

ANKARA UNIVERSITY

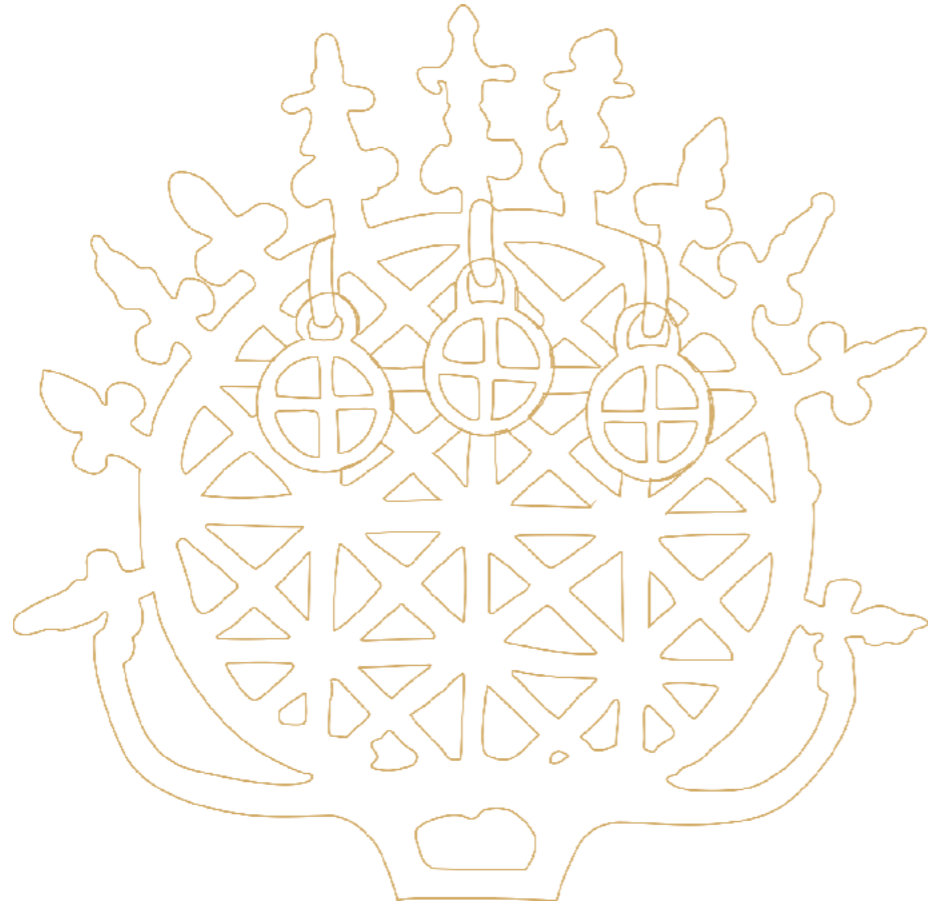

THE FIRST UNIVERSITY OF THE REPUBLIC OF TURKEY
WELCOMES YOU WITH...

...GREEN CAMPUSES,

... A MODERN CITY,

...HISTORY.

THE HATTI SUN DISC

The symbol of Ankara University is the Hatti Sun Disc. This symbol is commonly regarded as belonging to the Hittite civilization and usually connotes Ankara and Anatolia. After its discovery, it was first used as the symbol of the Faculty of Humanities, and later was adopted as the symbol of Ankara University. The Sun Disc was unearthed during the excavations started in 1935 by direct order of Atatürk. In fact the symbol belongs to the Hattis from the pre-Hittite period. The Sun Disc is made of bronze, and was commonly used about 4250 years ago in religious ceremonies. The circle which forms the perimeter of the disc represents either the earth or the sun. At the bottom, there are two horn-like protrusions but what they represent is not clear. The protrusions at the top represent fertility, and the procreation of nature. The birds symbolize fertility and the freedom in nature.

As the first university of the Republic of Turkey, the history and mission of Ankara University has greatly coincided with that of the young Republic of Turkey, founded by Atatürk. The foundation of Ankara University was also personally initiated by great leader Mustafa Kemal Atatürk to form the basis of his principles and revolutionary ideas; to disseminate, firmly establish and defend these principles and ideas that express modernity, science and enlightenment.

The establishment of Ankara University represented the substantiation of a comprehensive mission based on a system of modern science, modern democratic values and institutions.

Beginning in 1842, with the establishment of the Faculty of Veterinary Sciences as the oldest faculty of the university, Ankara University has since greatly expanded to incorporate many faculties. Today, Ankara University is home to 16 Faculties, 7 Vocational Schools, 2 Colleges, 8 Graduate Schools and a State Conservatory.

The Faculty of Agriculture was founded in Ankara in 1933. The Faculty of Agriculture is a higher education institution with scientific experience gained from the last 100 years of research and education in Turkey. Its vision is to educate and train well qualified agricultural engineers, and scientists to generate and disseminate technologies required for every aspect of the dynamic agricultural sector of the nation.

The Faculty of Agriculture consists of eleven academic departments at the bachelor, master and PhD level.

Study Programmes

- Department of Agricultural Economics (2 Sub-branches)
- Department of Animal Science (3 Sub-branches)
- Department of Dairy Technology (2 Sub-branches)
- Department of Farm Machinery (2 Sub-branches)
- Department of Farm Structure and Irrigation (1 Sub-branch)
- Department of Field Crops (3 Sub-branches)
- Department of Fisheries and Aquaculture (1 Sub-branch)
- Department of Horticulture (1 Sub-branch)
- Department of Landscape Architecture (1 Sub-branch)
- Department of Plant Protection (2 Sub-branches)
- Department of Soil Science and Plant Nutrition (2 Sub-branches)

Language of Programme: Turkish - English

Credits: 240 ECTS, 8 Semester, 4 years full-time

The Faculty of Engineering, which had operated under the umbrella of the Faculty of Science for more than 50 years on the Tandoğan Campus, cut loose from the Faculty of Science in 2001, reaching its new and real identity under the name of the Faculty of Engineering on the same campus. Today, our faculty continues to provide on education three campuses full of natural beauty and all kinds of sporting, social and cultural activities despite being located in the middle of the city.

At the undergraduate level, the Faculty of Engineering covers 12 fields. In addition these bachelor programmes, master and PhD programs are also provided within Institute of Science and Technology.

Study Programmes:

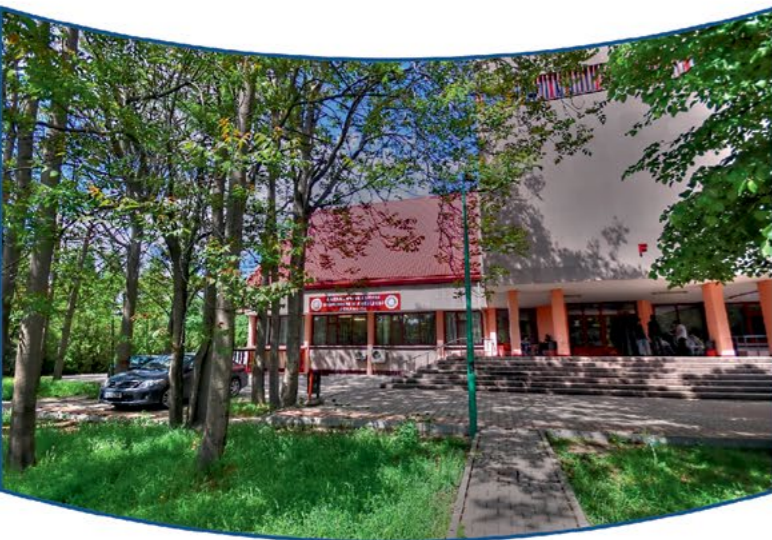

- Department of Computer Engineering (3 Sub-branches)
- Department of Electronic Engineering (6 Sub-branches)
- Department of Physics Engineering (6 Sub-branches)
- Department of Food Engineering (1 Sub-branch)
- Department of Civil Engineering (5 Sub-branches)
- Department of Geophysical Engineering (3 Sub-branches)
- Department of Geological Engineering (4 Sub-branches)
- Department of Chemistry Engineering (4 Sub-branches)
- Department of Biomedical Engineering
- Department of Mechanical Engineering
- Department of Environmental Engineering
- Department of Energy and Material Engineering

The Faculty of Health Sciences was established in 1994 as the “ Faculty of Health Education” and took its current name in 2006, “Faculty of Health Sciences”. The main purpose of the faculty is to ensure high-quality, research-enriched learning and teaching programs which offer students the opportunity to pursue a career in an allied health profession; in a corporate role in health; or as academics/health sciences researchers.

At the undergraduate level, the Faculty of Health Sciences covers 7 fields. These bachelor programmes continue at the master and PhD level.
