MLB Korea, beloved of Korean celebrities such as TWICE, Suzy Bae, Song Ji-hyo and Yoo Jae-suk, is coming to Hong Kong. The sportswear brand, which celebrates its 20th anniversary this year, sold 3.5 million baseball caps in Korea this year, or one cap every second.

Its first Hong Kong store, designed to look like a locker room in a baseball stadium, will open in Mong Kok on December 22.

To mark the opening, the store will be selling goodie bags valued at HK\$800 for just HK\$99 from December 22 to 24. Each bag will contain an MLB Korea cap, a clutch and an Angry Bear key holder. There are only 50 bags available per day.

Plus, the first 888 customers who spend HK\$888 and above will become MLB Korea VIPs and qualify for a lucky draw. (2468 1322)

Simple and beautiful

Renowned Amsterdam-based watch brand CLUSE has landed in Hong Kong with its signature collections. Committed to creating timepieces that represent elegance and minimalism, CLUSE grabs women's hearts with a strong focus on materials, quality and style.

Nature with a twist

The La Roche watch takes inspiration of natural elements by introducing a beautiful marble-effect face. As raw stone is used to make its dial, no La Roche watches look the same. To really make the design alluring, the rest of the dial is fully stripped back, and the grey leather strap works to accentuate the ripples of the marble coloring in the face and tie the whole piece together.

A sleek surprise

The art of minimalism is manifested in the La Minuit collection, a representative of cheekily feminine and playfully elegant. The collection features different models in rose gold, gold, silver and black for a sophisticated

and stylish look. The interchangeable leather straps are available in black, but also in trendy colors such as light grey, pink and pastel mint.

The classic CLUSE

The signature La Boheme collection is bold in size, yet simple by design. The 38mm models are categorized by their strap material: 100% real cow leather, stainless steel mesh or blue denim. The La Boheme watch in black leather is a beautiful example of minimalist beauty, with the jet black face contrasting against the gold features to create a timepiece that suits both casual and smart outfits.

The CLUSE watches are now available at kapok and City Chain stores.
