The urban Rural Distribution of Population is as under:

ADMN UNIT	RURAL POPULATION %			URBAN POPULATION %		
	1998	2017	2023	1998	2017	2023
PAKISTAN	67.5	63.56	61.18	32.5	36.44	38.82
KP	83.1	83.45	84.99	16.9	16.55	15.01
PUNJAB	68.7	63.14	59.30	31.3	36.86	40.70
SINDH	51.1	48.11	46.27	48.9	51.89	53.73
BALUCHISTAN	76.7	72.38	69.04	23.3	27.62	30.96
ISLAMABAD	34.4	49.63	53.10	65.6	50.37	46.90

7th Population and Housing Census is historic, as this largest digitization exercise of South Asia was planned in shortest span of time i.e., just 18 months. Further, for the first time Population of Pakistan was counted Digitally using Tablets. For the first time facility of Self Enumeration was provided to the citizens of Pakistan. This Census has also provided Economic Frame to determine the size of Economic clusters across the country. All the structures have been Geo Tagged. Online monitoring dashboards were provided to stakeholders. All abovementioned achievements make the First Digital Census a significant milestone and a huge leap towards digitization.

The Census data helps Governments to decide how to distribute funds and assistance to provinces, districts and localities. It is also used for reappropriation of National Assembly seats by drawing the lines of legislative districts.

PBS is highly obliged to all the officials of PBS, stakeholders, Field Staff and general Public for their participation, tiring efforts and cooperation to successfully complete the 7th Population and Housing Census.

(Muhammad Sarwar Gondal, Focal Person, Pakistan Bureau of Statistics)
