INTRODUCTION

This report contains information gathered by the 2016 Isle of Man Census, which was held on 24/25 April 2016. The 2016 Census was an interim census and is the most recent in a series dating back to 1821. The Isle of Man holds both full and interim censuses, with full censuses being undertaken every 10 years, the last of which was in 2011. Interim censuses are held at the five year point between the cycle of full censuses.

The 2016 Census was conducted by Economic Affairs, Cabinet Office under delegation from the Treasury, under authority of the Census Act 1929.

This publication, in both PDF and Open Data format, is available electronically from www.gov.im/census. Any additional analysis relating to this census and historical information relating to previous censuses will be made available at the same address.

Additional analysis may be available, subject to practicality and confidentiality. Any requests for additional information should be made to Economic Affairs, Cabinet Office.

GENERAL EXPLANATORY NOTES

The following definitions relate to headings and terms used throughout the tables in the report, and to concepts underlying the Census analysis.

Population Base

The primary purpose of taking a Census is to gather information on the Island's resident population. To facilitate historical comparisons it is tradition to also examine the figure for the Census population, as shown in the historical section of this report. There is also the *de facto* population, defined as the number of people physically on the Island on Census Night. The following are the various population definitions used in this report:

Resident population:	Isle of Man residents present on Census Night plus residents absent from the Island on Census Night
Census population:	Resident population plus visitors in the Island on Census Night
<i>De Facto</i> population:	Residents present on Census Night plus visitors on the Island on Census Night

Visitors

For Census purposes, a visitor is defined as a person whose usual place of residence is outside of the Isle of Man. This includes persons who are visiting the Island on holiday and those on business who are working for a temporary period but who do not intend to take up residence on the Island in the immediate future.

Resident Households

A household comprises of either one person living alone, or a group of persons (who may or may not be related) living at the same address sharing cooking facilities and who also share a living room, sitting room or dining room.

The statistics presented on resident households exclude persons in communal establishments, such as Noble's Hospital or the Isle of Man Prison.

Census Districts and Enumeration Districts

Each of the Island's 24 towns, villages and parishes comprises a Census district. Historically enumeration districts covered an area of work for a particular enumerator. Heavily populated areas will therefore contain many enumeration districts (Douglas has 44). For the 2016 Census, these enumeration districts were not used for the purposes of allocating Census staff to a particular location on the Isle of Man, however each property in the Census data has been assigned into the appropriate enumeration district as previously used. For Census purposes, the Calf of Man is part of the district of Rushen. Although the village of Laxey and the parishes of Lonan and Maughold have merged to form Garff commissioners, Census data continues to be published using the ecclesiastical parishes for comparative purposes.

Dependency Ratio

The dependency ratio is the number of people under 16 years old and the number of people above retirement age as a percentage of the working age population. Those of retirement age are taken to be all women 63 years and older and all men 65 years and older in line with the current State Pension Age. Previous dependency ratios will have used 60 as the age of retirement for women. The working age group consists of all adults above the age of 15 and under the age of 63 for women and 65 for men.

Place of Birth and Previous Country of Residency

For tables relating to place of birth and residency, many countries have been grouped together. The groupings are shown in Appendix 1.

Employed and Economically Active

Statistics on the employed population refer to the number of those in the resident population employed at the time of the Census. The economically active population is comprised of the employed population and the unemployed who are 16 and older and either seeking work or waiting to start work already obtained.

Occupation

Information on employment by occupation relates to the main occupation of persons in employment or self-employment. The person's description of the tasks undertaken in their occupation was used to assign him/her to an occupational group. The classification system used is the UK Standard Occupational Classification 2010 (SOC2010). The SOC2010 has not been updated by the UK since the 2011 Census and therefore the results are comparable, however for censuses from 2006 and earlier, older classification systems were used, meaning that the

results are not directly comparable. The most noticeable change between the revisions was a large increase in the "Professional Occupations" category and a corresponding fall in the "Managers and Senior Officials" category.

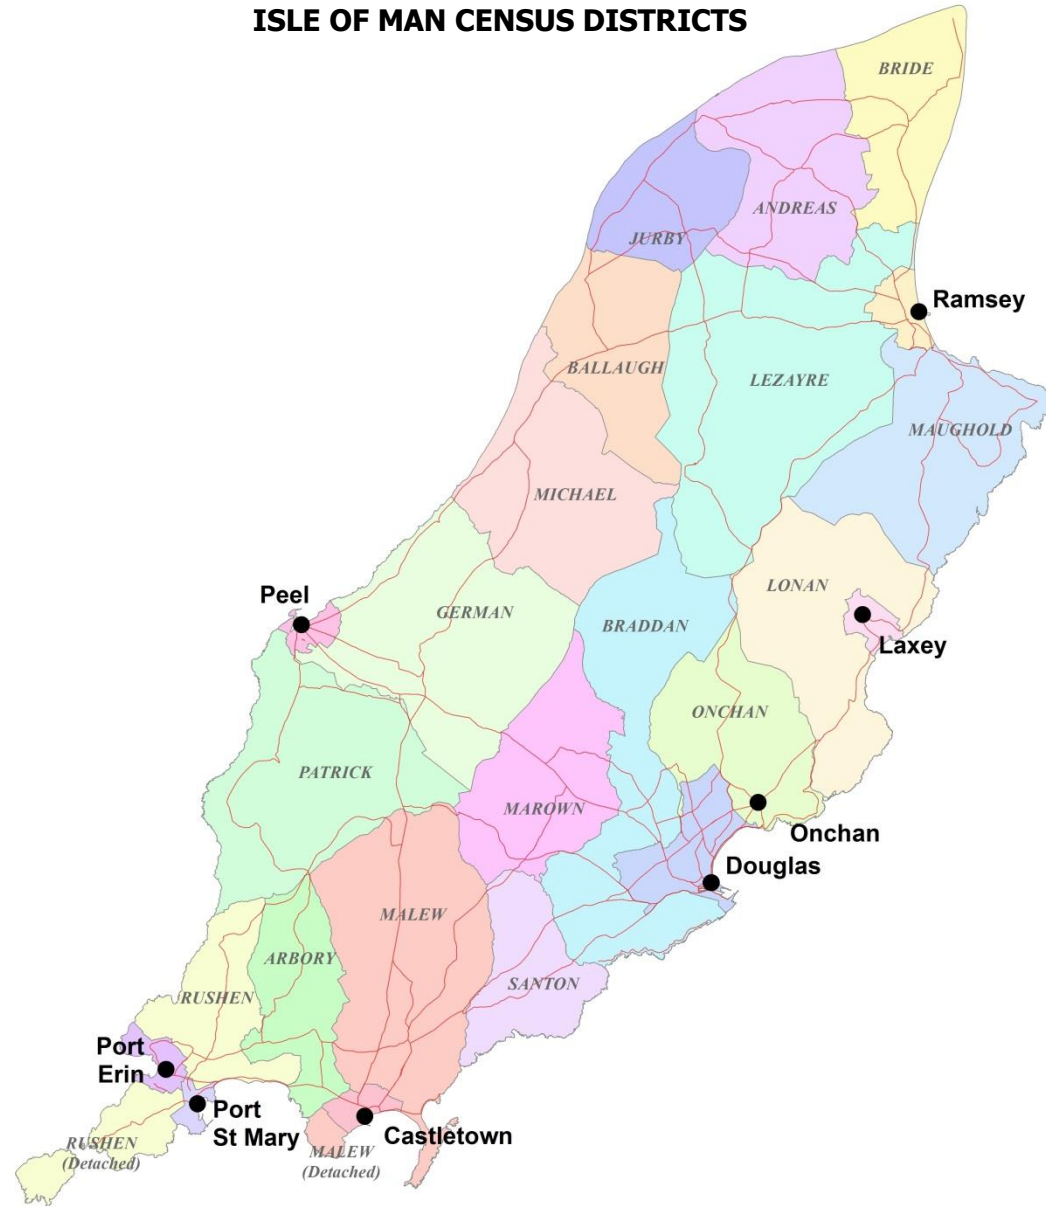

Economic Sector

The information on employment by economic sector relates to the main business of the organisation in which individuals are employed or self-employed. The person's description of their or their employer's business was used to assign him/her to an industrial sector. As a result, a degree of judgement is built into the process of allocating individuals to industries and this should be borne in mind when interpreting results, particularly if making inter-censal comparisons.

EXECUTIVE SUMMARY

- On Census Night 2016 the resident population stood at 83,314. This represents a decrease of 1.4% on the 84,497 residents recorded in the 2011 Census.
- The average age of the Island's resident population has risen by over a year, from 41.1 (2011 Census) to 42.5.
- Manx born residents account for 49.8% of the resident population, which is an increase on the comparable figure of 48.1% in 2011. 8.3% of residents were born outside of the British Isles/Eire, compared to 7.5% in 2011.
- Whilst the resident population has decreased by 1.4% compared with 2011, the number of private households has continued to increase, resulting in a continuation of the downward trend in average household size. The number of private households has increased by 0.5% between 2011 and 2016. The average household size fell from 2.33 to 2.28 over the five year period.
- Whilst the retirement age for women has increased to 63, compared with 60 in previous censuses, the dependency ratio has increased from 63.7% to 63.95%. This has been caused by an increasing retirement age population, combined with a fall in the working age population.
- The economically active population decreased to 42,777 in 2016, down from 44,609 in 2011. The number in employment fell to 41,636 in 2016, from 43,134 in 2011.
- Males are more likely to be in full-time employment or self-employment than females, but females account for 77% of part-time workers.
- 65% of the economically inactive cited retirement as the reason for not being in or seeking work. The number of females out of work and not seeking work because they are looking after home or family has continued to fall, from 6,733 in 1991 to 2,268 in 2016. The number of males out of work and not seeking work for the same reason has slightly increased, however 91% of this category is still comprised of females.

ISLE OF MAN CENSUS DISTRICTS

HISTORICAL STATISTICS

TABLE 1.1: CENSUS AND RESIDENT POPULATION 1951 TO 2016

Date of Census	Census Population	Visitors	Resident Population	Change in Resident Population (%)	Change in Census Population (%)	Change in Visitor numbers (%)
1951 – 8/9 April	55,253	1,229	54,024			
1961 – 23/24 April	48,133	967	47,166	-12.7	-12.9	-21.4
1966 - 24/25 April	50,423	1,111	49,312	4.5	4.8	14.9
1971 - 25/26 April	54,581	1,353	53,228	7.9	8.2	21.8
1976 - 4/5 April	61,723	1,227	60,496	13.7	13.1	-9.3
1981 - 5/6 April	66,101	1,422	64,679	6.9	7.1	15.9
1986 - 6/7 April	66,060	1,778	64,282	-0.6	-0.1	25.0
1991 - 14/15 April	71,267	1,479	69,788	8.6	7.9	-16.8
1996 - 14/15 April	74,680	2,966	71,714	2.8	4.8	100.5
2001 - 29/30 April	78,266	1,951	76,315	6.4	4.8	-34.2
2006 - 23/24 April	81,952	1,894	80,058	4.9	4.7	-2.9
2011 - 27/28 March	85,716	1,219	84,497	5.5	4.6	-35.6
2016 - 24/25 April	84,599	1,285	83,314	-1.4	-1.3	5.4

Resident population	83,314
Residents absent	6,039
Residents present	77,275
Visitors	1,285
De facto population	78,560
Census population	84,599

Resident Population: All residents, whether present or absent on 24 April 2016

Census Population: Resident population plus visitors on the island on 24 April 2016

De Facto Population: Residents present plus visitors on the island on 24 April 2016

TABLE 1.2: DEPENDENCY RATIO 1976 TO 2016

Census Year	Under 16 Years	Retirement Age & Over	Working Age	Dependency Ratio¹	Youth Dependency Ratio²	Aged Dependency³	All Employed	Total Resident Population	Employment to Population	Employed as % of Working Age
1976	13,207	14,747	32,542	85.90%	40.6	45.3		60,496		
1981	13,389	15,378	35,902	80.10%	37.3	42.8		64,679		
1986	12,318	15,304	36,244	76.20%	34.0	42.2		64,282		
1991	12,904	15,425	41,459	68.30%	31.1	37.2	31,829	69,788	45.6	76.8
1996	13,483	14,953	43,278	65.70%	31.2	34.6	33,577	71,714	46.8	77.6
2001	14,509	14,725	47,081	62.10%	30.8	31.3	39,050	76,315	51.2	82.9
2006	14,571	16,002	49,485	61.80%	29.4	32.3	40,783	80,058	50.9	82.4
2011	15,036	17,847	51,614	63.70%	29.1	34.6	43,134	84,497	51.0	83.6
2016	14,233	18,265	50,816	63.95%	28.0	35.9	41,636	83,314	50.0	82.0

¹ The number of persons under 16 plus the number of persons of retirement age and over as a percentage of the number of working age.

² The number of persons under 16 as a percentage of the number of working age.

³ The number of persons of retirement age and over as a percentage of the number of working age.

* Unemployed, seeking/awaiting work includes all individuals who are actively looking for work, or waiting for work already obtained but who may or may not be registered to claim Job Seeker's Allowance. This definition is consistent with the International Labour Organisation definition of unemployment. The figures published as part of the Labour Market report relate to only those who are registered for Job Seeker's Allowance.

** Total is less than sum of the categories as multiple responses were possible

METHODOLOGY

Household Response Rate

Census forms were delivered to 42,281 properties throughout the Island, in advance of Census Night on 24/25 April 2016. The number of households that should have made a census return was 35,811, and a response rate of 99.9% was achieved, with 35,763 households having responded to the census form.

On Census Night 6,470 properties were vacant, which represents 15% of the housing stock on the Isle of Man. These properties could be vacant for a number of reasons, including second or holiday homes, properties awaiting sale and those undergoing renovation. Economic Affairs estimates that 14% of the housing stock, or 5,818 properties, were vacant in 2011.

The Household Response Rate is defined as properties that did provide a response, over those that were expected to make a return.

Person Response Rate

The 2016 Isle of Man Census has achieved a person response rate of 98.9%, which amounts to 915 individuals. Of this 915 individuals, 803 were under 16s that were imputed, the process for which is detailed below. The remaining 112 individuals are the estimated number of individuals that occupied the 48 households that did not return their Census form, and have not been imputed.

The Person Response Rate is defined as the number of persons on Census forms, over those that were expected to be included within the Census forms.

Imputation

Through initial analysis of the 2016 Census data, by comparison to school rolls and GP patient registration statistics, it was noted that there had been an under-reporting issue in relation to individuals under the age of 16, due to a misinterpretation of the Census form by some households.

The initial level of under reporting for persons under 16 was estimated at 1,400 persons. Households were contacted in areas where a lower number of under 16s had been reported than was expected and through this process, information regarding 597 persons under 16 was added to household Census returns. This left a remaining 803 persons under 16, which amounts to 0.96% of the total resident population, or 5.6% of the under 16 resident population, as under reported.

The remaining 803 persons under 16 have therefore been imputed into the Census data, using a multi-stage and multi variable imputation process. Due to the information available through the school rolls, GP registration data and birth statistics, the ages of the 803 persons that were imputed were known and therefore could be used as a basis for the imputation.

The imputation process was undertaken in seven key stages, many of which also included sub-sections, and are detailed below.

Imputation Stage	Process undertaken
Stage 1: Number of persons under 16 to impute, by age.	The first stage of the imputation required the calculation of how many persons, by individual age, needed to be imputed. School rolls, GP patient registration data and birth data from General Registry provided an accurate age distribution for the 803 persons.
Stage 2: Number of persons under 16 to impute, by age, by Census district.	The second stage of the imputation process required the 803 persons under 16 to be allocated across the 24 Census districts. This allocation was undertaken on the basis of the 2011 Census data on ratios of quinary age bands of 0-4 to 30-39, 0-5 to 35-44, 10-14 to 40-49 and 15 to 45-49 year olds, by each of the Census districts, and these ratios were then applied to the individual ages of the 803 persons under 16 to be imputed, which provided a table by individual age and census district of the 803 persons to be imputed.
Stage 3: Allocation of 803 imputed persons under 16, by age, by Census district, to male or female.	The table of individual age, by census district of the 803 persons to be imputed was then allocated between male and female through an allocation, by census district and individual age, of the male/female ratio from the 2016 Census data. This stage provided a table which split the 803 imputed individuals by individual age, by Census district, by male and female.
Stage 4: Allocation of 803 imputed persons, under 16, by age, by Census district, by sex, to one or two parent households	<p>Stage 4 of the imputation process was a multi stage process, taking into account the ratio of two parent to single parent households, split by the age bands of 0-4, 5-9 and 10-15 of the existing 2016 Census data.</p> <p>The 803 imputed persons under 16, by individual age, by Census district, by sex, was allocated to two parent or single parent households based on the following ratios:</p>

	<table border="1" data-bbox="1133 172 1832 363"> <thead> <tr> <th>Age range</th> <th>Two Parent</th> <th>Single Parent</th> </tr> </thead> <tbody> <tr> <td>0-4</td> <td>84%</td> <td>16%</td> </tr> <tr> <td>5-9</td> <td>78%</td> <td>22%</td> </tr> <tr> <td>10-15</td> <td>77%</td> <td>23%</td> </tr> </tbody> </table> <p data-bbox="1133 402 2011 501">This stage resulted in two tables, both by individual age, by Census district, by sex by either two parent households or single parent households.</p>	Age range	Two Parent	Single Parent	0-4	84%	16%	5-9	78%	22%	10-15	77%	23%
Age range	Two Parent	Single Parent											
0-4	84%	16%											
5-9	78%	22%											
10-15	77%	23%											
<p data-bbox="188 513 1088 647">Stage 5: Allocation of 803 imputed persons under 16 as single child, two children or three children households, by individual age, by Census district, by sex and by either two parent or single parent households to one child, two children or three children households.</p>	<p data-bbox="1133 513 2047 683">Stage 5 involved allocating the two tables generated by stage 4, into a further three tables each, totalling six tables for imputation, providing a table by individual age, by Census district, by sex, by either two or single parent household, by either one, two or three children for the 803 individuals under 16 to be imputed.</p> <p data-bbox="1133 724 1971 826">The allocation of single child, two children or three children was undertaken on the basis of the ratios of these variables from the existing 2016 Census data as follows:</p> <table border="1" data-bbox="1133 829 1429 1021"> <thead> <tr> <th>No. of children</th> <th>%</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>48%</td> </tr> <tr> <td>2</td> <td>40%</td> </tr> <tr> <td>3+</td> <td>13%</td> </tr> </tbody> </table>	No. of children	%	1	48%	2	40%	3+	13%				
No. of children	%												
1	48%												
2	40%												
3+	13%												
<p data-bbox="188 1031 1097 1165">Stage 6: Allocation of 803 imputed persons under 16, by individual age, by Census district, by sex, by either two or single parent household, by either one, two or three children households, by age of parents.</p>	<p data-bbox="1133 1031 2024 1133">Stage 6 of the imputation required the six tables of imputation to be allocated to a household, based upon the average age of parents for children in three age brackets.</p> <p data-bbox="1133 1174 2011 1343">The 803 imputed individuals, in the 6 tables by individual age, by Census district, by sex, by either two or single parent household, by either one, two or three children households, were assigned to an existing household record on the basis of the following age distribution of parents for age bands 0-4, 5-9 and 10-15:</p>												

	0-4	Distribution
	20-24	7%
	25-29	17%
	30-34	31%
	35-39	25%
	40-44	12%
	45-50	6%
	5-9	Distribution
	20-24	1%
	25-29	9%
	30-34	17%
	35-39	30%
	40-44	25%
	45-50	13%
	10-14	Distribution
	20-24	0%
	25-29	1%
	30-34	7%
	35-39	14%
	40-44	27%
	45-49	28%
50-54	15%	
Stage 7: Allocation of Allocation of 803 imputed persons under 16, by individual age, by Census district, by sex, by either two or single parent household, by either one, two or three children households, by age of parents, by type of property	The final stage of the imputation process allocated these children to properties based on the distribution of the existing households by property type i.e Detached house, Semi-Detached house.	

ADDITIONAL PUBLICATIONS

The 2016 Isle of Man Census report is one of a number of publications compiled by Economic Affairs, Cabinet Office. Other publications include the following:

Isle of Man Passenger Survey Annual Report
Isle of Man National Income Report
Isle of Man in Numbers
Isle of Man Earnings Survey
Isle of Man Inflation report (monthly publication)
Isle of Man Labour Market report (monthly publication)
Isle of Man Quarterly Report on the Economy (quarterly publication)
Household Income and Expenditure survey 2012-13
Social Attitudes Survey 2016

All of these publications are available electronically from www.gov.im/ with many of the data sets available in Open Data format.

Isle of Man Census 2016

Form 1

(Private Households)

To the occupier

Complete your census form online

www.gov.im/census

Your individual access code is:

A Message to the Householder

It is important that you act now and complete your census form. The census is used to help plan future services throughout the Isle of Man — such as education, health and transport.

Please complete this census form on **SUNDAY 24 APRIL 2016**. You can complete it **online** or on paper. If you complete it in paper please return it using the enclosed envelope, ensuring the address on the back of this form is visible.

If you are unsure how to answer any of the questions, please contact the Census Office using the details provided and if you will be away from the Island on Census Night (evening of 24 April/morning of 25 April 2016), please also contact the Census Office.

Completion of the census form is compulsory under the Census Act 1929. Any person knowingly supplying false information or refusing to complete a census form is liable to prosecution.

Your personal information is protected by law and will be treated in strict confidence. Census information is kept confidential for 100 years.

Instructions to help you complete the form

- Use black or blue ball point pen when filling in the form (please do not use a felt tipped pen).
- Please read the notes accompanying each question before giving your answers.
- A household comprises either one person living alone, or a group of people (who may or may not be related) living at the same address and sharing cooking facilities and who also share a living room or sitting room or dining room.
- Please answer questions Q1 and Q2 about your household's accommodation.
- Please answer the remaining questions for every member of the household by **ticking** the appropriate box or boxes or by giving the requested **written details**. You are required to answer all the questions unless otherwise indicated. If your household consists of **more than 6 people**, contact the Census Office or use the online form which accepts up to 12 people.

DECLARATION - This form is correctly completed to the best of my knowledge and belief

Signature

Date

Telephone Number/email

We may contact you if we need to collect missing information.

IMPORTANT INFORMATION

WHO SHOULD YOU INCLUDE ON THE FORM?

Include everyone who spends Census Night (evening of Sunday 24 April to morning of Monday 25 April 2016) in your household **EXCEPT** anyone who lives elsewhere on the Isle of Man and will be included at their own address.

Include anyone who normally lives in your household but spends Census Night elsewhere (for example at work or with a friend in the Isle of Man, on business or at university in the UK or elsewhere, on holiday or serving with the Armed Forces, etc) **EXCEPT** anyone who spends Census Night in an institution (hospital, nursing home, prison etc). These persons must be included in the institution's return.

Please use the Guidance for answering questions insert that was included with this form when answering each of the questions.

Household Questions

Q1

Please tick one box to show the nature of the accommodation which the household occupies:

If you live in a non-permanent structure, such as a caravan, please select the "Other" option.

- Detached house.....
- Semi-Detached house
- Terraced house (including end of terrace).....
- A flat in a purpose built block or development.
- A flat in a converted house
- A flat in a commercial building
- Other

Q2

How many bedrooms does the accommodation included?

Include all rooms built or converted for use as bedrooms, even if they are not currently used as bedrooms, such as being used as a study or playroom.

- 1
- 2
- 3
- 4.....
- 5.....
- 6+

**The remaining questions apply to persons AGED 16 AND OVER ONLY
(born on or before 24 April 2000)**

Q14 Persons in work

Which of these things does the person currently do?

Works for an employer full time (30 hours or more per week)

Works for an employer part time (less than 30 hours per week)

Works for more than one employer part time (less than 30 hours per week)

Is self-employed, employing others

Is self-employed, not employing others

Q15 Persons without work

If this person is without work, which of the following reasons apply?

Is at school or in full time education.....

Is retired from paid work.....

Looks after home or family (solely)

Is unable to work because of permanent long term sickness

Is unable to work because of permanent long term disability.....

Unemployed looking for work
(Please now select from options (i) to (iii))

(i) Looked for work in the previous four weeks.

(ii) Available to start work within two weeks

(iii) Waiting for work already obtained

Other

If Other please specify
