Subject:     NWS Mobile Site Decommissioning, Effective June 26, 2024

Effective on or about June 26, 2024, at 1400 Coordinated Universal Time (UTC), the NWS Mobile site at:

<https://mobile.weather.gov>

will be decommissioned and redirected to weather.gov in order to focus NWS resources on redesigning weather.gov to improve its value and user experience, which will include full mobile accessibility.

In place of the mobile site, users can bookmark a forecast page, which is compatible with most mobile devices and provides NWS forecasts and warnings. An example forecast page is found at the following URL:
