

**Activity 1:** Below are pictures of different stages of a beetle's life cycle.  
Match them to their correct stage using the key below.

**STAGE 1: EGG | STAGE 2: LARVA**  
**STAGE 3: PUPA | STAGE 4: ADULT**

**Stage:**

**Stage:**

**Stage:**

**Stage:**

**Activity 2:** Write the insect and type of metamorphosis from the descriptions below.

### **Insect 1**

My life cycle has four stages.  
In the third (pupa) stage, I turn into a chrysalis.  
I use my feet to taste.

Type of metamorphosis? \_\_\_\_\_

Insect? \_\_\_\_\_

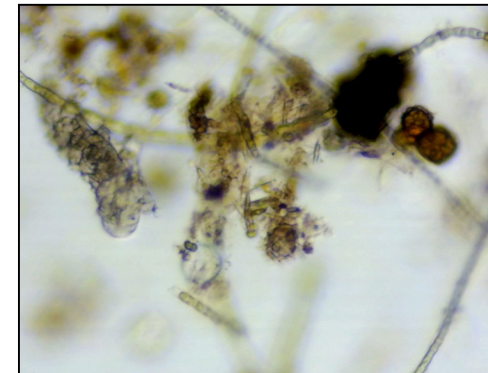

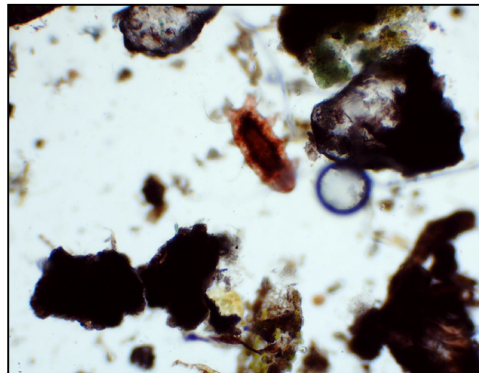

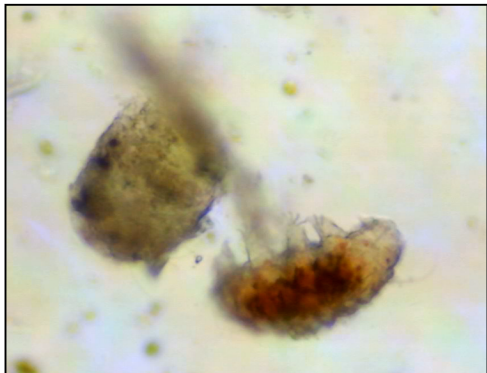

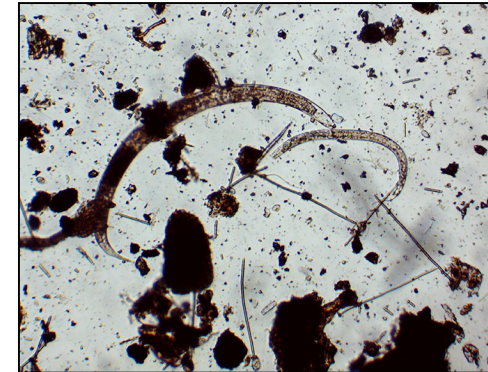

### **Insect 2**

My life cycle has three stages.  
My wing cases are really tough.  
We have existed for more than 250 million years.

Type of metamorphosis? \_\_\_\_\_

Insect? \_\_\_\_\_

**Activity 3:** Circle the tardigrades in the images below.

**Crack the code:** How many tardigrades did you spot? Choose from the answers below.
