

**Activity 1:** Below is a list of Hammerhead Shark adaptations. Match the adaptation to the benefit.

**Adaptation:**

Skeleton made of cartilage

Wide head full of electrical receptors

Eyes on the side of their head

Strong sense of smell

**Benefit:**

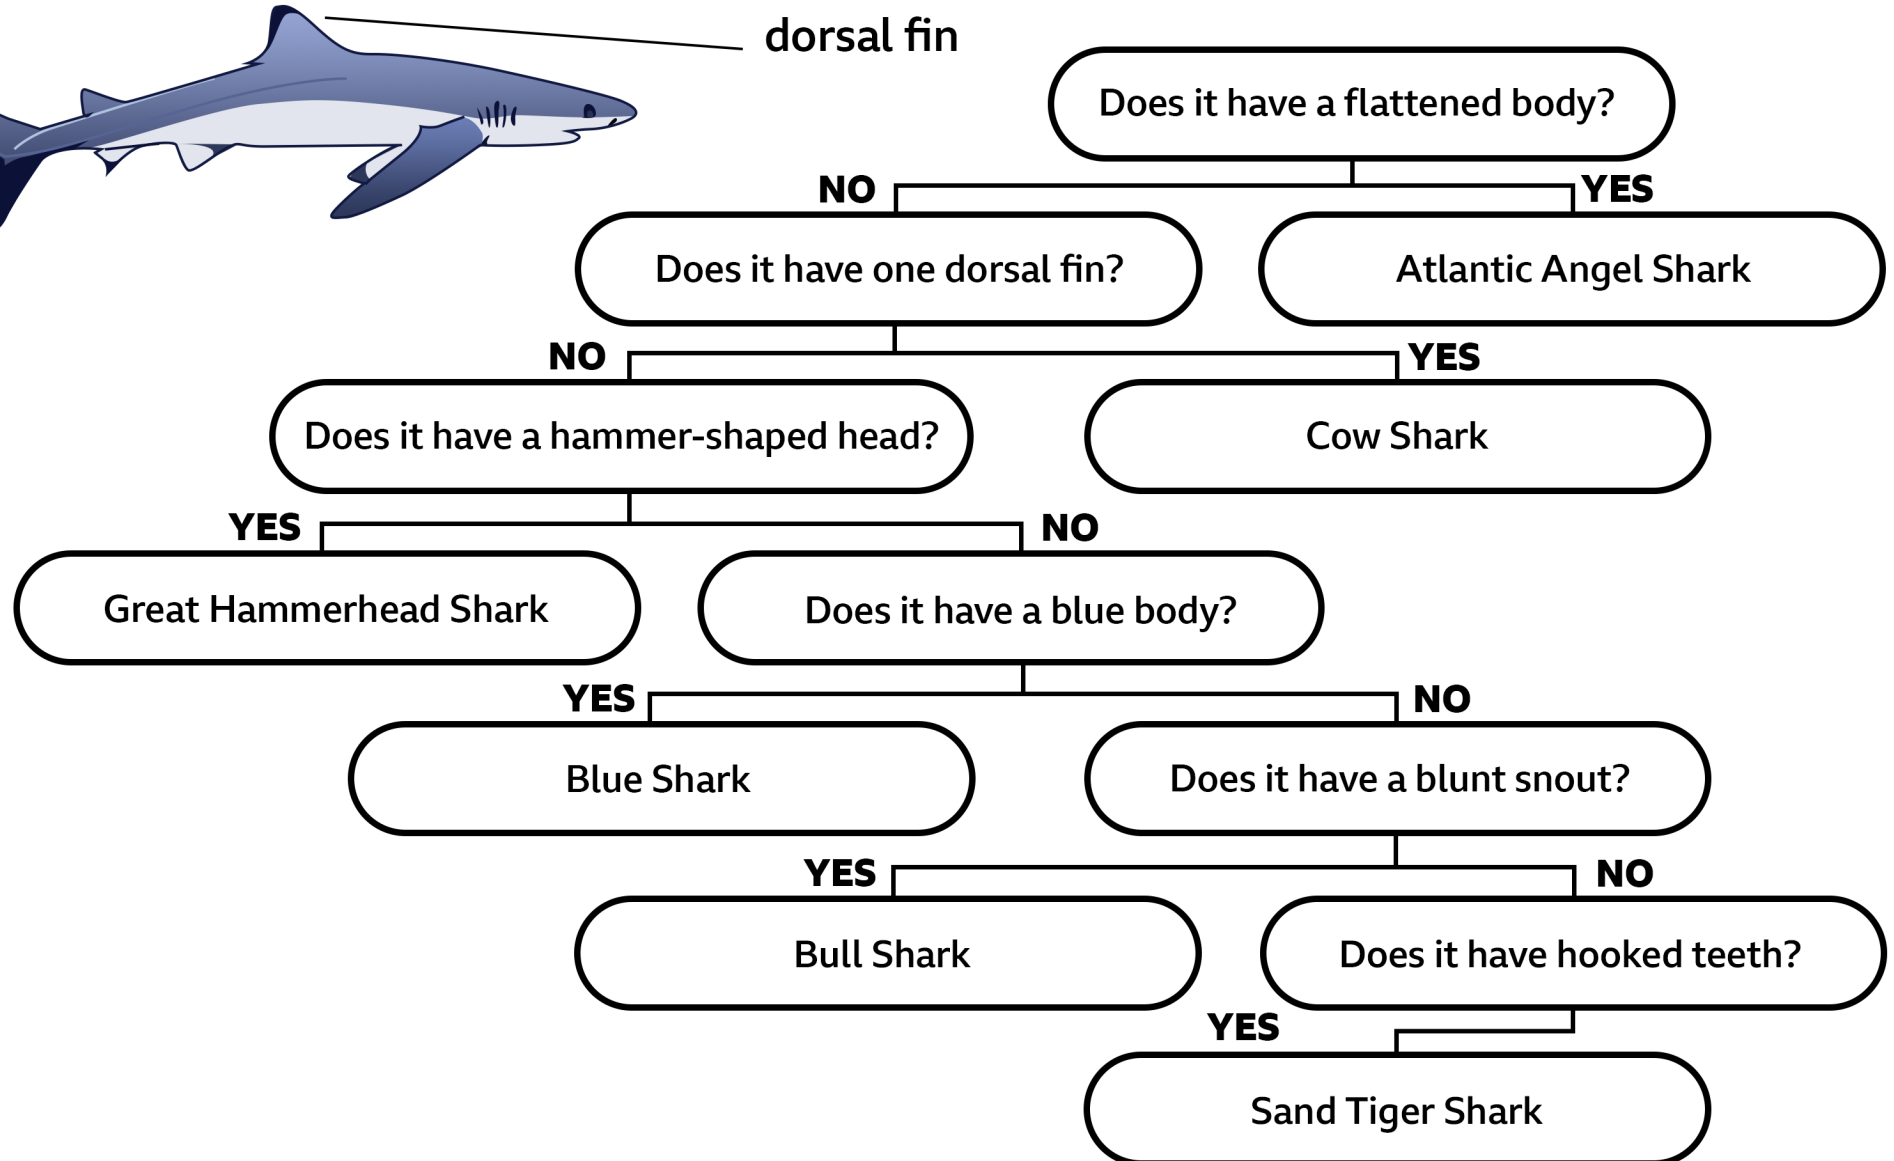

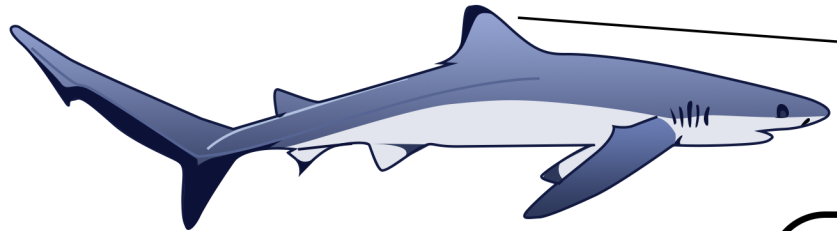

Can detect prey buried in sand

Can detect blood from far away

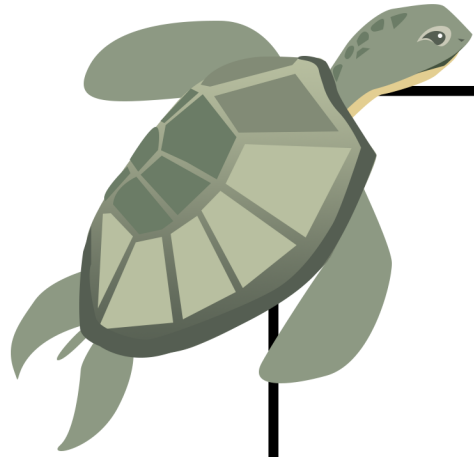

Can move quickly through water

Can see all around them to scan an area quickly

**Activity 2:** Work out the species of the shark shown in the picture using the dichotomous key below.

**Activity 3:** Choose an animal you would like to celebrate and protect. It could be sharks, or another animal. Write some questions about your animal to research after the lesson.

**What?**

**Why?**

**Could?**

**Where?**

**Should?**

**How?**
