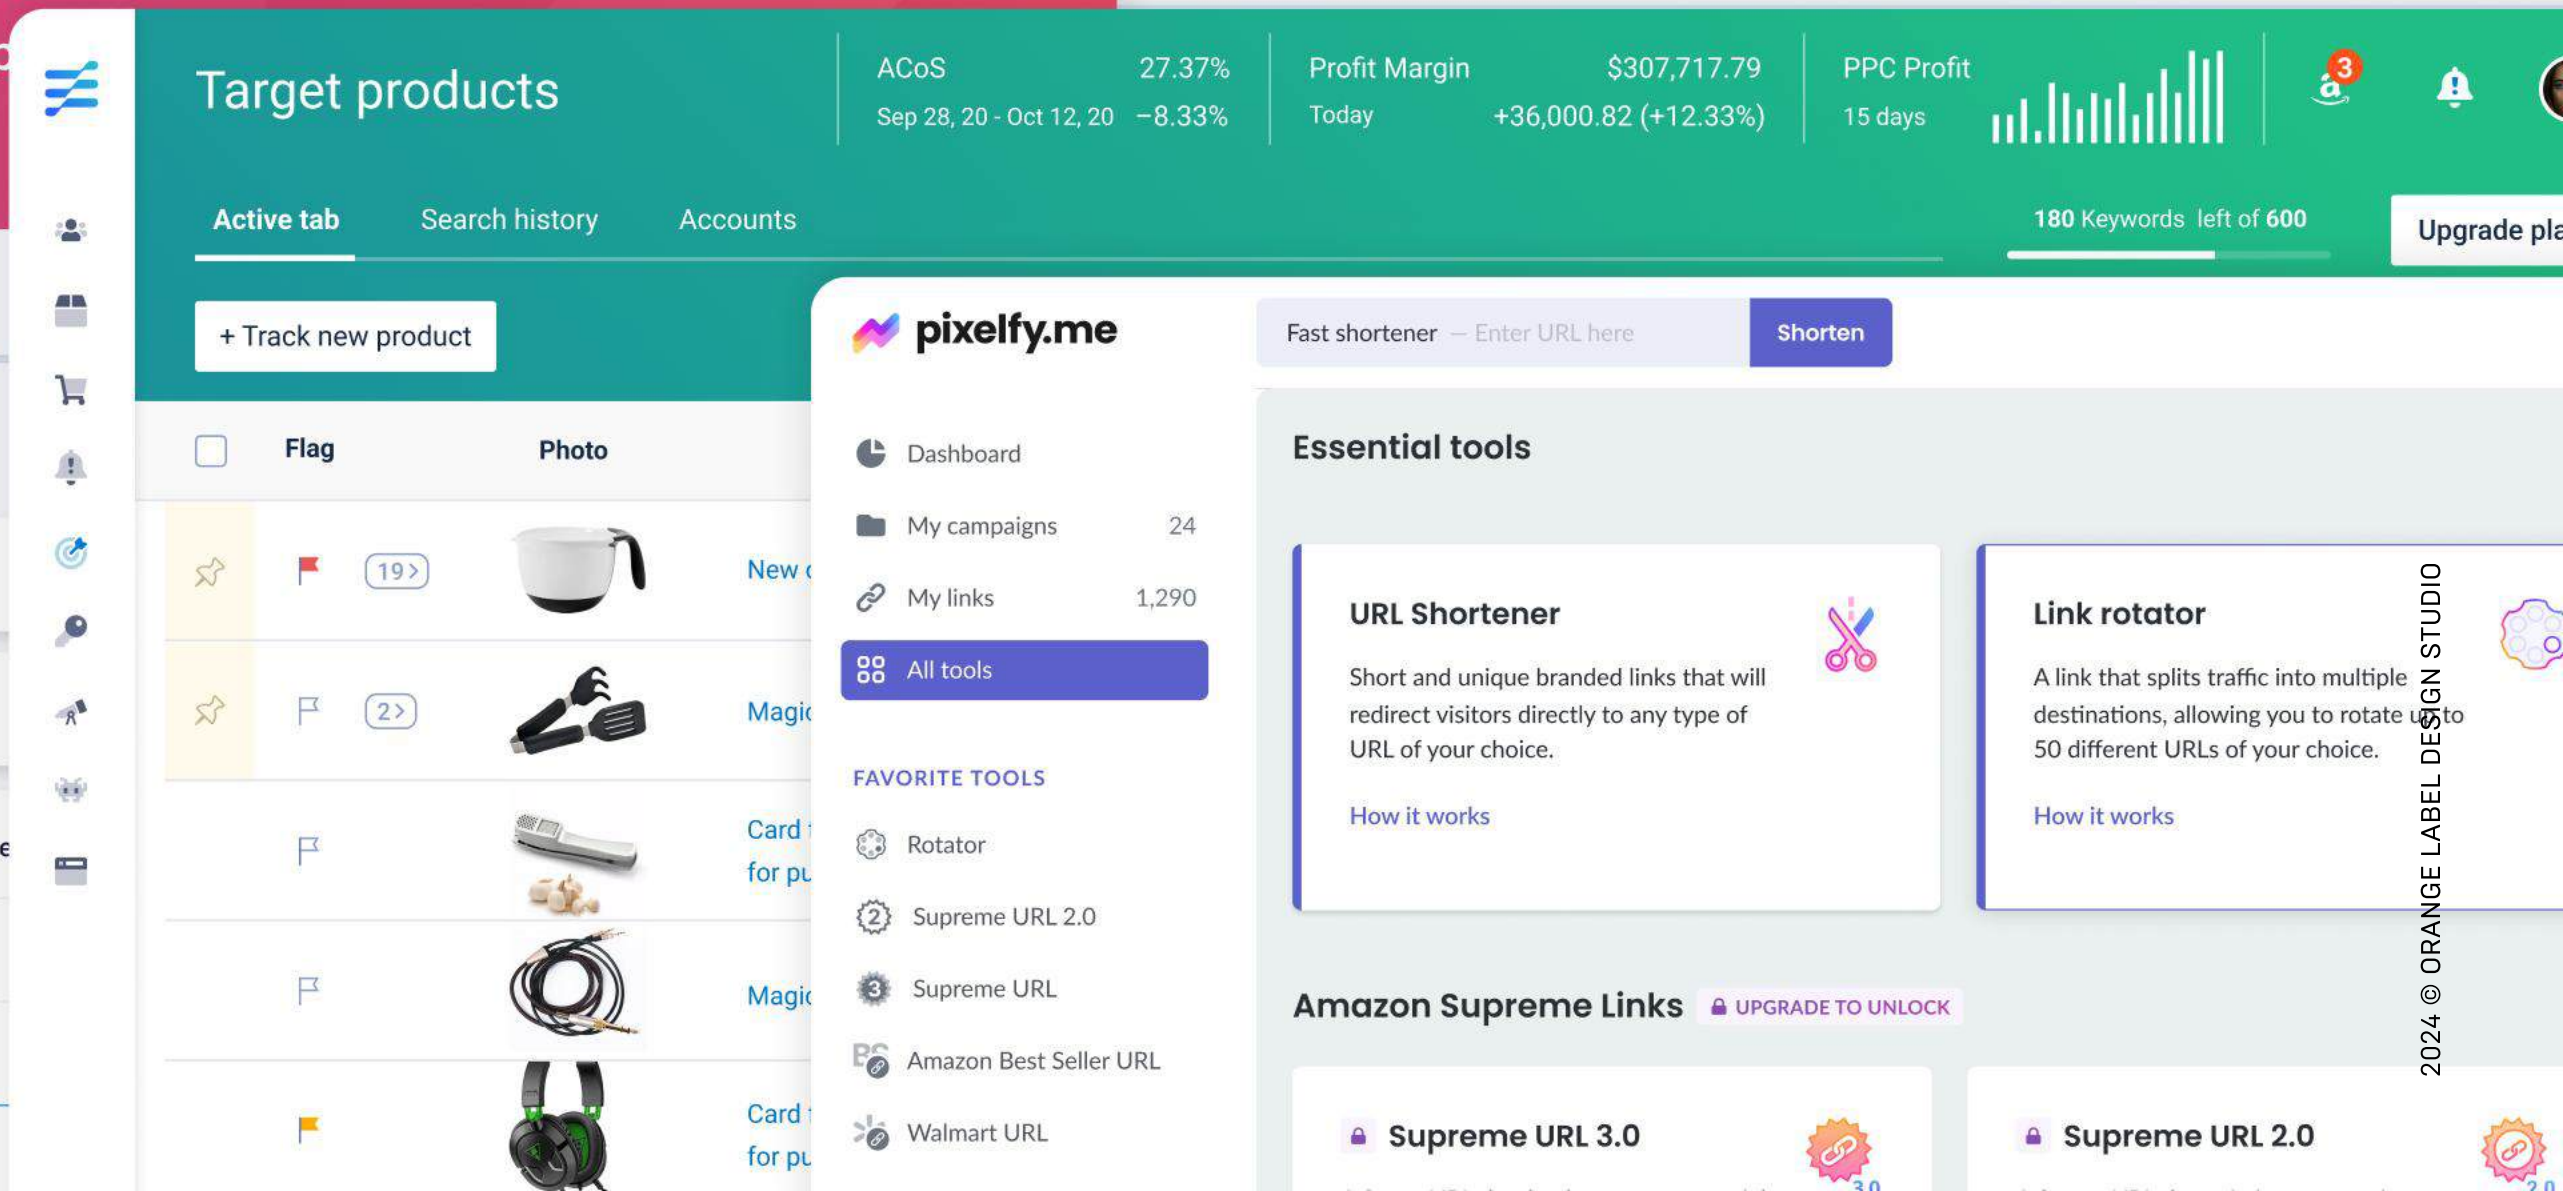

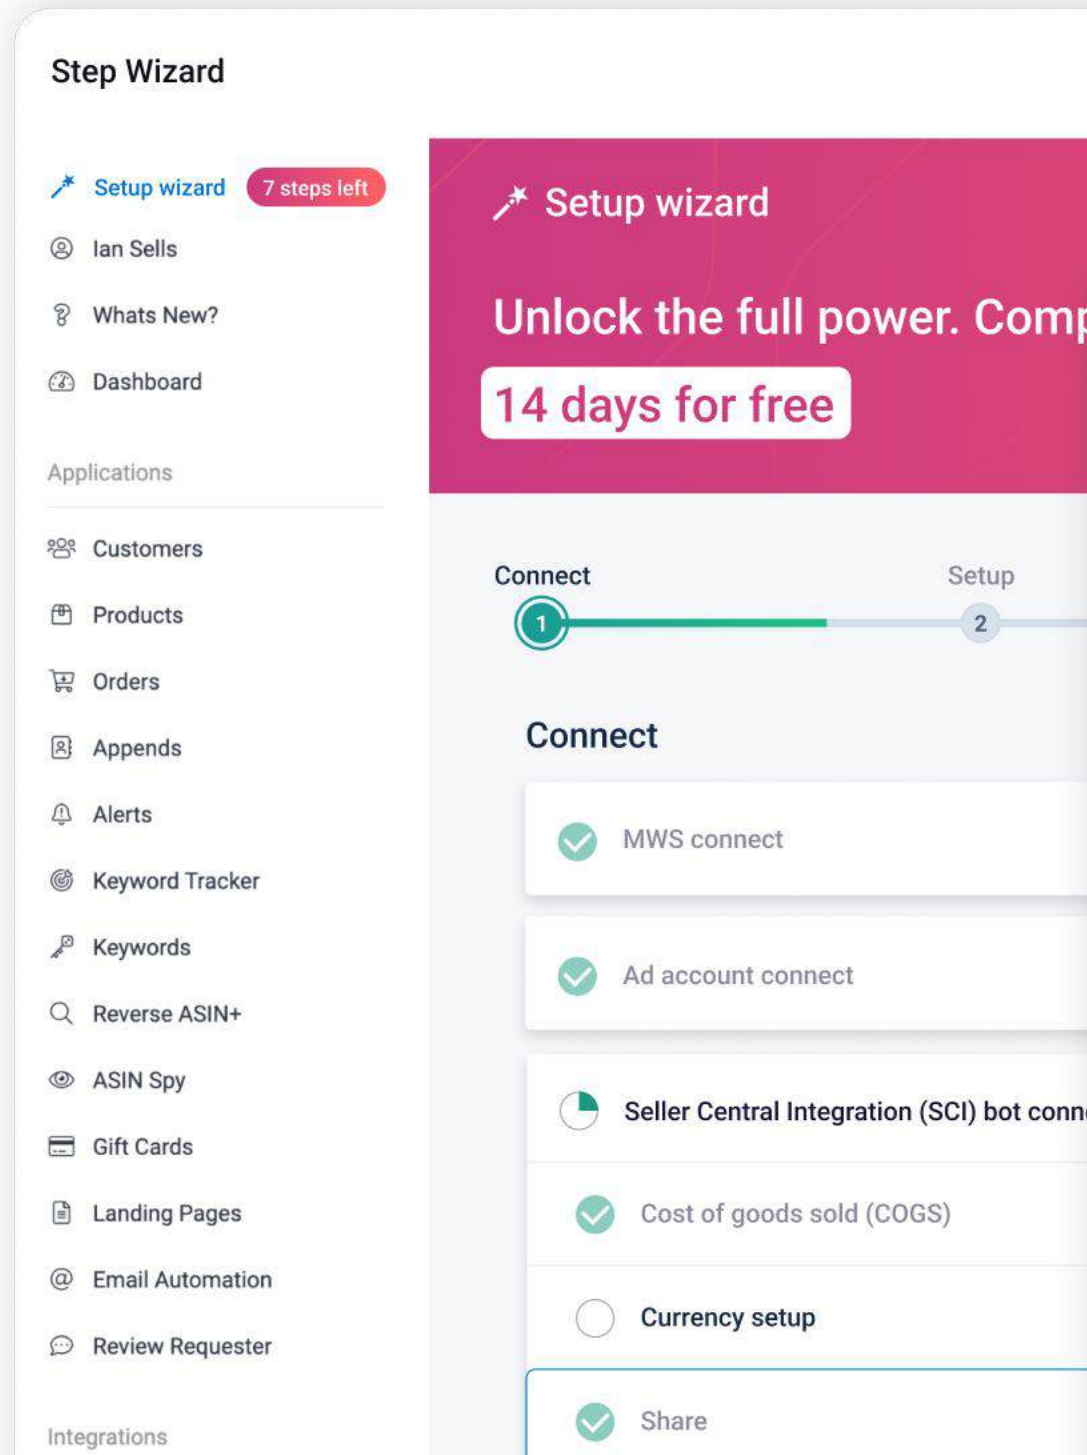

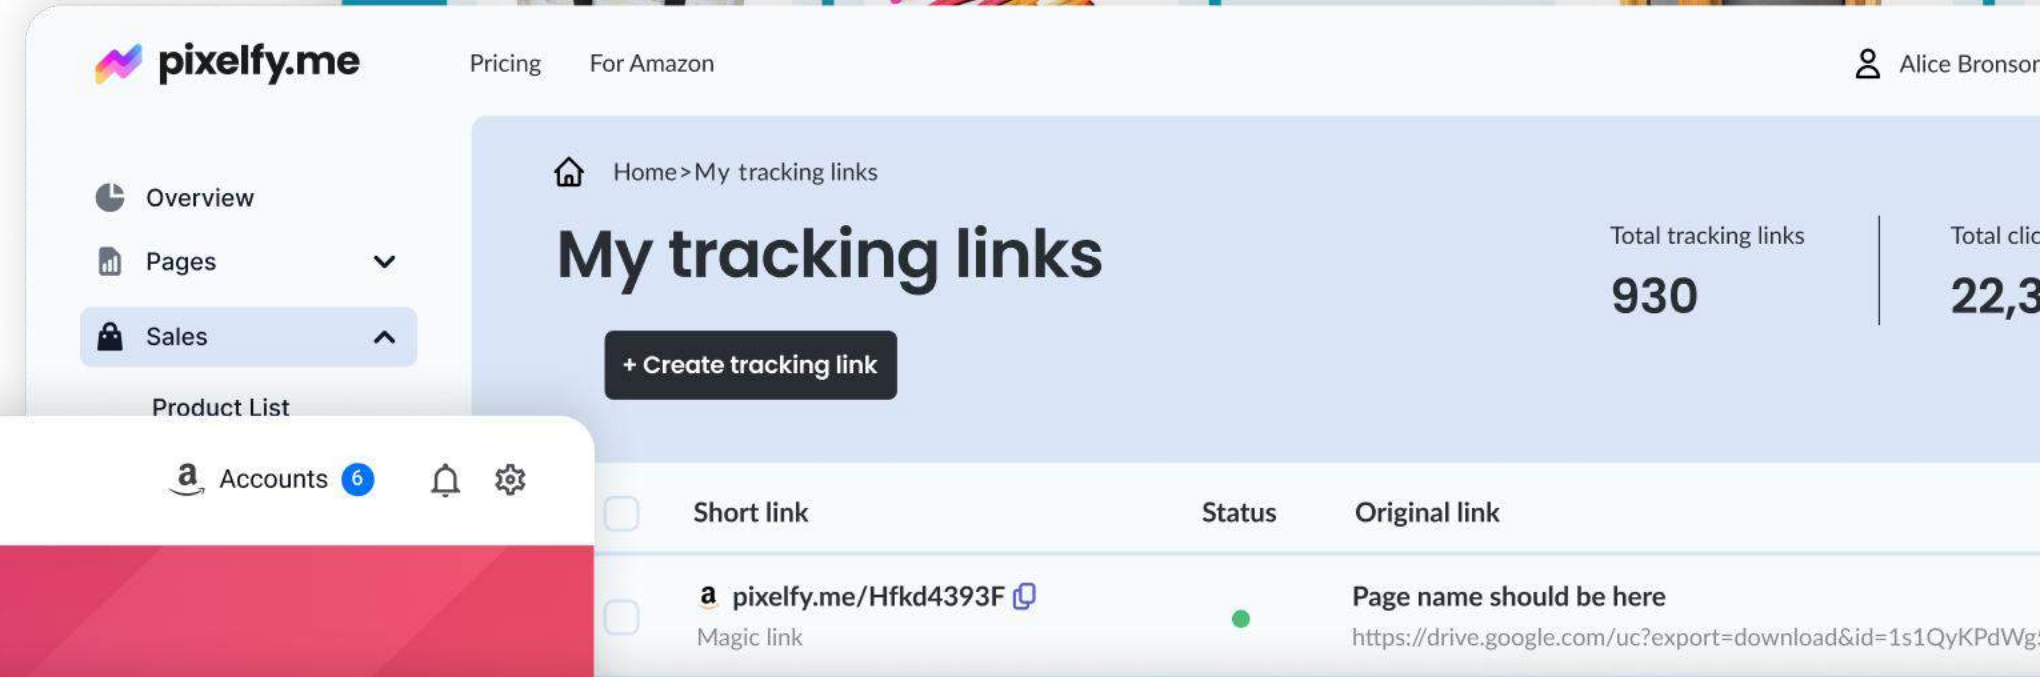

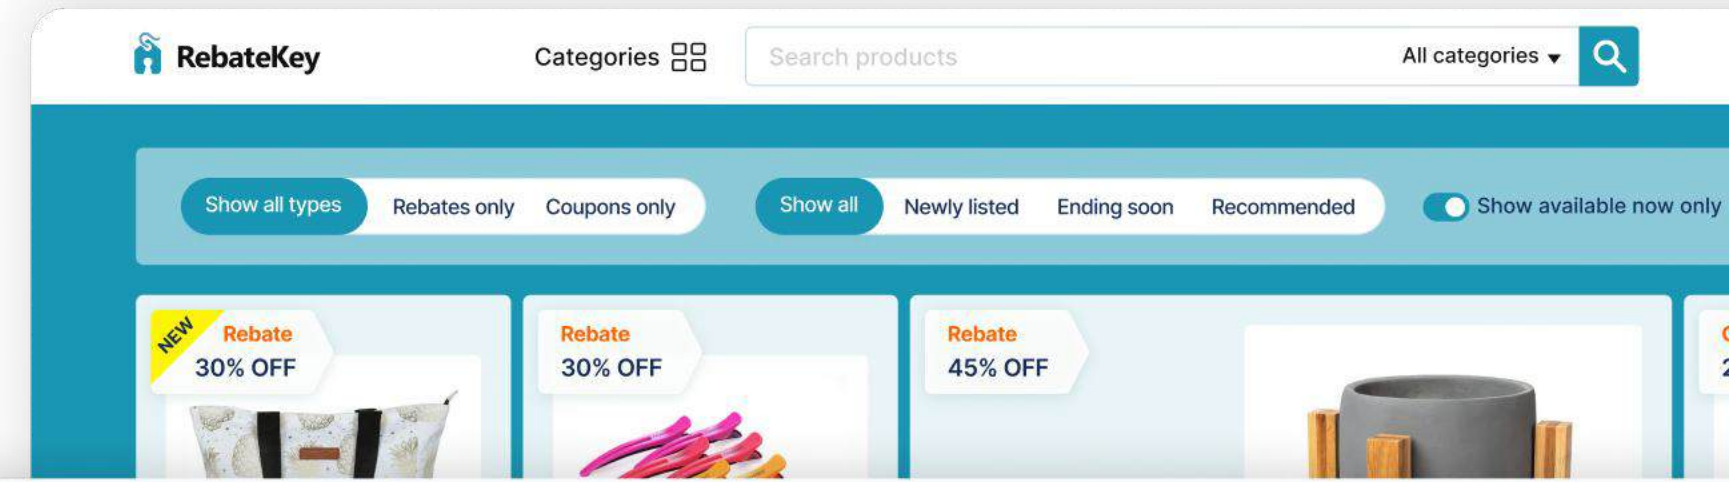

# WE METICULOUSLY PLAN, DESIGN AND MAP OUT OUR SOLUTIONS PRIOR TO DEVELOPMENT.

Development of block diagrams, wireframes, prototypes, CJM, user flows and any other project documentation.
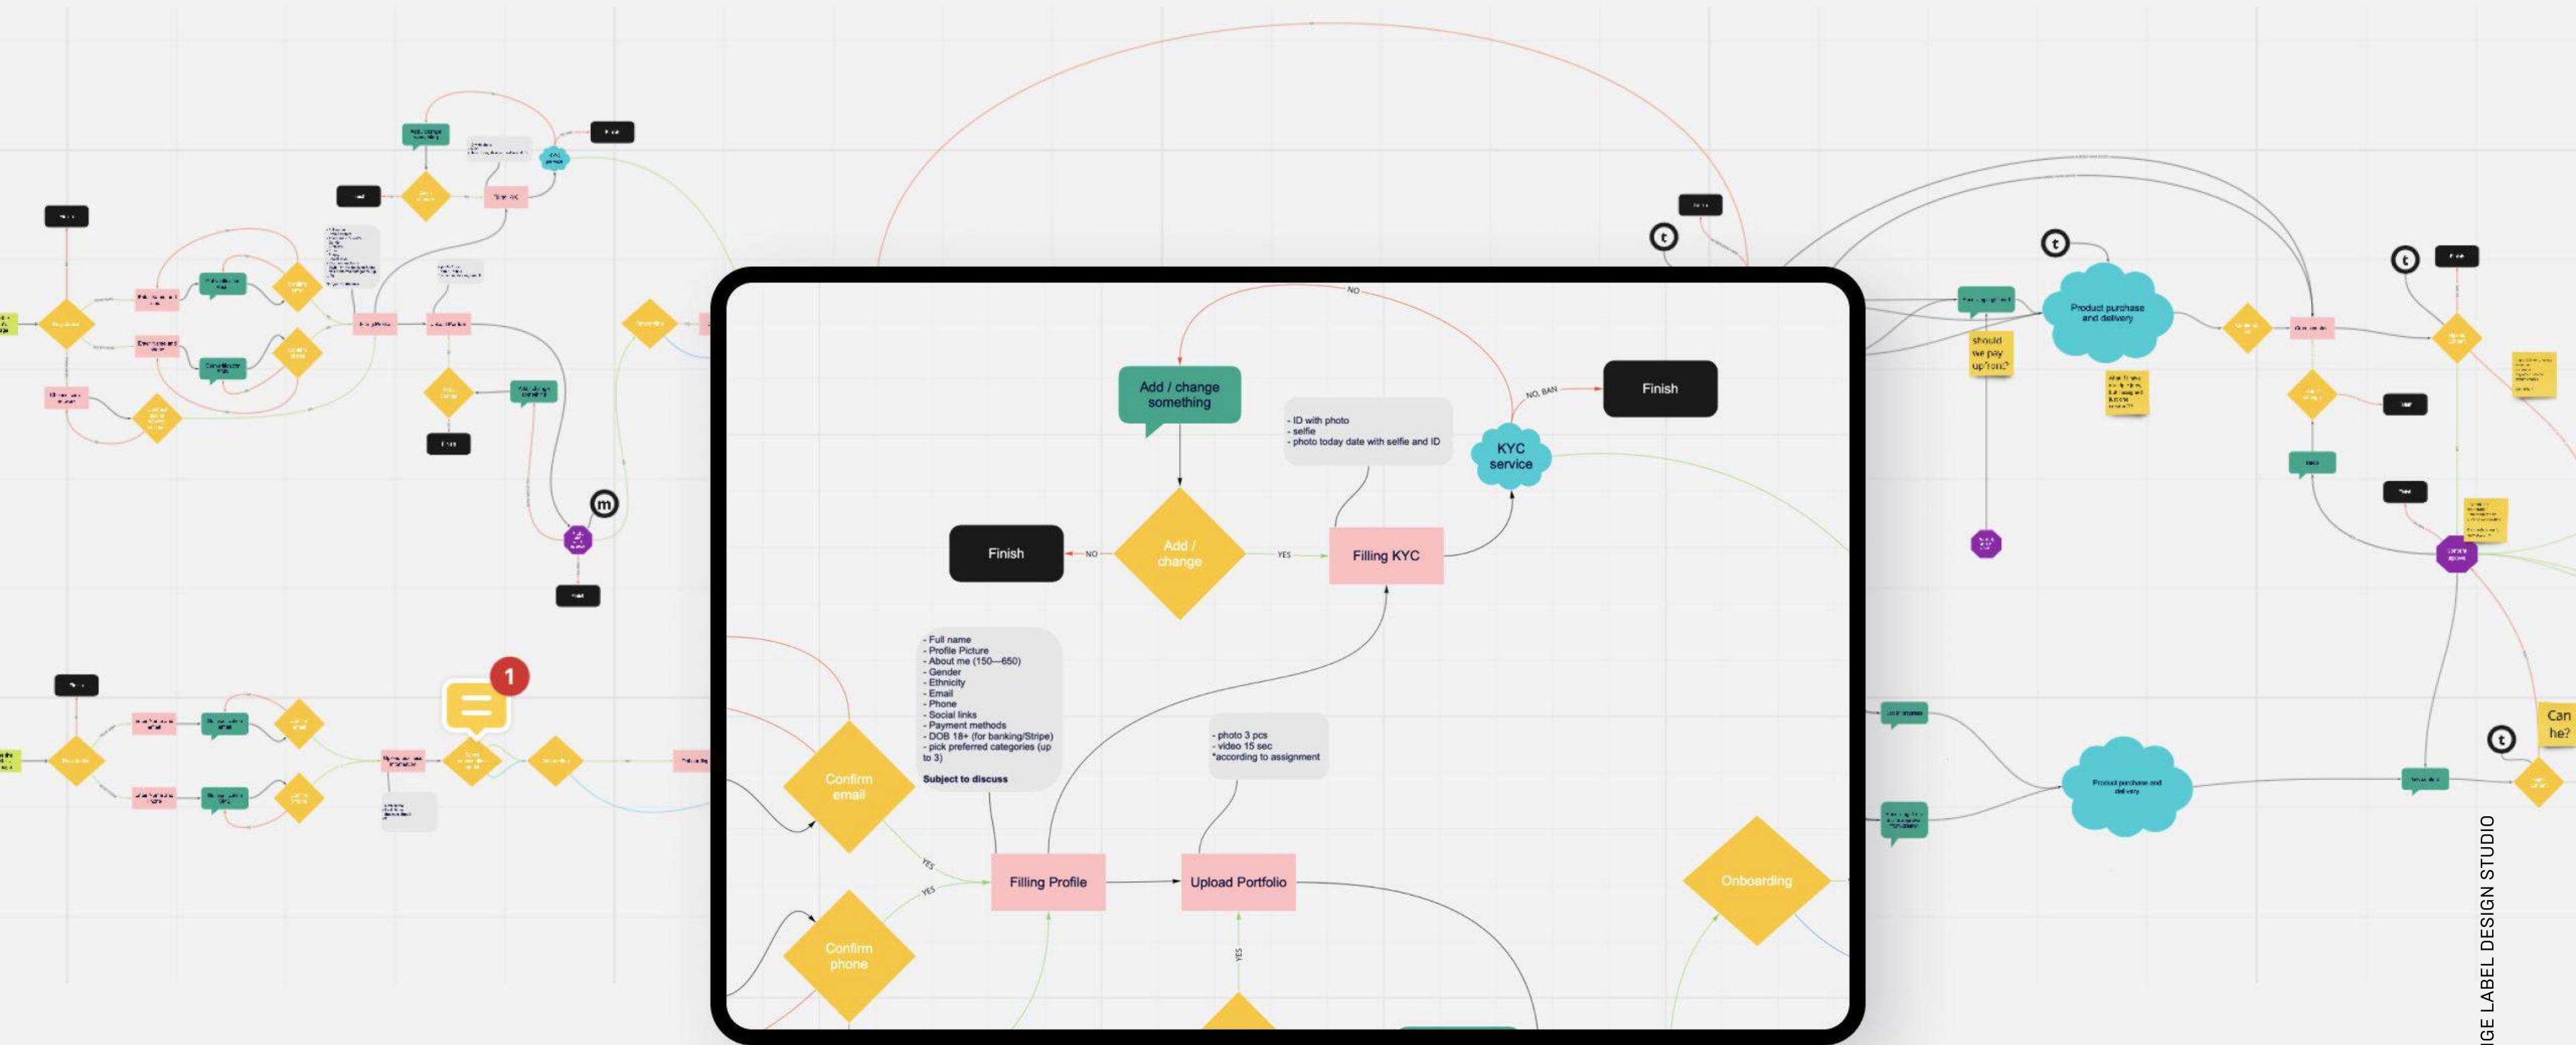

YOUR VISION - OUR EXPERTISE

We love every single project we work on - our core values are responsiveness, speed and usability. Our approach is based on efficiency with a dash of emotion and humor that brings each project to life.
