THOMSON REUTERS

ONESOURCE™

The future of global statutory reporting

THOMSON REUTERS®
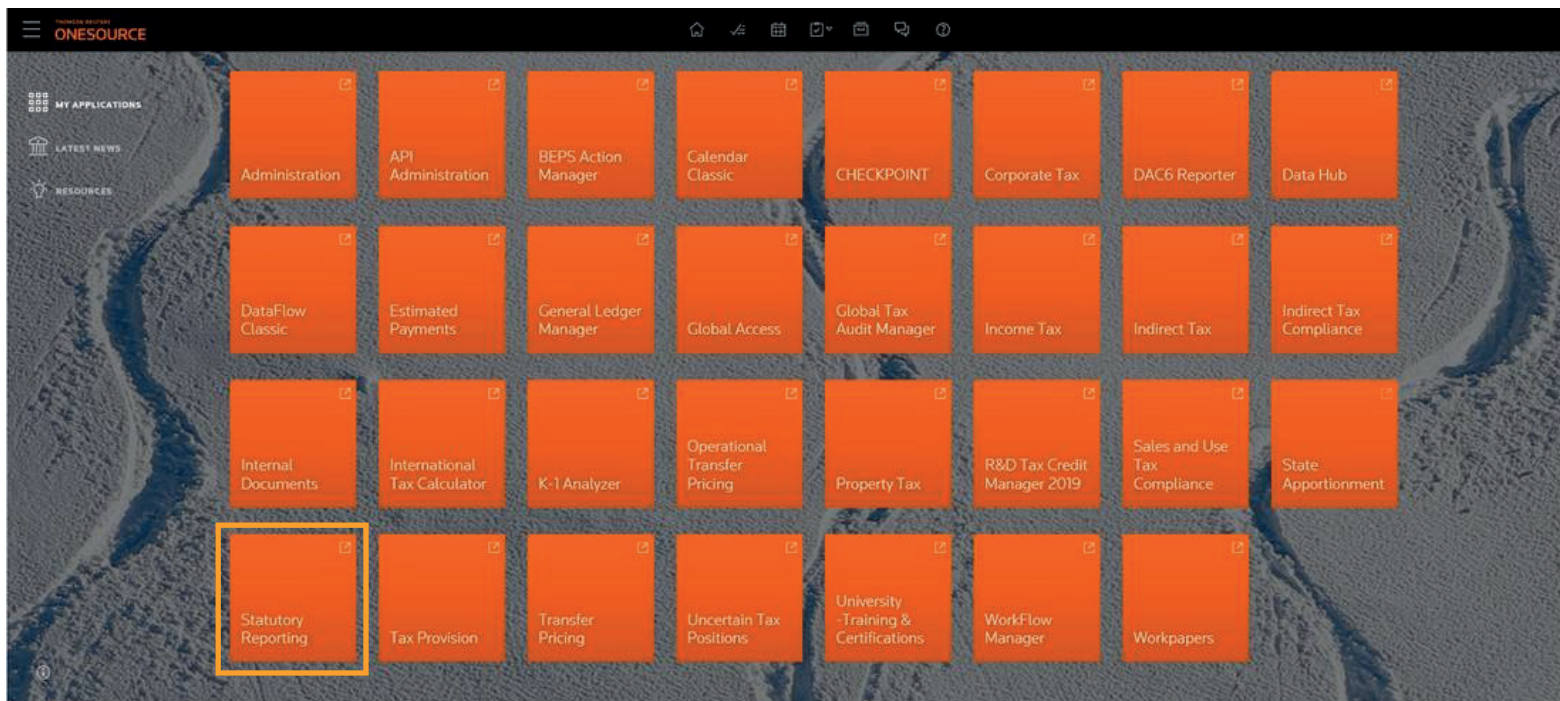

Harness the power of cloud technology for statutory reporting, everywhere you operate.

Filing statutory financial statements is a legal obligation in most countries around the world. For every entity, local statutory financial statements must be submitted in the local language and must meet the local reporting requirements as well as filing deadlines.

ONESOURCE® Statutory Reporting brings standardization, accuracy, and efficiency to your reporting obligations. Our advanced financial reporting technology makes your reporting more straightforward, helping you save more of what's most valuable. Your time.

Ensure all your disclosures are compliant, and bring better collaboration and consistency across your whole statutory reporting preparation and review process with ONESOURCE next generation technology.

Standardized sets of accounts, accessible anywhere

Move from spreadsheets and documents to a purpose built, cloud-based global disclosure management tool.

A global platform that adapts locally

Combine best-practice, country-specific content with multi-language translation.

Efficiency through automation

Save time and increase accuracy when preparing and reviewing statutory reports.

Compliance

Content-based knowledge

Have complete confidence your organization meets local compliance rules. The best-practice content within ONESOURCE includes unbeatable local GAAP content in local language produced in-house and by Big Four Firms, which can be translated into English, simplifying your upstream and downstream report preparation and review process.

Standardization with flexibility

ONESOURCE Statutory Reporting allows you to easily capture and format data centrally while keeping the integrity of the content across all entities. The centrally stored data creates consistency by providing a single source of truth for your whole organization. And the automation capability gives a flexible and efficient way to produce your reports, saving time and reducing the risk of re-keying errors.

Save time with automation

Increase efficiency and accuracy when preparing your reports with automatic rounding, note and page numbering, referencing, and a roll-forward process on ONESOURCE. Quickly generate supporting workpapers that link your source data to your report for total transparency.

Combine expert local GAAP content with automation technology.

Connectivity

The power of the cloud

Stay connected wherever, whenever, with ONESOURCE Statutory Reporting. Using a single, cloud-based solution for reporting enables you to work more flexibly and collaborate regionally and globally. The cloud technology also ensures any content updates are available for your organization to adopt when you need.

Improved transparency

With less touchpoints, ONESOURCE Statutory Reporting enables fewer iterations and less back and forth when getting accounts signed off. This means more time to work on value-added work and activities that benefit your organization and wider community. See the full audit trail from your trial balance to your reports, including any adjustments, which means better transparency into your reported numbers.

## Intuitive technology for better efficiency

Ensure data is connected by leveraging API technology to integrate your systems with ONESOURCE. Allow trial balance data, journal entries, and other disclosure data to flow seamlessly, which not only helps data accessibility, but also provides opportunities for process automation.

A single solution to keep statutory reporting data flowing seamlessly.

Connectivity between statutory reporting and your other business applications

Ensure your finance department is working in harmony with your tax department. Bring in your data just once with Thomson Reuters® Data Hub, and leverage your data across ONESOURCE and any number of third-party analytical and visualization tools using APIs. Validate and enrich your data from a centralized data repository and enjoy automated, no touch processes. Feed your statutory reporting numbers into your tax provision process and ensure total integrity of your data — however and wherever you use it.

Our APIs facilitate easy data flow between ONESOURCE and your chosen business applications.
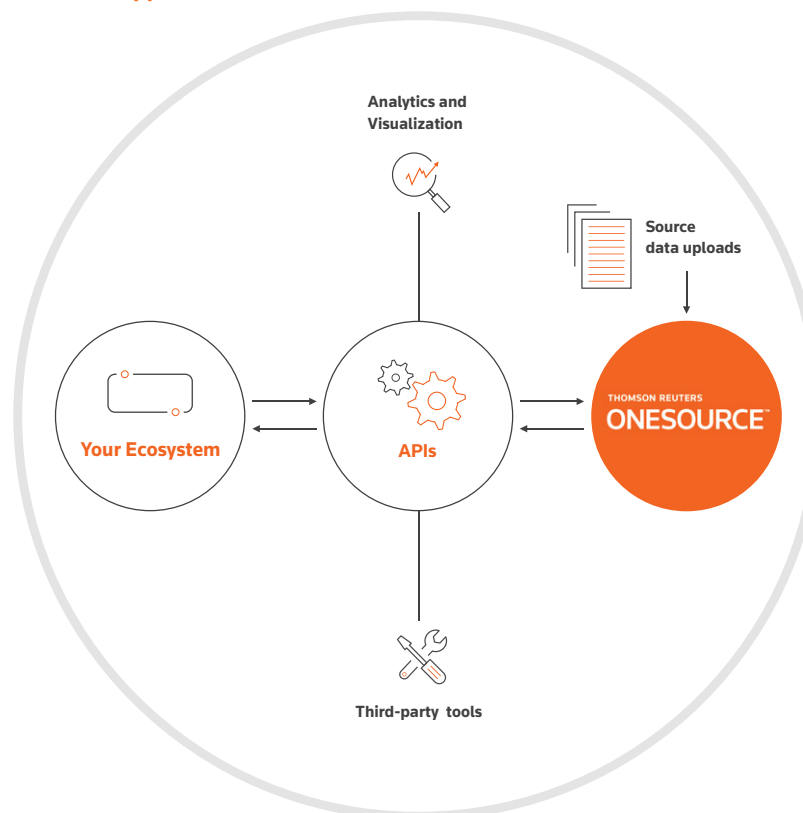

Change

Better financial processes

ONESOURCE Statutory Reporting facilitates the completion of financial statements earlier in your financial process. You spend less time on data collection and managing multiple report iterations with auditors, which allows for quicker access to the information you need.

Stay ahead of the curve

ONESOURCE Statutory Reporting keeps you ahead of change with up-to-date content across all jurisdictions. The next generation technology ensures you get it right, faster — with quality data you can rely on, reducing the risk of errors or missed deadlines.

Transform financial reporting

With ONESOURCE, you have one provider and one centralized platform for complete control of your financial reporting. The global templates and translation tools help you to transform your operations, creating value for the whole business.

Attract and retain the top talent with industry-leading technology and tools.

Statutory Reporting is becoming increasingly digital. Combine the connectivity of the cloud with advanced functionality from next generation ONESOURCE technology.
