

HAITI— EMERGENCY TRACKING TOOL (ETT)

Displacement in the municipality of Croix-Des-Bouquets (West District)

Dashboard #33 Data Collection: 2 – 8 January 2024 Publication: 9 January 2024

The objective of the Emergency Tracking Tool (ETT) is to collect information on large and sudden population movements as well as security and climatic emergencies. Information is collected through phone interviews with key informants and direct observation.

Origins and host locations of displaced persons

This map is for illustration purposes only. The depiction and use of boundaries, geographic names and related data shown on maps and included in this report are not warranted to be error free nor do they imply judgment on the legal status of any territory, or any endorsement or acceptance of such boundaries by IOM.

Event Summary

On 2 January 2024, an armed attack took place in the municipalty of Croix-Des-Bouquets, affecting several neighborhoods such as Guedon and Turbe, located in the 4th communal section of Petit Bois, as well as the neighborhoods of Galette - Roche Blanche and Denis - Campeche Livia in the 3rd communal section of Petit Bois.

As a result of these events, approximately 67 households, comprising 268 individuals, were forced to flee their homes towards areas within the same municipality, as well as in Tabarre and Delmas. All these displaced individuals have found refuge with host families.

Methodology

Limits

The information presented in this report may not represent all displacements caused by this incident. Indeed, it is possible that some displacements were not detected by key informants. In the case new displacement information caused by this incident is reported, updates can be made accordingly.

Furthermore, it is important to consider that figures are estimates and not data from a counting or registration of displaced households.
