ONESOURCE Indirect Compliance

U.S. and Canada

Get tax right the first time, every time

ONESOURCE Indirect Compliance for U.S. and Canada

Industry standard for sales and use tax and GST compliance

For tax professionals, tax return compliance is a monthly burden. An ever-changing tax landscape, an expanding business footprint or offering, and industry complexities can be hurdles to having confidence in your compliance process.

With ONESOURCE® Indirect Compliance, streamline the tax compliance process with up-to-date content, including expanded food and beverage support for over 800 signature-ready returns for the United States, Canada, and Puerto Rico. We also provide electronic filing reports for over 30 states and direct e-file support for certain states that allow a direct e-file integration. ONESOURCE Indirect Compliance also provides powerful data reconciliation, adjustment, and reporting capabilities.

Control the tax return process

Get the power and flexibility you need to feel confident in your tax return process. Through a cloud-based solution, ONESOURCE Indirect Compliance empowers users with complete control, allowing them to achieve better efficiency at a lower cost through eliminating software maintenance and producing accurate returns with fewer clicks.

What you get with ONESOURCE Indirect Compliance for U.S. and Canada

Flexible importing

Easily import data from ERPs, POS systems, e-commerce applications, and other solutions.

Data management tools

Get comprehensive data management controls, handle reviews and signoff, and make audited manual adjustments as needed.

Data integrity

Get extensive data analysis that uses standard or customized interrogation tools to keep your data solid.

Latest e-filing advancements

Get industry-leading e-file support, including parish upload in Louisiana and ONESPOT support in Alabama.
