Subject: National Tropical Cyclone Watch Warning Product (TCV)

Collaboration Testing June 4, 2024

The NWS National Hurricane Center, the Weather Prediction Center, the Ocean Prediction Center, and Weather Forecast Offices (WFOs) in the NWS Eastern Region and Southern Region will perform internal testing of the National Tropical Cyclone Watch/Warning (TCV) product collaboration process on Tuesday, June 4, 2024.

Internal testing will begin at approximately  $1600\ \mathrm{UTC}$  and terminate at  $1900\ \mathrm{UTC}$ .

Internal TCV test products are not intended to be released externally through NWS dissemination and communication systems. The text product affected by collaboration testing are the National Tropical Cyclone Watch/Warning (TCV) products issued under the following AWIPS Product Identifiers (PIL) and World Meteorological Organization (WMO) Identifiers (ID):

In addition, the following National Digital Forecast Database (NDFD) elements will be created for this test:

- Tropical cyclone wind probabilities (incremental and cumulative) for 34 kt, 50 kt, and 64 kt
- Hazard grid (including tropical storm, hurricane, and storm surge hazards)

The NWS will continue periodic internal tropical software testing during the remainder of 2024. The national TCV product will contain a summary of collaborated wind and/or storm surge watches and warnings, depicted by NWS-defined geographic zones.

NWS WFOs participating in the national TCV product collaboration tests are listed below by NWS Region:

NWS - Eastern Region

Columbia, SC (CAE) Greenville-Spartanburg, SC (GSP) Blacksburg/Roanoke, VA (RNK)

NWS - Southern Region

Atlanta, GA (FFC)
Jacksonville, FL (JAX)
Melbourne, FL (MLB)
Miami, FL (MFL)
Morristown, TN (MRX)
San Juan, PR (SJU)
