POPULATION OF UNINCORPORATED VILLAGES
AND SETTLEMENTS

This list, compiled from records of the 1956 and 1951 Censuses, shows the population totals of the many villages and settlements across Canada which are not municipally organized and had a population of 50 or more at the 1956 Census. The locations of these places are also indicated.

Population totals are issued in the census reports for the various types of municipal subdivisions in the different provinces such as townships, municipalities, parishes, as well as for all incorporated cities, towns and villages. Separate totals are not shown, however, for unincorporated places since they do not have any official boundaries. It is not always possible to isolate their populations from the remainder of the township, municipality, etc., in which they are situated.

Enumerators are instructed, however, to show separately on their records the households of any unincorporated places which may be located in their enumeration areas. The degree of success obtained in this procedure has varied from area to area. Because of the large number of these places across Canada, very little checking can be carried out in those instances where separate identification of particular villages or settlements has not been indicated. Because post office addresses are sometimes confused with the address of the actual location of dwellings, it is difficult to determine the exact number of persons to be ascribed to the village or settlement as distinct from the surrounding area.

For such reasons as the above, the population totals shown in the report should be considered as approximations. Where separate figures are not available in 1951, this fact has been indicated by a footnote to the table. In the majority of such instances this would mean that the particular village or settlement was not shown separately in the enumerator's records. In certain other instances particularly in Newfoundland some settlements shown separately in 1951 were grouped to give a comparative figure with 1956 returns.

POPULATION DES VILLAGES ET ÉTABLISSEMENTS
NON CONSTITUÉS

La présente liste, établie d'après la documentation des recensements de 1956 et de 1951, donne la population totale des nombreux villages et établissements au Canada qui ne sont pas organisés en municipalités et qui comptaient lors du recensement de 1956 une population de 50 ou plus. Elle montre également la situation géographique de ces endroits.

Les chiffres de la population paraissent dans les rapports de recensement relativement aux divers genres de subdivisions municipales dans chaque province, telles que les townships ou cantons, les municipalités, les paroisses, de même que toutes les villes et tous les villages non constitués. Toutefois, des chiffres distincts ne sont pas donnés pour les endroits non constitués parce que ces derniers ne sont pas officiellement délimités. Il n'est pas toujours possible de dégager le chiffre de leur population de celui du reste du township ou canton, de la municipalité, etc., dont ils font partie.

Les agents recenseurs sont tenus, néanmoins, d'inscrire séparément dans leurs dossiers les ménages de tous les endroits non constitués qui peuvent se trouver dans leur région de dénombrement. Cette méthode n'a pas réussi également dans toutes les régions. Du fait du nombre très élevé de ces endroits au Canada, il est rarement possible de vérifier lorsque l'identité des villages et établissements distincts n'a pas été établie. L'adresse postale étant parfois confondue avec celle de l'emplacement réel du logement, il est très difficile de constater le nombre exact des personnes à inscrire pour le village ou l'établissement, au lieu de la région avoisinante.

Il faut donc, pour les raisons indiquées ci-dessus, considérer comme approximatifs les chiffres du présent rapport. Lorsqu'il n'existe pas de chiffres distincts pour 1951, le fait est indiqué dans un renvoi. Dans la majorité des cas, il s'agit d'un village ou établissement qui ne figurait pas à part dans les documents de l'agent recenseur. Dans certains autres cas, particulièrement à Terre-Neuve, certains villages ou établissements recensés à part en 1951 sont groupés pour fins de comparaison avec 1956.
