## Housing and HIV-Related Health Care Outcomes Among HRSA's Ryan White HIV/AIDS Program (RWHAP) Clients

Based on 2018 Ryan White HIV/AIDS Services Report (RSR) client-level data

Based on 501,478 clients with reported housing status information.

Several populations experience disproportionately high rates of temporary or unstable housing.

		Unstable	Temporary
	Youth (13–24 years old)	<b>5.9</b> %	10.4%
TO.	People who inject drugs*	9.9%	10.8%
Ď.	Transgender persons	11.5%	12.0%

<sup>\*</sup> Clients who reported injection drug use as their transmission category.

## **HIV Viral Suppression by Housing Status**
