Place, date and time: Genoa Airport (LIMJ), 21 June 2024, 09:23 UTC

Aircraft

Registration Mark: OH-DBM
Type: Pilatus Aircraft Ltd., PC-12/47E
Operator: Fly7 Finland OY
Owner: Fly7 Finland OY

Pilots: 2

Passengers: 5

Flight:

Flight rules: Instrument Flight Rules (IFR)
Type of operation: Commercial
Point of departure: Milano Linate (LIML)
Point of landing: Saint Tropez La Môle (LFTZ)

Damage:

Crew: None
Passengers: None
Thirds: None
Aircraft: None
Ground: None

Short description:

Passengers and crew of the flight FSF213K from Milano Linate (LIML) to Saint Tropez La Môle (LFTZ) observed during the cruise phase smoke in the cabin (white/grey, acidic odour). Oxygen masks were donned, emergency descent initiated and emergency was declared for a diversion to Genova (LIMJ). The crew landed in Genova approximately 8 minutes after the initial smoke detection and performed emergency shut-down and evacuation. Every occupant was able to walk out of the airplane.

Remarks:

An investigation has been opened by the National Agency for Flight Safety (ANSV). (www.ansv.it)
