Green Football Weekend is back!

Next 2-5 February 2024, we, the 3.5 billion football community, will show we have the power to change things like nothing else on planet earth - starting with our stomachs.

Football and food go hand in hand. What we eat impacts our health and performance.

Eating more veg helps reduce injuries, improve recovery times, increase circulation, and importantly, protect our world. So we're inviting fans everywhere in the UK to eat like the playing elite, and join the Green Football Weekend **#TransferToVeg** challenge to **try a tasty veggie meal**.

Between **18th January - 7th February**, at greenfootballweekend.com, fans of all ages will get access to free recipes from clubs and players, and can use them to score points for their club towards the Green Football Cup, by pledging action or by sharing a photo of their green activity!

And we've got something special for you! The Green Football Weekend Teachers' Packs for Key Stages 1, 2 and 3 bring the excitement of football and climate action into your classroom.
