

AbilityOne Program Fact Sheet

AbilityOne Overview

The AbilityOne® Program is among the largest sources of employment in the U.S. for individuals who are blind or have significant disabilities.

Established in 1938, the Program is administered by the U.S. AbilityOne Commission®, an independent Federal agency whose statutory name is the Committee for Purchase From People Who Are Blind or Severely Disabled.

The Commission has designated National Industries for the Blind and SourceAmerica® as central nonprofit agencies to help administer the Program.

The Commission consists of 15 Presidential appointees: 11 represent Federal agencies and four are private citizens representing people who are blind or have significant disabilities.

The Commission's [Strategic Plan](#) provides the roadmap for accomplishing the Commission's priorities.

Mission: To tap America's underutilized workforce of individuals who are blind or have significant disabilities to deliver high quality, mission-essential products and services to Federal agencies in quality employment opportunities.

Vision: Remain a trusted source of supply and services for Federal agencies while creating quality employment opportunities across all economic sectors for people who are blind or have significant disabilities.

AbilityOne Facts
