

Microsoft Surface Arc Mouse

Fact Sheet

May 2017

Slim, light and ready to travel, the Microsoft Surface Arc Mouse is designed to conform to your hand, and snaps flat to fit easily in your bag or pocket. The latest generation of our Arc mouse series, the new Microsoft Surface Arc Mouse features a streamlined design, bringing together form and function for the best mouse experience.

The Microsoft Surface Arc Mouse is the perfect portable partner to your Surface. It connects via Bluetooth® 4.0, and comes in a range of rich colors including Light Gray, Burgundy and Cobalt Blue¹ to complement your device and personal style.

Top Features and Benefits

- **Take it anywhere.** Microsoft Surface Arc Mouse goes anywhere without the weight or bulk of a traditional mouse. When you're on the move, it snaps flat and slips easily into your pocket or bag.
- **New experiences.** New functionality in the Microsoft Surface Arc Mouse includes a full-scroll plane, allowing not only vertical but horizontal scrolling.
- **Beautifully crafted and complementary.** The new Microsoft Surface Arc Mouse features an even more satisfying snap sound and feel than its predecessor, a more comfortable form factor to better fit your hand, and reduced haptic feedback. The smooth, wrinkle-free tail alone features more than 90 mechanical engineering parts, far outweighing the standard for mice today, which typically feature only seven to nine mechanical engineering parts.
