From: Stephen Bieda III, Ph.D, Chief
 Severe, Fire, Public and Winter Weather Services Branch

Subject: Discontinuation of the Temperature and Precipitation Summary
 for Deep South Texas, Effective January 9, 2024

Effective Tuesday, January 9, 2024, the NWS Brownsville Weather Forecast Office will discontinue issuance of the Temperature and Precipitation Summary Product (AGOBRO).

The information contained in the AGO product duplicates information contained in other text products as well as various web sites and NWS application programming interfaces (API).

WFO local products providing the data contained in the AGO product include:

- * CLI Text Products for routine climate reports
- * RR3 Text Products for cooperative observations
- * MTR Text Products for routine METAR observations with temperature and precipitation data

Alternative web sites providing the data contained in the AGO product include:

- * NOAA Online Weather Data:
<https://www.weather.gov/wrh/Climate?wfo=bro>
- * NWS Weather API:
<https://www.weather.gov/documentation/services-web-api>
- * Aviation Weather Center API:
<https://aviationweather.gov/data/api/#/>

The weather enterprise and private sector companies may also provide tailored services.

Product to be discontinued:

```
-----  
PRODUCT NAME                      AWIPS ID                      WMO Header  
-----  
Temperature and Precipitation      AGOBRO                      SHUS44 KBRO  
Summary for Deep South Texas
```
