The report should be cited as *Redistribution Committee for Western Australia, Proposed redistribution of Western Australia into electoral divisions.*

The Redistribution Committee for Western Australia (the Committee) has completed its proposed redistribution of Western Australia into 16 electoral divisions. In developing and considering the impacts of the redistribution proposal, the Committee has satisfied itself that the proposed boundaries meet the requirements of the *Commonwealth Electoral Act 1918* (Electoral Act). The Committee unanimously agrees on the boundaries and names of the proposed electoral divisions and recommends its redistribution proposal for Western Australia.

This report has been prepared in accordance with the relevant requirements of Part IV of the Electoral Act.

Redistribution Committee for Western Australia, Perth

## About this report

This report provides the proposed redistribution of Western Australia into 16 electoral divisions and the Committee's reasons supporting this proposal.

The report consists of the following sections:

- **Executive summary**
- **Chapter 1: Background and context**

This chapter outlines the legislative requirements of the redistribution, ranging from the formal commencement of the process to the release of the Committee's proposed redistribution. The chapter explains how these requirements have been met during the redistribution process, and also discusses trends in population and enrolment for Western Australia.
- **Chapter 2: Proposed redistribution and reasons for proposal**

This chapter outlines the Committee's proposed redistribution and the reasons for this proposal. Also included is the Committee's approach to formulating the proposed boundaries and the names of divisions.
- **Chapter 3: What next?**

This chapter outlines the legislative requirements that are to be met following the release of the proposed redistribution, through to the final determination of the names and boundaries of electoral divisions in Western Australia.
- **Appendices**

Please note the following when reading tables in this report:

- percentages and calculated numbers have been rounded
- numbers in parentheses indicate negative numbers

## Abbreviations and glossary

Word or acronym	Meaning
ABS	Australian Bureau of Statistics
AEC	Australian Electoral Commission
augmented Electoral Commission	The Electoral Commission, augmented by the members of the Redistribution Committee for Western Australia
Committee	The Redistribution Committee for Western Australia
current enrolment quota	The number of electors enrolled in Western Australia on the day the redistribution commenced (1 December 2014), divided by the number of members of the House of Representatives to which the State is entitled (16)  The current enrolment quota for this redistribution is 94 026 electors
EBMS	Electoral Boundary Mapping System – a modification of commercially available mapping software that calculates the revised current and projected enrolments when boundaries are moved
Electoral Act	<i>Commonwealth Electoral Act 1918</i>

Word or acronym	Meaning
Electoral Commission	The Commission is headed by a Chairperson, who must be an active or retired judge of the Federal Court of Australia. The other members are the Electoral Commissioner and a non-judicial member, currently the Australian Statistician
ERP	Estimated resident population. The ABS official estimate of the Australian population, which links people to a place of usual residence within Australia. Further information is available from the ABS website
Gazette	Commonwealth Government Notices Gazette. Gazette notices contain a range of information, including proclamations and notices of Commonwealth government departments and Courts, and other notices required under Commonwealth law
general election	A general election of the members of the House of Representatives
guidelines	Guidelines for naming federal electoral divisions
JSCEM	The Australian Parliament's Joint Standing Committee on Electoral Matters
LGA	Local government area
locality	Also known as a suburb. An administrative geographical area which is uniquely and clearly defined to enable accurate property street addressing and to support the prompt delivery of services. In a redistribution context, locality and suburb boundaries are generally strong indicators of a community of interests
projected average enrolment	The number of electors projected to be enrolled in Western Australia at the projection time (8 February 2017), divided by the number of members of the House of Representatives to which the State is entitled (16)  The projected average enrolment for this redistribution is 99 686 electors
projection time	The projection time is generally the end of the period three years and six months after the date that the final determination of division boundaries and names is published in the Gazette. There are circumstances under which this time may be varied  The projection time for this redistribution has been varied and is 8 February 2017
Redistribution Committee for Western Australia	The body that is constituted by s.60 of the Electoral Act, consisting of the Electoral Commissioner, the Australian Electoral Officer for Western Australia, the Surveyor-General of Western Australia and the Auditor-General for Western Australia
SA1	Statistical Area 1 – SA1s are the smallest unit at which the ABS makes available disaggregated Census data. SA1s form the building blocks for the construction of electoral divisions in a redistribution
SA2	Statistical Area 2 – SA2s are designed as the primary output region for the release of non-census data. SA2s closely reflect, but do not align to LGA boundaries. SA2s more closely align to gazetted suburbs and localities

# Executive summary

This report provides the Committee's proposed redistribution of Western Australia into 16 electoral divisions.

A redistribution is a redrawing of electoral boundaries to ensure, as near as practicable, that each state and territory gains representation in the House of Representatives in proportion to its population, and that there is a similar number of electors in each electoral division for a given state or territory.

The Electoral Act authorises the redistribution process, including the various stages involved in a redistribution, the extent of public involvement and the relevant timelines to be observed.

The current Western Australia redistribution is required by section 59(2)(a) of the Electoral Act in that the number of members of the House of Representatives that is to be chosen for Western Australia at the next general election has altered from 15 to 16.

The redistribution process commenced on 1 December 2014 with an Electoral Commission direction. Public suggestions were invited on Wednesday 11 March 2015 by way of a notice in the Commonwealth Government Notices Gazette (the Gazette) and by way of newspaper advertisements on 14 March 2015. Suggestions were made publicly available on Monday 13 April 2015 and public comments on the suggestions were invited. The Committee received 27 written suggestions and 16 written comments. The Committee noted the wide-ranging and comprehensive nature of some suggestions and the well-argued cases for change.

The Committee has carefully considered all suggestions and comments in detail, at meetings held in May and June 2015. The Committee has developed its redistribution proposal informed by those suggestions and comments.

The redistribution proposal covers two broad areas, naming of electoral divisions and defining the boundaries of electoral divisions.

## Naming of electoral divisions

The Committee proposes that the 15 existing division names are retained. In proposing a name for the 16th division, the Committee took account of the Australian Electoral Commission's (AEC's) 'Guidelines for naming federal electoral divisions' (the guidelines), which are reproduced as [Appendix F](#) to this report. Various suggestions and comments put forward the names of a number of prominent Western Australian individuals and families, all of whom have contributed to public and/or political life to varying degrees and many of whom met the guidelines. Ultimately the Committee determined to propose that the 16th division is named Burt for the reasons set out in the body of the report.

## Boundaries of electoral divisions

In making its proposed redistribution the Committee must ensure that enrolment numbers for each proposed division remain within both current and projected enrolment parameters.

At the commencement of the redistribution on 1 December 2014, current enrolment for Western Australia was 1 504 413 across the existing 15 divisions, with an average enrolment for 16 divisions of 94 026. The 10 per cent tolerance available to the Committee requires that the 16 new divisions are constructed with a minimum current enrolment of 84 623 and a maximum current enrolment of 103 428.

At the projection time of 8 February 2017, projected enrolment for Western Australia is 1 594 973 with a projected average enrolment for each of the 16 divisions of 99 686. The 3.5 per cent tolerance available to the Committee requires that divisions are constructed with a minimum projected enrolment of 96 197 and a maximum projected enrolment of 103 175.

In addition to meeting the numerical requirements of the Electoral Act, the Committee has applied the following principles when considering the placement of new boundaries:

- a. to the extent possible, community of interests such as local government areas (LGAs) and localities are kept together; strong and readily identifiable features, such as major roads and railways, are used to define divisional boundaries,
- b. to the extent possible, proposed divisional boundaries do not cross the Swan River or other major geographic barriers, and
- c. to the extent possible, the maximum number of electors are retained in their current electoral division.

The majority of written suggestions proposed that the new division is created around the Armadale and Gosnells LGAs and the Committee found this to be the most appropriate placement for the new division.

The Committee's proposal places the new Division of Burt in the south-east corner of the Perth metropolitan area centring on Gosnells and Armadale. The new electoral division takes its elector numbers primarily from the outer-urban growth Divisions of Canning and Hasluck. The Division of Tangney has also provided a substantial number of electors to form the new division, with a small number of electors moved from the existing Division of Swan. The changes made to the Divisions of Canning, Hasluck, Swan and Tangney to form the new division have created flow-on effects, impacting all other divisions, in order to have all divisions remaining within the numerical requirements set out in the Electoral Act.

## Elector movements

The Committee noted that in the absence of any other changes some six per cent of electors must be moved in order to create the new division.

The Committee's proposal requires 264 401 current electors to change division, with 93 763 of that number moving to form the new Division of Burt. Discounting the electors that have been moved to create the new division the Committee's proposal involves the movement of 170 638 electors, or 11.34 per cent of all electors across Western Australia.

## Chapter 1

# Background and context

This chapter outlines the legislative requirements of the redistribution, ranging from the formal commencement of the process to the release of the Committee's proposed redistribution. The chapter explains how these requirements have been met during the redistribution process, and also discusses trends in population and enrolment for Western Australia.

1. A redistribution is a redrawing of electoral boundaries to ensure, as near as practicable:
  - each state and territory gains representation in the House of Representatives in proportion to its population, and
  - there is a similar number of electors in each electoral division for a given state or territory.

## Compliance with legislative requirements

2. The Electoral Act specifies that a redistribution is required when:
  - the number of members of the House of Representatives to which a state or territory is entitled has changed (relative population change),
  - the number of electors in more than one third of the electoral divisions in a state (or one of the electoral divisions in the Australian Capital Territory or the Northern Territory) deviates from the average divisional enrolment by more than 10 per cent for a period of more than two months, or
  - a period of seven years has elapsed since the last redistribution.
3. The processes to be followed in conducting a redistribution are also specified in the Electoral Act. [Appendix A](#) summarises the legislative requirements which have been complied with in conducting this redistribution. Each of the requirements is discussed in further detail in this Chapter.

## Determination of the number of members of the House of Representatives to be chosen in states and territories

4. On 13 November 2014, the then acting Electoral Commissioner made a determination under section 48(1) of the Electoral Act of the number of members of the House of Representatives to which each state and territory is entitled at the next general election. As a result of this determination, Western Australia's entitlement has increased from 15 to 16 members of the House of Representatives.

## Direction for a redistribution of Western Australian electoral divisions

5. In accordance with sub-section 59(1) of the Electoral Act, the Electoral Commission published a notice in the Gazette on 1 December 2014, directing that a federal redistribution commence for Western Australia.

## Determination altering the projection time for equality of enrolments

6. Section 63A of the Electoral Act establishes that the projection time in relation to a redistribution is the end of the period of three years and six months after the 'starting time'. The starting time from which the projection time is calculated, as defined by sub-section 63A(5), is the date on which the augmented Electoral Commission determines the boundaries and names of divisions via publication of a notice in the Gazette.
7. The starting time for the redistribution of Western Australia is 19 January 2016 as this is the date on which the augmented Electoral Commission will cause the boundaries and names of electoral divisions in Western Australia to be published in the Gazette.
8. Sub-section 63A(3) further provides that if the Electoral Commission is of the opinion that a further redistribution will be required as a result of a change to a state or territory's entitlement to representation in the House of Representatives, sooner than seven years after the starting time, it may determine that the projection time will be a time that is half way between the starting time for the projection and the time when, in the opinion of the Electoral Commission, the further redistribution will or may be required.
9. The Electoral Commission determined that the projection time for Western Australia would be altered and published a notice in the Gazette on 1 December 2014 determining that the projection time is 8 February 2017.

## Current enrolment quota

10. Section 65 of the Electoral Act requires the Electoral Commissioner, as soon as practicable after the redistribution commences, to determine the current enrolment quota using the following formula:

$$\frac{\text{Number of electors enrolled in Western Australia as at the end of the day on which the redistribution commenced (1 December 2014)}}{\text{Number of members of the House of Representatives to which Western Australia is entitled}}$$

11. In calculating this quota, sub-section 65(2) of the Electoral Act provides that:
  - where the result contains a fraction that is less than 0.5, the number is rounded down to the nearest whole number, or
  - where the result contains a fraction that is equal to or greater than 0.5, the number is rounded up to the nearest whole number.

12. [Table A](#) shows the numbers used to calculate the current enrolment quota and the resultant range of the permissible maximum and minimum number of electors in a division (discussed further in ‘Statutory requirements for the making of a proposed redistribution’).

**Table A: Current enrolment quota and permissible range for Western Australia**

Number of electors enrolled in Western Australia as at the end of the day on which the redistribution commenced (1 December 2014)	1 504 413
Number of Members of the House of Representatives to which Western Australia is entitled at the next general election	16
Current enrolment quota for Western Australia	94 026
Permissible maximum number of electors in a division (current enrolment quota plus 10%)	103 428
Permissible minimum number of electors in a division (current enrolment quota minus 10%)	84 623

13. The then acting Electoral Commissioner signed a written instrument on 8 December 2014, as required by sub-section 65(1) of the Electoral Act, determining the quota of electors for the purposes of the redistribution to be 94 026.
14. As discussed in [Appendix B](#), when making a proposed redistribution, the Committee is required to ensure that the number of electors in a proposed division does not vary by more than 10 per cent above or more than 10 per cent below the current enrolment quota.

## Enrolment projections and projected average enrolment

15. As discussed in [Appendix B](#), when making a proposed redistribution, the Committee is required by sub-section 66(3)(a) of the Electoral Act to ensure, as far as practicable, that the number of electors enrolled in the proposed division at the projection time will not vary by more than 3.5 per cent above or more than 3.5 per cent below the projected average enrolment. The projected average enrolment is calculated using the following formula:

$$\frac{\text{Projected total number of electors enrolled in Western Australia at the projection time (8 February 2017)}}{\text{Number of members of the House of Representatives to which Western Australia is entitled}}$$

16. [Table B](#) shows the figures used to calculate the projected average enrolment and the resultant range of the permissible maximum and minimum number of electors in a division at the projection time (discussed further in ‘Statutory requirements for the making of a proposed redistribution’).

**Table B: Projected average enrolment and permissible range for Western Australia**

Projected total number of electors enrolled in Western Australia at the projection time (8 February 2017)	1 594 973
Number of Members of the House of Representatives to which Western Australia is entitled at the next general election	16
Projected average enrolment for Western Australia	99 686
Permissible maximum number of electors in a division at the projection time (projected average enrolment plus 3.5%)	103 175
Permissible minimum number of electors in a division at the projection time (projected average enrolment minus 3.5%)	96 197

## Appointment of the Redistribution Committee for Western Australia

17. Sub-section 60(1) of the Electoral Act specifies that a Redistribution Committee for Western Australia is required to be appointed by the Electoral Commission, via a written instrument, as soon as practicable after the commencement of the redistribution. Section 60 specifies the membership of the Committee.
18. The membership of the Redistribution Committee for Western Australia is provided at [Table C](#).

**Table C: Membership of the Redistribution Committee for Western Australia**

Position on Redistribution Committee	Name	Basis of membership
Chair	Mr Tom Rogers	Electoral Commissioner
Member	Ms Marie Neilson	acting Australian Electoral Officer for Western Australia
Member	Mr Colin Murphy	Auditor-General for Western Australia
Member	Mr Mike Bradford	Surveyor-General of Western Australia

19. The Committee met on:
  - 22 May 2015
  - 5 June 2015
  - 19 June 2015
  - 29 June 2015.

## Invitation for interested parties to submit suggestions and comments on suggestions

20. The Electoral Commissioner is required by sub-sections 64(1) and 64(2) of the Electoral Act to invite written suggestions relating to the redistribution and written comments on the suggestions received, by:
  - publishing a notice in the Gazette on a Wednesday, and
  - publishing a notice in two newspapers circulating throughout Western Australia.

21. The notice in the Gazette was published on Wednesday 11 March 2015 and notices were published in *The Weekend West* and *The Weekend Australian* newspapers on 14 March 2015.<sup>1</sup>
22. The notices included information about the processes involved in conducting a redistribution, how to participate in the process and where to find further information. [Table D](#) indicates the avenues submitters could utilise to make a suggestion or comment on suggestions, and the extent to which they were used.

**Table D: Avenues utilised to make a suggestion or comment on suggestion**

Avenue	Suggestion		Comment on suggestion	
	Number	Percentage	Number	Percentage
Form upload on AEC website	17	63%	8	50%
Email	9	33%	7	44%
Mail	0	0%	0	0%
Fax	0	0%	0	0%
In person	1	4%	1	6%
<b>Total</b>	<b>27</b>	<b>100%</b>	<b>16</b>	<b>100%</b>

23. Interested parties were able to submit written suggestions from Wednesday 11 March 2015 until 6pm (AWST) on Friday 10 April 2015, the 5th Friday after publication of the Gazette notice. During this time, 27 suggestions were received by the Committee (see [Appendix C](#)).
24. As required by section 64(3)(a) of the Electoral Act, copies of the suggestions were made available to members of the public for perusal at the office of the Australian Electoral Officer for Western Australia in Perth from Monday 13 April 2015. The suggestions were also made available on the AEC website.
25. Interested parties were able to submit written comments on suggestions from Monday 13 April 2015 until 6pm (AWST) on Friday 24 April 2015, the 7th Friday after publication of the Gazette notice. During this time, 16 comments on suggestions were received by the Committee (see [Appendix D](#)).
26. From 28 April 2015, interested parties were able to peruse the comments on suggestions on the AEC website.

## Redistribution Committee's consideration of suggestions and comments on suggestions

27. The Committee is required by sub-section 64(4) of the Electoral Act to consider all suggestions and comments on suggestions that were received by the specified lodgement times.
28. At its meeting on 22 May 2015, the Committee considered each of the 27 suggestions and 16 comments in detail. While no suggestion or comment was adopted in its entirety, the Committee noted common elements that emerged from the suggestions and comments and a number of the points raised are reflected in the proposed redistribution.
29. Suggestions and comments are available in full on the AEC website and reproduced on the DVD included with the hard copy version of this report.

<sup>1</sup> Sub-section 64(2) of the Electoral Act notes that the newspaper notices need not be published on the same day as the Gazette notice.

30. The Committee noted that a range of methods could be applied to achieve a redistribution outcome for Western Australia. Submissions addressing the state as a whole adopted varying approaches and proposed moving between, approximately, 14 per cent and 26 per cent of electors into a different division. The Committee noted that in the absence of any other changes some six per cent of electors must move in order to create the new division.
31. Submissions dealing with specific regions generally sought to improve electoral boundaries and to strengthen local community of interests by bringing together neighbouring localities into a single division and/or by suggesting LGA boundaries as divisional boundaries. In its deliberations the Committee noted that those submissions that proposed boundaries for specific regions of the state would need to be considered in the broader context of their effect on the state as a whole.
32. A number of submissions proposed the creation of a new division in the growth areas of Perth's south-eastern suburbs, to be constructed primarily of localities from the Armadale and Gosnells LGAs. Other submissions suggested the four divisions that currently fall within numerical tolerances remain in their current composition, recommending no changes to those boundaries. However, the majority of state-wide suggestions significantly altered at least two of the existing 15 divisions in order to accommodate the new division.
33. [Appendix E](#) summarises the key themes contained in all suggestions and comments on suggestions, and how they relate to the Committee's proposal with regard to the requirements of the Electoral Act.

## Statutory requirements for the making of a proposed redistribution

34. Section 66 of the Electoral Act requires the Committee to take account of specific criteria in forming the proposed boundaries.
35. The Committee has ensured that the number of electors in each proposed electoral division is:
  - not less than 90 per cent or more than 110 per cent of the current enrolment quota (see [Table A](#) above for the permissible maximum and minimum number of electors at this time), and
  - not less than 96.5 per cent or more than 103.5 per cent of the average projected divisional enrolment at the projection time of 8 February 2017 (see [Table B](#) above for the permissible maximum and minimum number of electors at this time).
36. The Committee has also given due consideration to:
  - community of interests within the proposed electoral divisions including economic, social and regional interests,
  - means of communication and travel within the proposed electoral divisions,
  - the physical features and area of the proposed electoral divisions, and
  - the boundaries of existing electoral divisions.
37. Further details regarding these requirements are contained in [Appendix B](#).

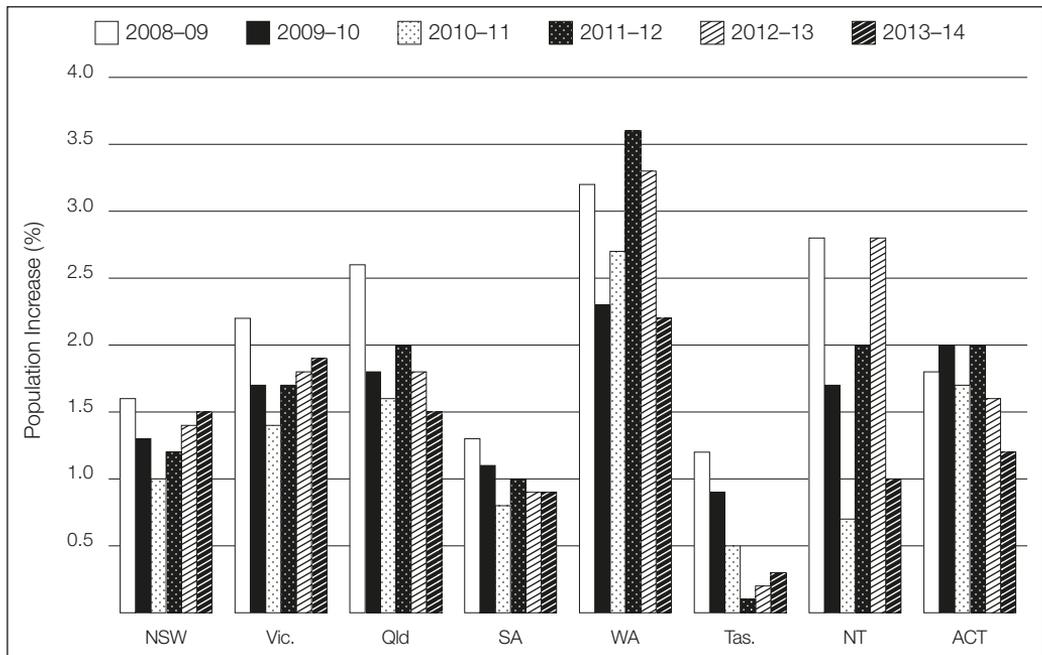

# Population and enrolment in Western Australia

38. The periodic redrawing of electoral boundaries is required to:
- address changes in the population of a state or territory. These changes may result from natural increase, natural decrease, net overseas migration or net interstate migration, and
  - address changes in the distribution of electors within the state or territory.

## Western Australia’s population

39. On 13 November 2014, the then acting Electoral Commissioner ascertained that Western Australia’s population was 2 565 588.<sup>2</sup> This represents growth of 10.73 per cent since the previous ascertainment of the population was made on 29 September 2011.
40. Geographically, Western Australia is the largest Australian state, with a population that continues to grow faster than the Australian average.
41. At June 2014, Western Australia’s estimated resident population (ERP) represented 11 per cent of the total Australian population.<sup>3</sup> The state’s ERP at June 2014 was 2.57 million,<sup>4</sup> an increase of 2.16 per cent since June 2013. As shown in Figure A below, from 2008–09 to 2013–14, Western Australia’s population growth rate has been higher than any other state or territory.

Figure A: Population increase by state and territory 2008–09 to 2013–14

Source: ABS, 3101.0 – Australian Demographic Statistics, Jun 2014: Table 4, Estimated Resident Population, states and territories

2 This ascertainment was made using statistics supplied to the then acting Electoral Commissioner by the then acting Australian Statistician on 22 October 2014 in accordance with section 47 of the Electoral Act and published in the Australian Demographics Statistics, March 2014 Quarter (ABS Cat. no.3101.0) Table 8 on 25 September 2014

3 ABS, 3218.0 – Regional Population Growth, Australia, 2013–14

4 ABS, 3101.0 – Australian Demographic Statistics, Jun 2014: Table 4, Estimated Resident Population, states and territories

## Where is Western Australia's population located?

42. At June 2014, 79 per cent of Western Australia's total population was located in the area of Greater Perth.<sup>5</sup> Over a number of years, population growth in Western Australia has been concentrated in the outer suburban areas of Greater Perth, specifically in:
- Forrestdale – Harrisdale – Piara Waters,
  - Baldivis,
  - North Coogee,
  - Anketell – Wandj, and
  - Yanchep.<sup>6</sup>
43. Future growth is also anticipated in Wanneroo, in particular Alkimos, Eglinton and Banksia Grove.
44. Outside of Greater Perth, the most significant population growth is in Busselton in the south-west of the state and Karratha in the north of the state.<sup>7</sup> There has been a decline in population in non-metropolitan areas of the state.<sup>8</sup>
45. Western Australia has the second lowest population density of all states and territories in Australia, of one person per square kilometre (sq km). There is considerable variation within the state with the population density in Greater Perth of 315 people per sq km compared to 0.2 people per sq km for the rest of Western Australia. In the year to June 2014, the population density of Greater Perth increased by 7.5 people per sq km.<sup>9</sup>

## Enrolment in Western Australia

46. When the redistribution of Western Australia commenced on 1 December 2014, 1 504 413 electors were enrolled. By the projection time of 8 February 2017, it is projected that the size of the federal electoral roll for Western Australia will have grown by 6.02 per cent to 1 594 973 electors.
47. [Table E](#) demonstrates that while enrolment across all electoral divisions is projected to increase during the period 1 December 2014 to 8 February 2017, the rate of growth is not projected to be consistent across the state. Projected growth varies considerably, ranging from 3.96 per cent for the Division of Forrest to 7.33 per cent for the Division of Brand. This is not unexpected and underpins the need for substantial boundary adjustment across divisions to cater for the dual challenges of disparate growth rates and the need for boundaries to be adjusted to create the 16th division.

7 *ibid*

8 *ibid*

9 *ibid*

Table E: Projected growth of existing divisions

Existing division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017		Projected growth
	Number	Percentage of quota: 94 026	Number	Percentage of average enrolment: 99 686	
Brand	106 310	113.06%	114 105	114.46%	7.33%
Canning	108 149	115.02%	114 782	115.14%	6.13%
Cowan	98 745	105.02%	105 304	105.64%	6.64%
Curtin	96 572	102.71%	101 818	102.14%	5.43%
Durack	92 805	98.70%	97 546	97.85%	5.11%
Forrest	100 700	107.10%	104 683	105.01%	3.96%
Fremantle	104 399	111.03%	111 250	111.60%	6.56%
Hasluck	102 067	108.55%	108 418	108.76%	6.22%
Moore	99 748	106.09%	105 638	105.97%	5.90%
O'Connor	95 704	101.78%	99 748	100.06%	4.23%
Pearce	107 896	114.75%	115 583	115.95%	7.12%
Perth	98 113	104.35%	104 840	105.17%	6.86%
Stirling	99 079	105.37%	105 461	105.79%	6.44%
Swan	98 298	104.54%	104 453	104.78%	6.26%
Tangney	95 828	101.92%	101 344	101.66%	5.76%
<b>Total</b>	<b>1 504 413</b>		<b>1 594 973</b>		<b>6.02%</b>

Note: Shading indicates where current or projected enrolment is outside the permissible range

48. [Table E](#) also indicates that existing divisions in Western Australia fall into three categories:
- where the current enrolment is more than 10 per cent above the current enrolment quota and must be corrected in this redistribution to meet the numerical requirements of the redistribution process – the Divisions of Brand, Canning, Fremantle and Pearce,
  - where the projected enrolment is more than 3.5 per cent above the projected average enrolment and must be corrected to meet the numerical requirements of the redistribution process – the Divisions of Brand, Canning, Cowan, Forrest, Fremantle, Hasluck, Moore, Pearce, Perth, Stirling and Swan, and
  - where the numerical requirements of the Electoral Act in relation to both current and projected enrolment is met and technically the existing divisions require no adjustment – the Divisions of Curtin, Durack, O'Connor and Tangney.
49. The above highlights the need for the Committee to make significant changes to the current electoral boundaries. This need for boundary modification is caused by the requirement to create a new division which, of itself, generates significant consequential changes to existing divisions, with all divisions potentially affected.

## Chapter 2

# Proposed redistribution and reasons for proposal

This chapter outlines the Committee's proposed redistribution and the reasons for this proposal. Also included is the Committee's approach to formulating the proposed boundaries and the names of divisions.

## Redistribution Committee's proposed redistribution

50. The Committee proposes the 16th electoral division, named the Division of Burt, is located in the Armadale and Gosnells area of the south-eastern Perth metropolitan region. Further the Committee proposes that the majority of electors comprising the new division are transferred from the existing Divisions of Canning, Hasluck and Tangney. Consequential changes are made to all other divisions in order to meet the numerical requirements for a redistribution that are contained in the Electoral Act and to accommodate, to the extent possible, community of interests considerations. Additionally, the Committee has, to the extent possible, addressed community of interests considerations by locating LGAs and localities within a single division. A small number of changes are proposed in order to provide stronger and more readily identifiable electoral boundaries.

## Redistribution Committee's approach to formulating proposed electoral boundaries

51. The Committee's general strategy for formulating proposed electoral boundaries is based on, and conforms to, the requirements of the Electoral Act.
52. The Committee acknowledges the overarching requirement to maintain relative equality of the number of electors in each electoral division. The Committee also noted the flexibility provided by the numerical tolerances contained in the Electoral Act. The Committee has made use of the available tolerances to construct divisions that address all other criteria to the extent possible.
53. Within the limits imposed by the numerical criteria and the other considerations, the Committee is mindful that strong, readily identifiable electoral boundaries are preferred. Local government authority boundaries, locality/suburb boundaries, main roads, railways, waterways and other strong geographic or constructed features able to be used as boundaries, have further guided the Committee's deliberations.
54. Detailed descriptions of the Committee's deliberations in determining its proposed boundaries are contained in this chapter, under the section titled 'Proposed redistribution of Western Australia – by division'.
55. In formulating the redistribution proposal, the Committee noted that the construction of a new electoral division projected to contain some 100 000 electors will, of necessity, result in significant elector movement into the new division and will also require consequential boundary changes and

elector movements across the state in order to maintain equality of enrolments state-wide. In this context the Committee has sought to minimise the movement of electors between divisions to the extent possible. [Table F](#) outlines the extent of elector movements resulting from the proposed redistribution.

**Table F: Summary of movement of electors between proposed divisions**

Proposed divisions	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
Electors remaining in their existing division	1 240 012	82.42%	1 312 488	82.29%
Electors transferred to another division	264 401	17.58%	282 485	17.71%
<b>Total</b>	<b>1 504 413</b>	<b>100.00%</b>	<b>1 594 973</b>	<b>100.00%</b>
Electors transferred into the new division of Burt	93 763	6.23%	100 530	6.30%

## Redistribution Committee's approach to naming divisions

56. The naming of federal electoral divisions has been the subject of a number of recommendations from parliamentary committees. Guidelines were developed by the AEC from recommendations made by the Joint Standing Committee on Electoral Matters (JSCEM) in its 1995 *Report on the Effectiveness and Appropriateness of the Redistribution Provisions of Parts III and IV of the Commonwealth Electoral Act 1918*. The guidelines were offered to interested persons when this redistribution was advertised, are publicly available on the AEC website and are provided as [Appendix F](#) to this report.

### Name of the new electoral division

57. A number of suggestions and comments on suggestions were received proposing names for the new electoral division. Details of the suggestions received are included as [Appendix E](#) to this report.
58. Two suggestions proposed that the 16th division be named Armadale. The Committee does not favour this suggestion because it does not meet the current guidelines.
59. One suggestion proposed the 16th division be named Dampier for the early explorer William Dampier. This is the name of a previous division that was created in 1912, however the division name was retired in 1922 and the name does not meet the current guidelines.
60. 14 suggestions, including one petition-style suggestion containing 537 signatures, and one comment, suggested the 16th division be named Vallentine to honour Jo Vallentine who was a Senator for Western Australia from 1985 until 1992. The Committee acknowledges former Senator Vallentine's significant contribution, however it does not favour this suggestion because the suggestion does not meet the current guidelines.
61. Two suggested names – Beazley and Court – were each considered to be strong nominations, however they were not favoured by the Committee at this point in time. The Committee considers that there is some potential for confusion with other living family members who are prominent public figures. The Committee noted that the option to consider the two names remains open to future redistribution committees.
62. The remaining suggested names all met the guidelines in that the nominees had all made strong contributions in various fields, either within Western Australia or nationally.

63. Ultimately, after much deliberation, the Committee has chosen to propose the name Burt for the 16th division. The name honours succeeding generations of the Burt family for their significant contributions to the justice system and for their wider contributions to public service, specifically:
- Sir Archibald Burt (1810–1879), first Chief Justice of the Supreme Court of Western Australia,
  - Septimus Burt (1847–1919), whose public roles included that of Attorney-General of Western Australia at the time of colonial self-government, and
  - Sir Francis Burt (1918–2004), who served as a judge of the Supreme Court of Western Australia, Chief Justice of Western Australia, and Governor of Western Australia from 1990 until 1993.

## Proposed redistribution of Western Australia by division

64. The Committee has examined each proposed electoral division, giving due consideration to the requirements of the Electoral Act. For each of the proposed divisions in Western Australia, [Table G](#) presents:
- current enrolment at 1 December 2014,
  - percentage variation from the current enrolment quota,
  - projected enrolment as at 8 February 2017,
  - percentage variation from the projected average enrolment, and
  - the approximate area of each proposed division.

**Table G: Summary of proposed divisions**

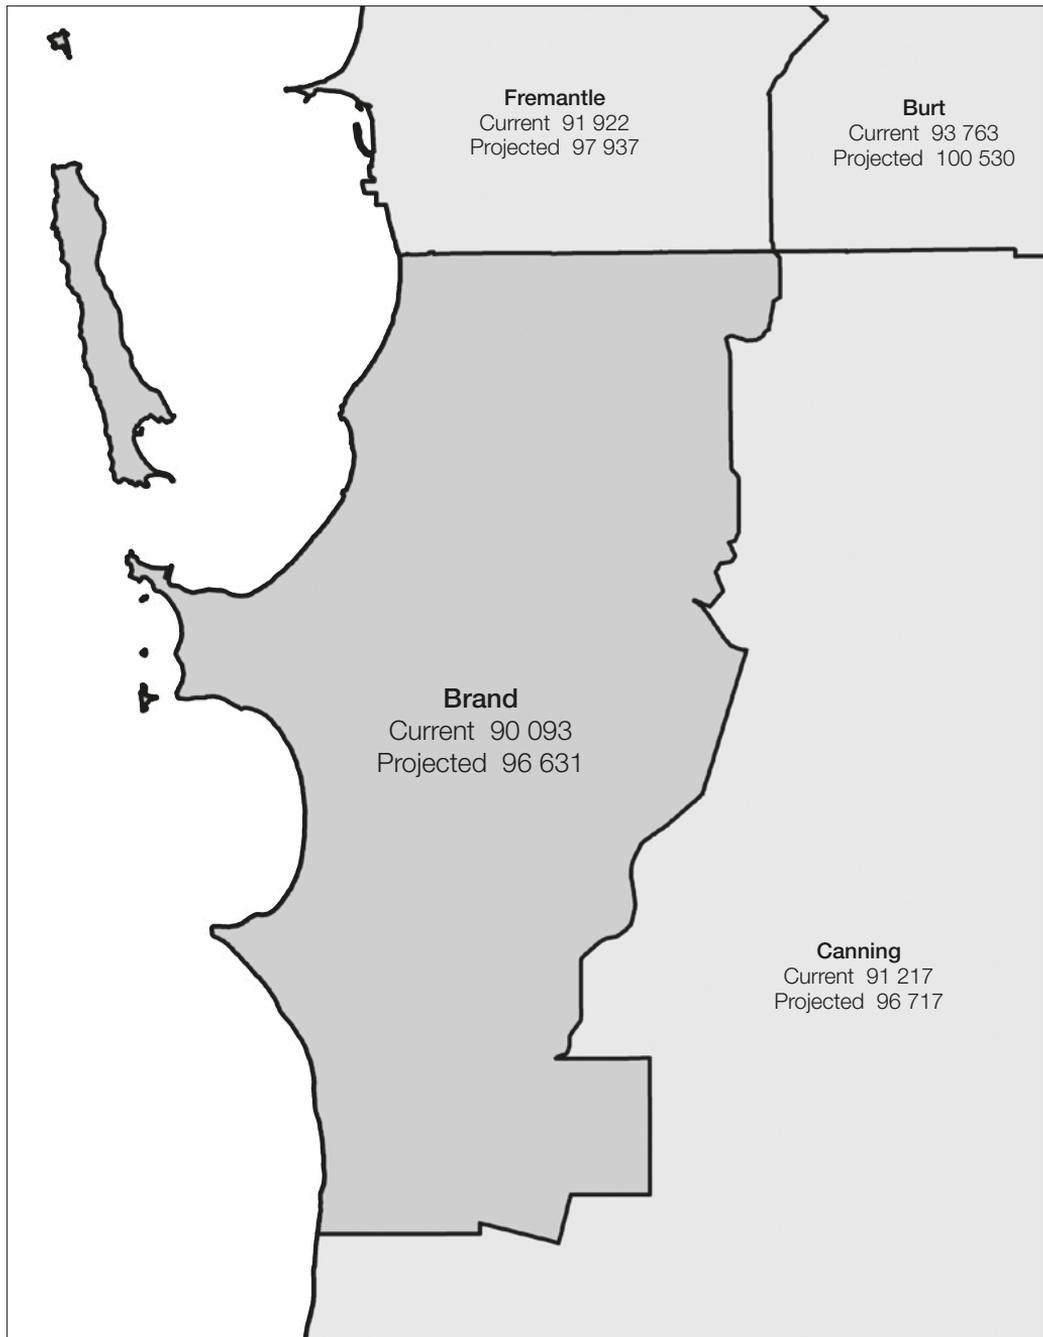

Proposed division	Current enrolment at 1 December 2014		Projected enrolment at 8 February 2017		Approximate area (sq km)
	Number	Variation from quota: 94 026	Number	Variation from average enrolment: 99 686	
Brand	90 093	(4.18%)	96 631	(3.06%)	377
Burt	93 763	(0.28%)	100 530	0.85%	172
Canning	91 217	(2.99%)	96 717	(2.98%)	8 210
Cowan	93 613	(0.44%)	100 388	0.70%	180
Curtin	95 712	1.79%	100 865	1.18%	104
Durack	95 644	1.72%	100 543	0.86%	1 629 858
Forrest	94 559	0.57%	98 311	(1.38%)	11 071
Fremantle	91 922	(2.24%)	97 937	(1.75%)	192
Hasluck	91 739	(2.43%)	97 337	(2.36%)	1 193
Moore	98 158	4.39%	102 958	3.28%	90
O'Connor	98 672	4.94%	102 789	3.11%	866 672
Pearce	91 678	(2.50%)	98 945	(0.74%)	13 250
Perth	95 158	1.20%	101 567	1.89%	79
Stirling	95 584	1.66%	101 801	2.12%	74
Swan	93 811	(0.23%)	99 687	0.00%	134
Tangney	93 090	(1.00%)	97 967	(1.72%)	83
<b>Total</b>	<b>1 504 413</b>		<b>1 594 973</b>		<b>2 531 739</b>

65. See [Appendix G](#) for a description of the method used to calculate the area of each division.
66. The Committee's redistribution proposal, as outlined previously, is discussed in greater detail in the paragraphs that follow. The proposed divisions are dealt with in alphabetical order. Statistical summaries of the proposed divisions are provided at [Appendix I](#).

## Brand

67. The proposed Division of Brand is surrounded by the Divisions of Burt, Canning and Fremantle – [Figure B](#) refers.

Figure B: Proposed Division of Brand

68. Projected enrolment in the existing Division of Brand is 114 105. This division requires a net reduction of between 10 930 and 17 908 electors in order to fit within the required numerical parameters.

69. The Committee proposes that the following electors are transferred out of the existing division:

Existing division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
<b>Total for existing Division of Brand</b>	<b>106 310</b>	<b>100.00%</b>	<b>114 105</b>	<b>100.00%</b>
Number of electors moved to Canning	(16 217)	(15.25%)	(17 474)	(15.31%)
Number of electors remaining in the division	90 093	84.75%	96 631	84.69%

70. The Committee proposes that no electors are gained from any other division:

Proposed division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
Number of electors remaining in the division	90 093	100.00%	96 631	100.00%
<b>Total for proposed Division of Brand</b>	<b>90 093</b>	<b>100.00%</b>	<b>96 631</b>	<b>100.00%</b>

71. A number of public suggestions and comments on suggestions recommended that the Mandurah LGA be reunited within one division with the majority of these suggestions proposing the LGA be located in the Division of Canning.

72. The only modification to the Division of Brand is to transfer that portion of the Mandurah LGA that previously formed part of the Division of Brand into the Division of Canning.

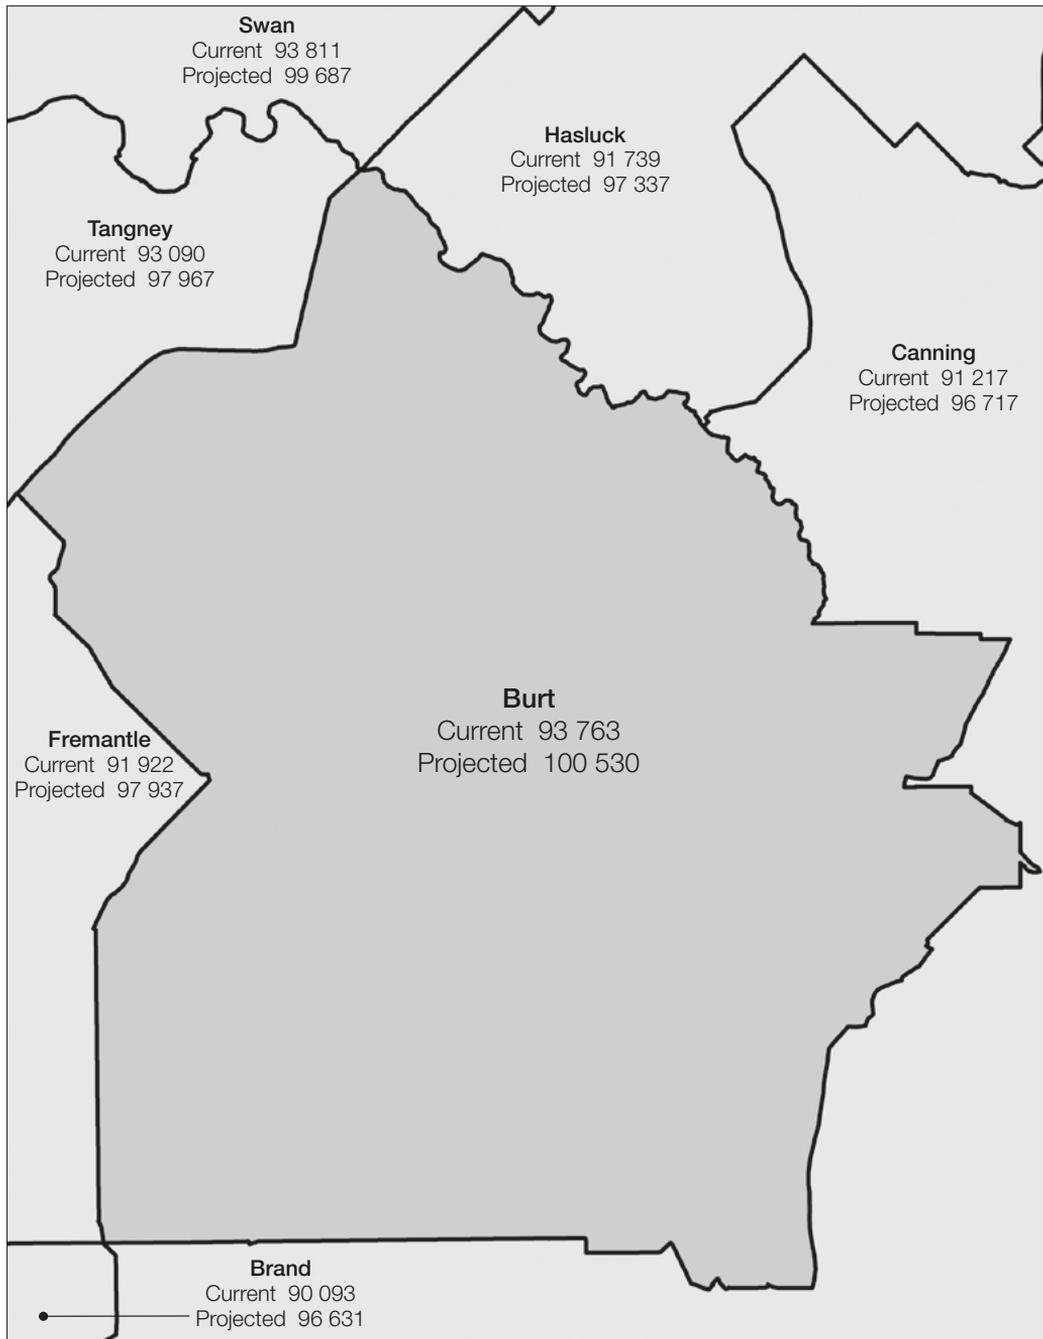

73. The proposed Division of Brand is now contained wholly within the boundaries of the Kwinana and Rockingham LGAs and includes Garden Island.

74. The proposed Division of Brand has a projected enrolment of 96 631 which is a variation from the average projected enrolment of minus 3.06 per cent.

## Burt

75. The proposed Division of Burt is located either side of the South Western Hwy surrounded by the Divisions of Brand, Canning, Fremantle, Hasluck, Swan and Tangney – [Figure C](#) refers.

Figure C: Proposed Division of Burt

76. The proposed Division of Burt is created by transferring electors from the following existing divisions:

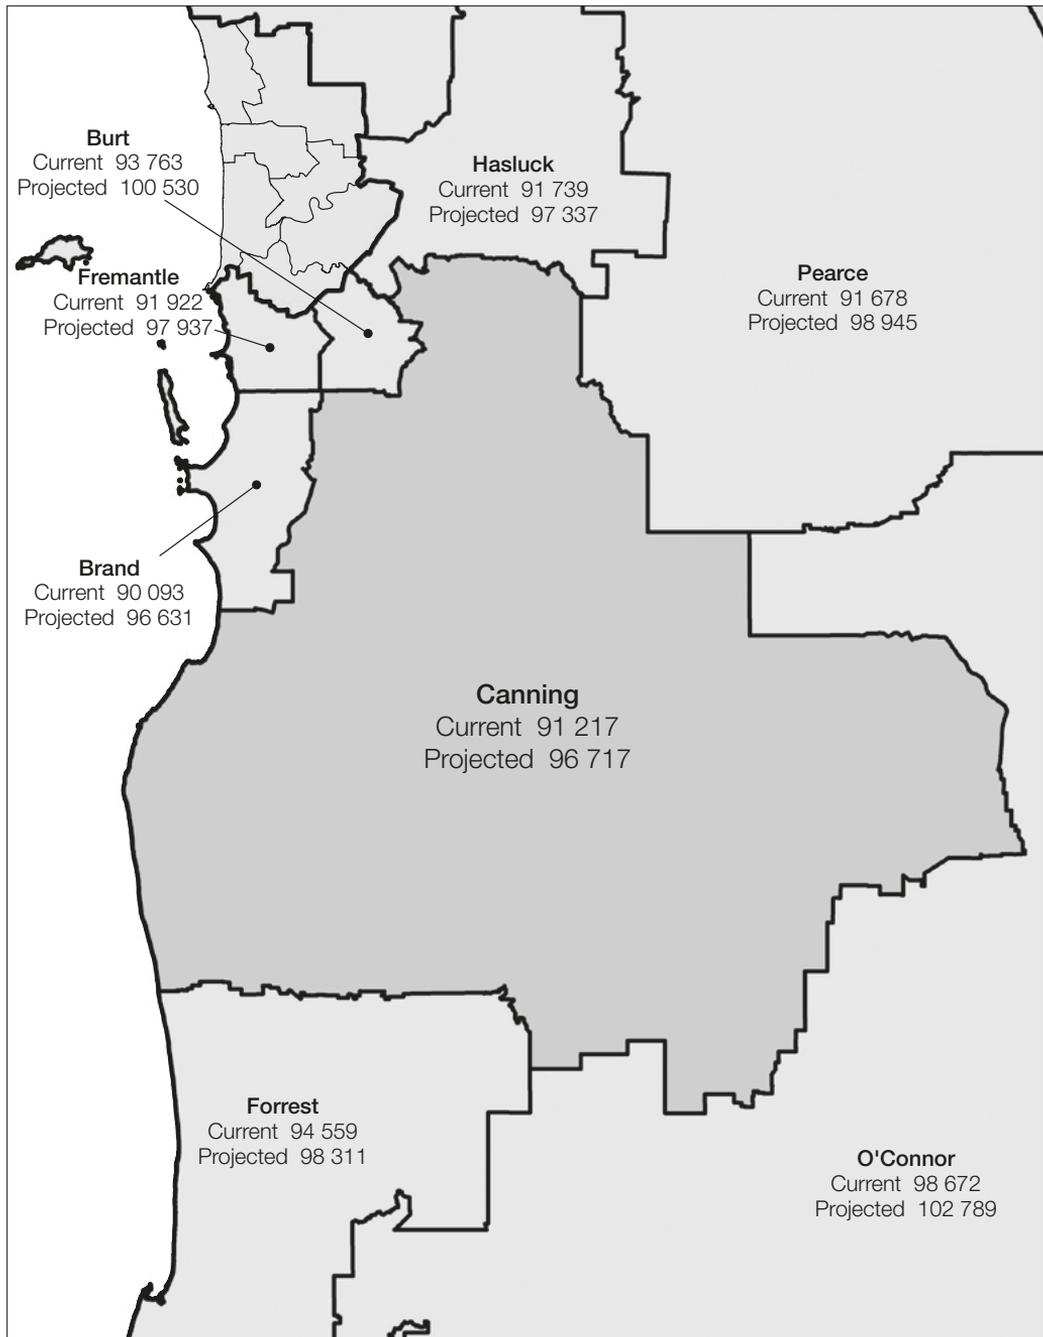

Proposed division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
Number of electors moved from Canning	35 612	37.98%	38 115	37.91%
Number of electors moved from Hasluck	36 855	39.31%	39 257	39.05%
Number of electors moved from Swan	3 166	3.38%	3 411	3.39%
Number of electors moved from Tangney	18 130	19.34%	19 747	19.64%
<b>Total for proposed Division of Burt</b>	<b>93 763</b>	<b>100.00%</b>	<b>100 530</b>	<b>100.00%</b>

77. A number of public suggestions and comments on suggestions recommended that the new division be placed in the Armadale and Gosnells LGA being in the south-eastern region of metropolitan Perth.
78. The proposed Division of Burt is constructed from localities within the Armadale, Canning and Gosnells LGAs. The Canning River is utilised as a strong north eastern boundary with the remainder of the borders composed of locality boundaries that are readily identifiable.
79. Utilising the Canning River as a strong boundary the locality of Langford is transferred from the Division of Swan whilst the localities of Gosnells, Huntingdale, Southern River and Thornlie are transferred from the Division of Hasluck. Canning Vale locality is moved from the Division of Tangney. A third of the Armadale LGA is moved from the Division of Canning with the localities of Armadale, Brookdale, Camillo, Champion Lakes, Forrestdale, Harrisdale, Haynes, Hilbert, Kelmescott, Mount Nasura, Piara Waters and Seville Grove with Wungong split by the South Western Hwy.
80. The proposed Division of Burt has a projected enrolment of 100 530 which is a variation from the average projected enrolment of plus 0.85 per cent.

## Canning

81. The proposed Division of Canning is surrounded by the Divisions of Brand, Burt, Forrest, Fremantle, Hasluck, O'Connor and Pearce – [Figure D](#) refers.

Figure D: Proposed Division of Canning

82. Projected enrolment in the existing Division of Canning is 114 782. This division requires a net reduction of between 11 607 and 18 585 electors in order to fit within the required numerical parameters.

83. The Committee proposes that the following electors are transferred out of the existing division:

Existing division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
<b>Total for existing Division of Canning</b>	<b>108 149</b>	<b>100.00%</b>	<b>114 782</b>	<b>100.00%</b>
Number of electors moved to Burt	(35 612)	(32.93%)	(38 115)	(33.21%)
Number of electors remaining in the division	72 537	67.07%	76 667	66.79%

84. The Committee proposes that the Division of Canning gains electors from the following existing divisions:

Proposed division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
Number of electors remaining in the division	72 537	79.52%	76 667	79.27%
Number of electors moved from Brand	16 217	17.78%	17 474	18.07%
Number of electors moved from Hasluck	1 365	1.50%	1 448	1.50%
Number of electors moved from O'Connor	334	0.37%	334	0.35%
Number of electors moved from Pearce	764	0.84%	794	0.82%
<b>Total for proposed Division of Canning</b>	<b>91 217</b>	<b>100.00%</b>	<b>96 717</b>	<b>100.00%</b>

85. Substantial movement of electors is required in the Division of Canning after contributing to the creation of the new division with approximately one third of electors transferring to the Division of Burt from the Armadale LGA. The division has retained some of its urban sections and has gained additional rural areas.

86. The Committee received a number of public suggestions and comments on suggestions recommending that the Mandurah LGA be reunited within one division with the majority of these suggestions proposing the LGA be located in the Division of Canning.

87. The Committee has adopted this suggestion and transferred the Mandurah LGA portion from the Division of Brand, thereby reuniting the Mandurah LGA within one division.

88. To ensure the Division of Canning meets numerical parameters the rural LGA of Wandering is transferred from the Division of O'Connor, the outer suburban localities of Orange Grove and Martin are transferred from the Division of Hasluck and the outer suburban localities of Carmel, Canning Mills and Pickering Brook are transferred from the Division of Pearce.

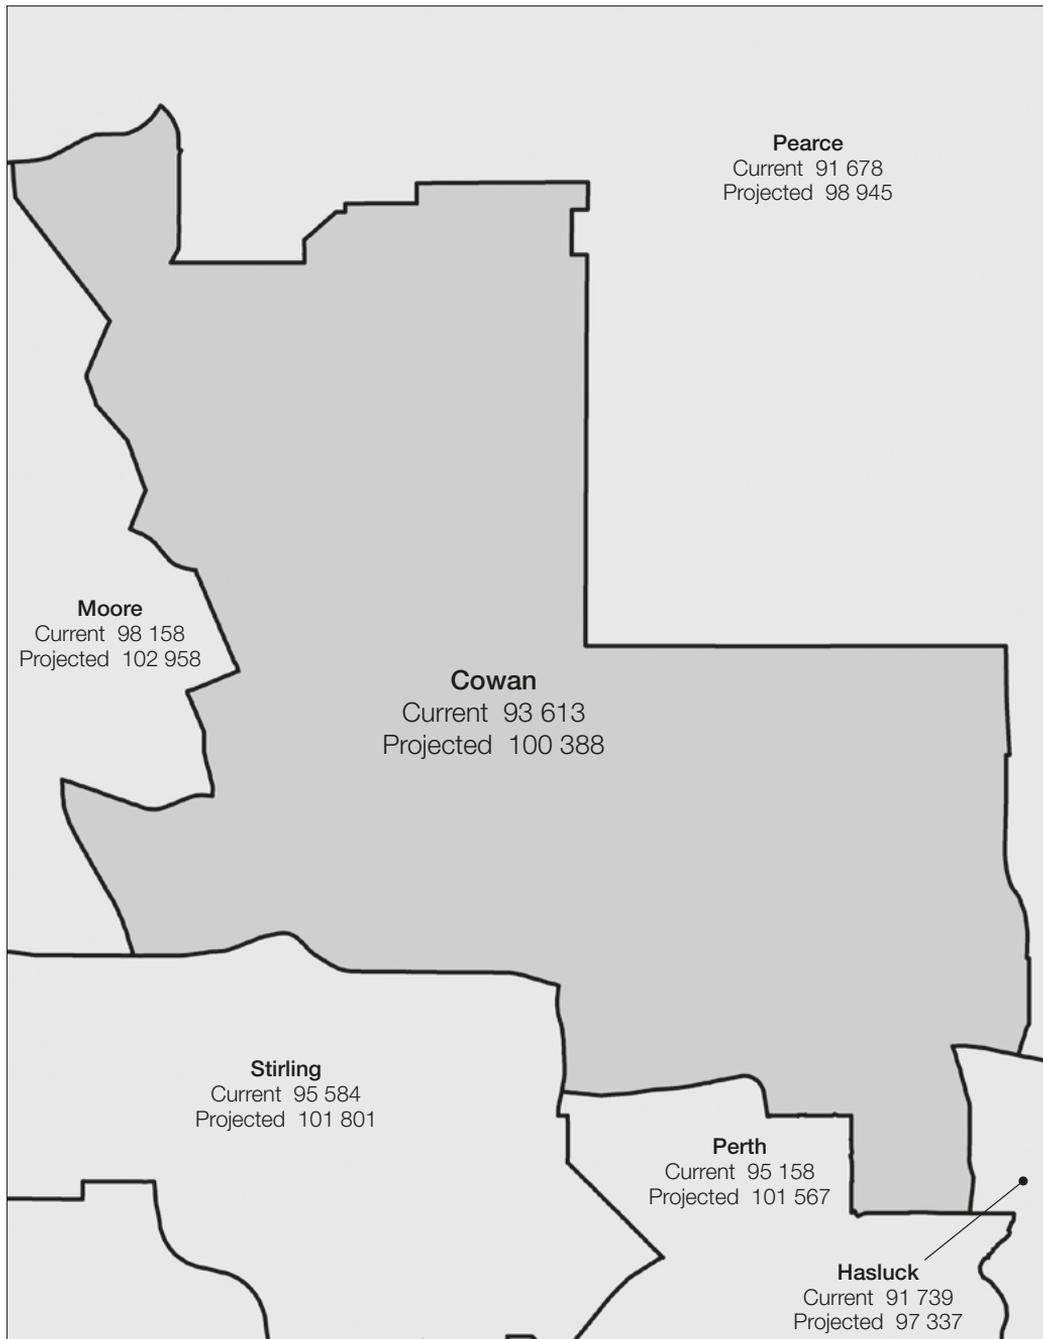

89. The Division of Canning's new boundaries are primarily constructed from LGA and locality boundaries with whole LGAs and localities located within the one division where possible.

90. The proposed Division of Canning has a projected enrolment of 96 717 which is a variation from the average projected enrolment of minus 2.98 per cent.

## Cowan

91. The proposed Division of Cowan is surrounded by the Divisions of Hasluck, Moore, Pearce, Perth and Stirling – [Figure E](#) refers.

Figure E: Proposed Division of Cowan

92. Projected enrolment in the existing Division of Cowan is 105 304. This division requires a net reduction of between 2 129 and 9 107 electors in order to fit within the required numerical parameters.
93. The Committee proposes that the following electors are transferred out of the existing division:

Existing division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
<b>Total for existing Division of Cowan</b>	<b>98 745</b>	<b>100.00%</b>	<b>105 304</b>	<b>100.00%</b>
Number of electors moved to Moore	(15 809)	(16.01%)	(16 328)	(15.51%)
Number of electors moved to Pearce	(2 034)	(2.06%)	(2 332)	(2.21%)
Number of electors remaining in the division	80 902	81.93%	86 644	82.28%

94. The Committee proposes that the Division of Cowan gains electors from the following existing divisions:

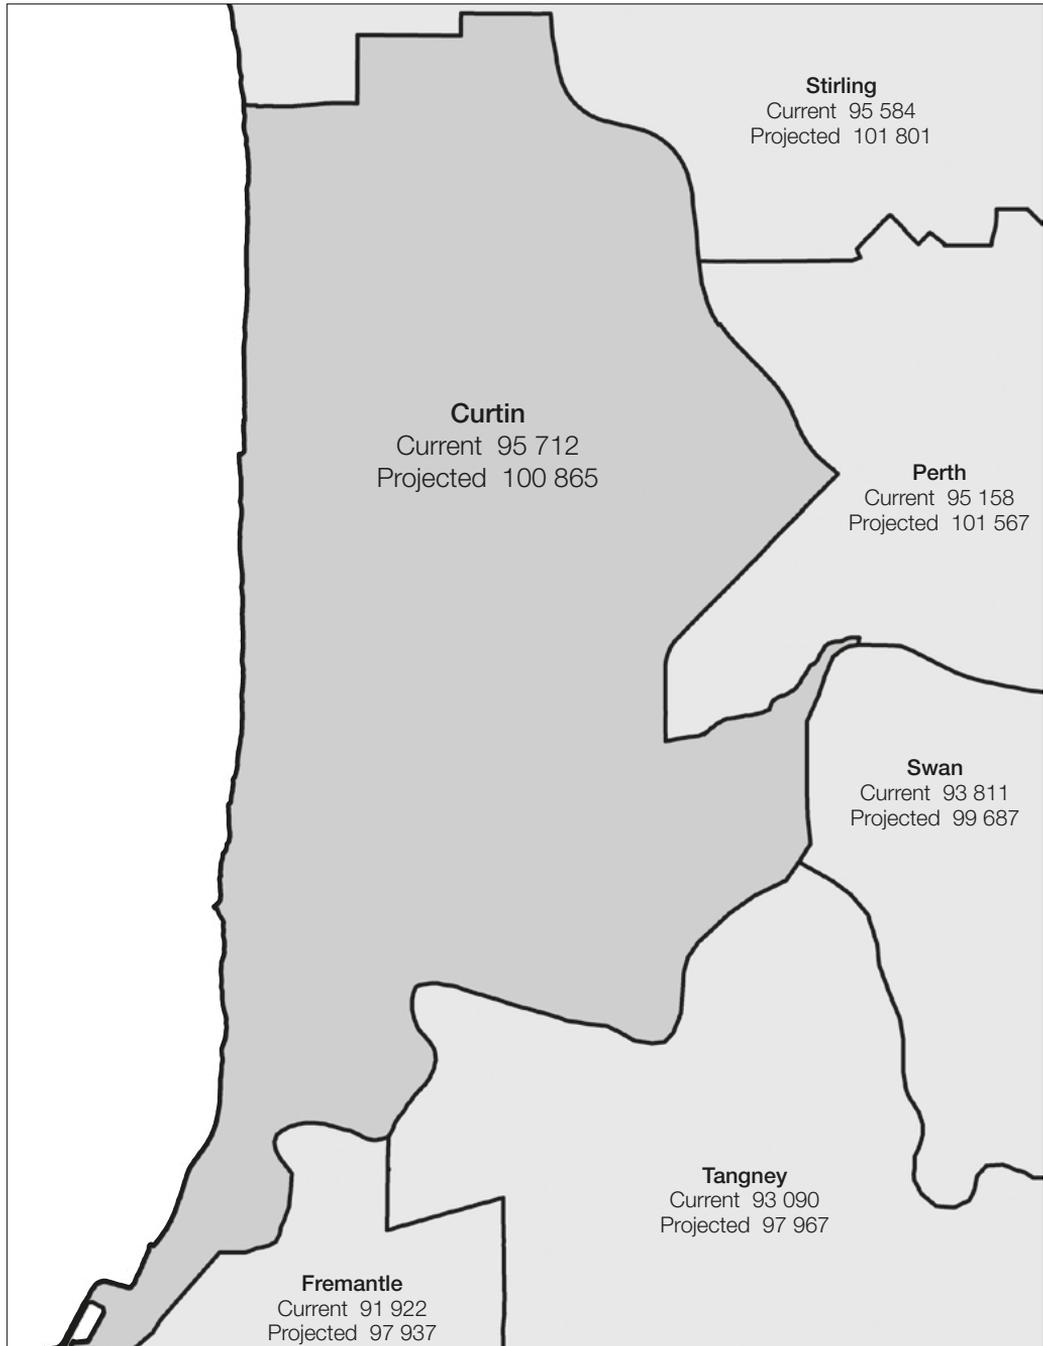

Proposed division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
Number of electors remaining in the division	80 902	86.42%	86 644	86.31%
Number of electors moved from Pearce	3 082	3.29%	3 387	3.37%
Number of electors moved from Perth	9 629	10.29%	10 357	10.32%
<b>Total for proposed Division of Cowan</b>	<b>93 613</b>	<b>100.00%</b>	<b>100 388</b>	<b>100.00%</b>

95. The Division of Cowan is impacted by consequential changes flowing from the creation of the new division.
96. The localities of Whiteman and Bennett Springs are moved from the Division of Pearce whilst Beechboro, Kiara and Lockridge are moved from the Division of Perth.
97. The localities of Banksia Grove and Mariginiup are transferred to the Division of Pearce, thereby reuniting the previously split suburb of Banksia Grove into the one division. The localities of Woodvale and the western portion of Kingsley are transferred to the Division of Moore. The locality of Kingsley is split along Goollelal Dr dividing the suburb at Lake Goollelal.
98. The Division of Cowan's proposed boundaries are primarily constructed from locality boundaries with whole localities located within the one division where possible.
99. The proposed Division of Cowan has a projected enrolment of 100 388 which is a variation from the average projected enrolment of plus 0.70 per cent.

## Curtin

100. The proposed Division of Curtin is surrounded by the Divisions of Perth and Stirling north of the Swan River and the Divisions of Fremantle, Swan and Tangney south of the Swan River – [Figure F](#) refers.

Figure F: Proposed Division of Curtin

101. Projected enrolment in the existing Division of Curtin is 101 818. This division can therefore transfer up to 5 621 electors to other divisions, or gain up to 1 357 electors from other divisions, and remain within the required numerical parameters.
102. The Committee proposes that the following electors are transferred out of the existing division:

Existing division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
<b>Total for existing Division of Curtin</b>	<b>96 572</b>	<b>100.00%</b>	<b>101 818</b>	<b>100.00%</b>
Number of electors moved to Perth	(12 637)	(13.09%)	(13 503)	(13.26%)
Number of electors remaining in the division	83 935	86.91%	88 315	86.74%

103. The Committee proposes that the Division of Curtin gains electors from the following existing divisions:

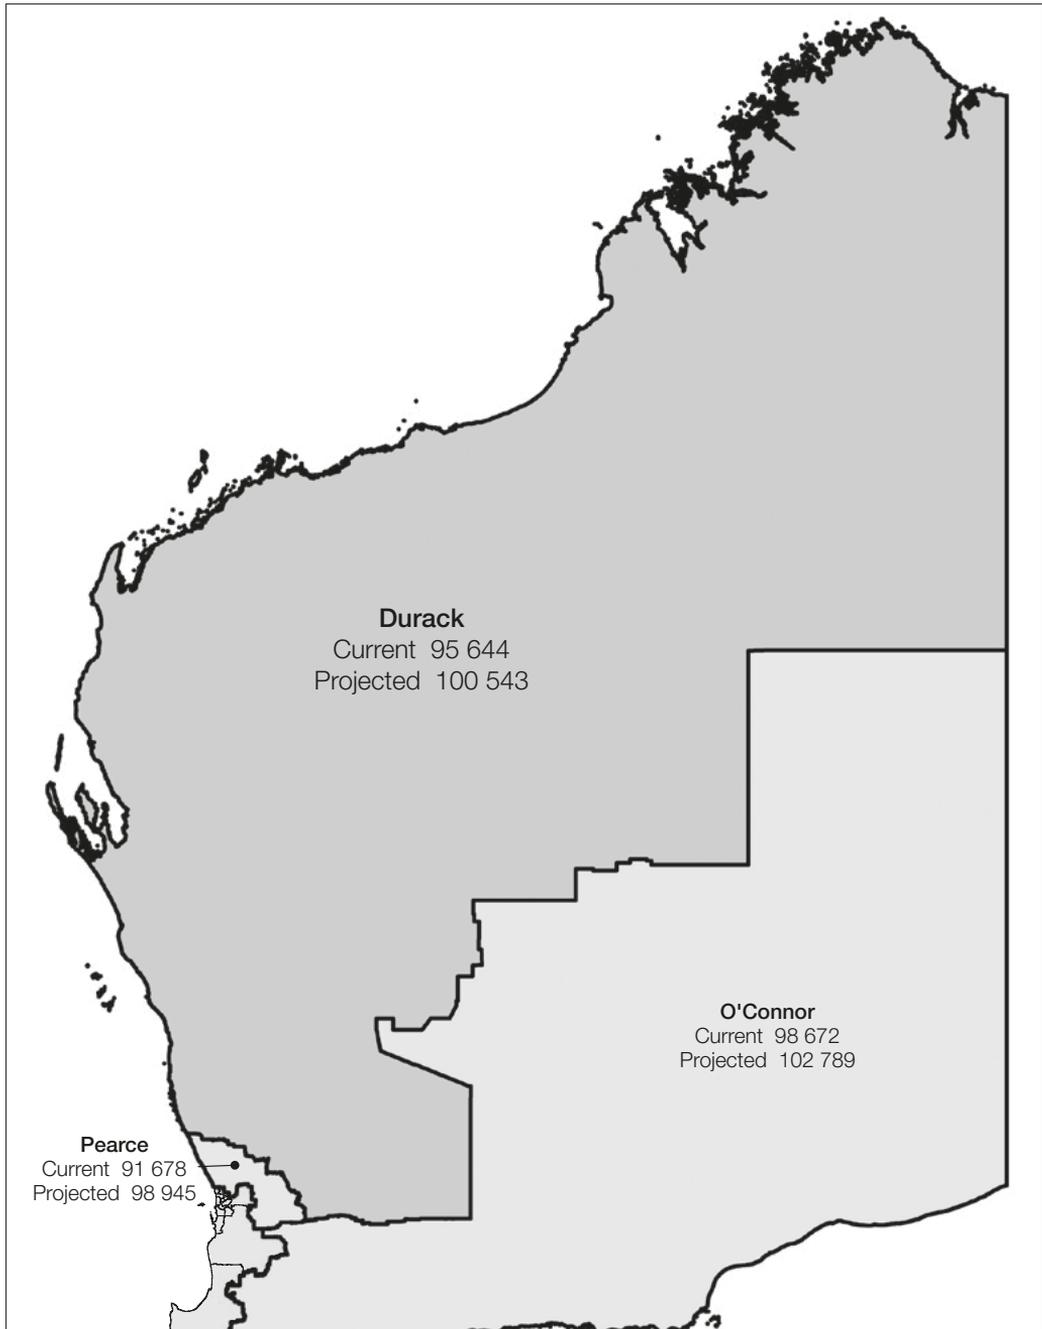

Proposed division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
Number of electors remaining in the division	83 935	87.70%	88 315	87.56%
Number of electors moved from Fremantle	2 319	2.42%	2 471	2.45%
Number of electors moved from Stirling	9 458	9.88%	10 079	9.99%
<b>Total for proposed Division of Curtin</b>	<b>95 712</b>	<b>100.00%</b>	<b>100 865</b>	<b>100.00%</b>

104. The existing Division of Curtin is within numerical parameters and does not technically require any alterations to its boundaries. However, as all of the surrounding divisions are above numerical tolerances, the Division of Curtin has experienced consequential changes in order to accommodate modifications required for other divisions.
105. In order to maintain the Swan River as a strong boundary between divisions and recognising a community of interest with its northern neighbours, the locality of North Fremantle is moved from the existing Division of Fremantle. The split localities of Doubleview and Innaloo are moved from the Division of Stirling, thereby reuniting those localities within one division. The localities of Osborne Park and Scarborough remain split between the Divisions of Stirling and Curtin. Osborne Park is divided by the Mitchell Fwy with the portion west of the freeway remaining in the Division of Curtin. The Division of Curtin gains the additional portion of Scarborough locality that is east of Duke St to the Doubleview locality border, to keep the division within numerical parameters.
106. The remainder of the Vincent LGA and the greater majority of Perth LGA is transferred to the Division of Perth, reuniting those LGAs in the one division. The localities of West Perth and King's Park are also transferred to the Division of Perth. The small portion of the Perth LGA that lies south of Mounts Bay Rd remains in the Division of Curtin as Mounts Bay Rd forms a stronger and more identifiable electoral boundary.
107. The Division of Curtin's proposed boundaries are constructed from the Indian Ocean, the Swan River, LGA and locality boundaries, with whole LGAs and localities located within the one division where possible.
108. The proposed Division of Curtin has a projected enrolment of 100 865 which is a variation from the average projected enrolment of plus 1.18 per cent.

## Durack

109. The proposed Division of Durack is bordered by the Divisions of O'Connor and Pearce – [Figure G](#) refers.

Figure G: Proposed Division of Durack

110. Projected enrolment in the existing Division of Durack is 97 546. This division can therefore transfer up to 1 349 electors to other divisions, or gain up to 5 629 electors from other divisions, and remain within the required numerical parameters.

111. The Committee proposes that no electors are transferred out of the existing division:

Existing division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
<b>Total for existing Division of Durack</b>	<b>92 805</b>	<b>100.00%</b>	<b>97 546</b>	<b>100.00%</b>

112. The Committee proposes that the Division of Durack gains electors from the following existing divisions:

Proposed division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
Number of electors remaining in the division	92 805	97.03%	97 546	97.02%
Number of electors moved from O'Connor	2 839	2.97%	2 997	2.98%
<b>Total for proposed Division of Durack</b>	<b>95 644</b>	<b>100.00%</b>	<b>100 543</b>	<b>100.00%</b>

113. The existing Division of Durack is within numerical parameters and does not technically require any alterations to its boundaries. However, small adjustments are made in order to accommodate changes made to the neighbouring Divisions of Forrest and O'Connor.

114. The LGAs of Bruce Rock, Narembeen, Quairading, Westonia and Yilgarn are transferred from the Division of O'Connor, thereby reuniting community of interests: these LGAs are now joined with the rest of the Wheatbelt sub-region of Central East in the Division of Durack.

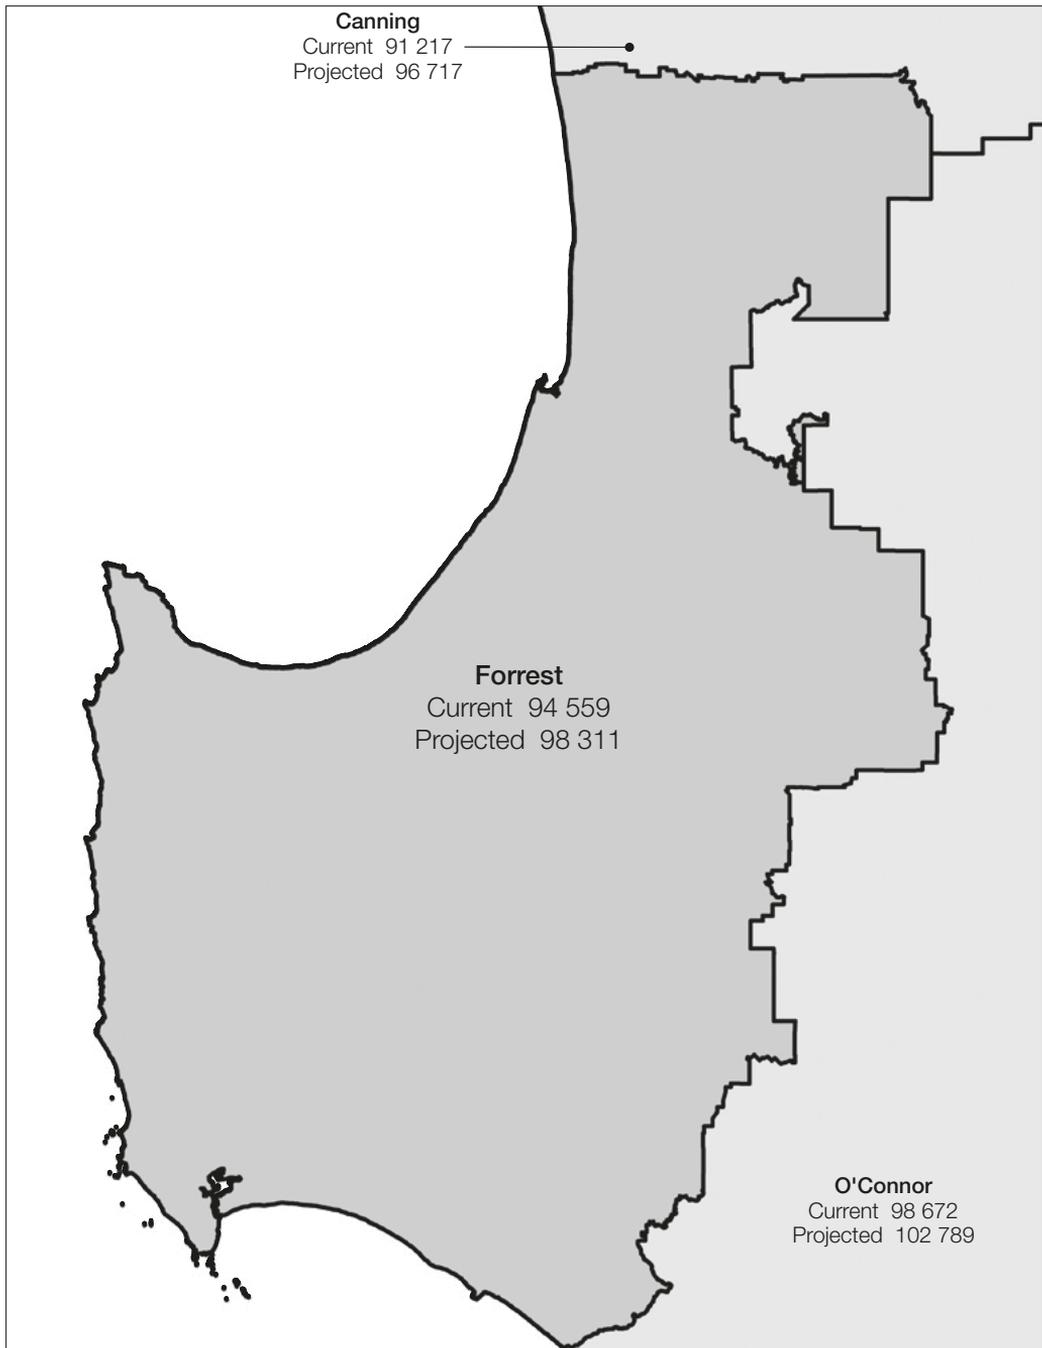

115. The proposed division is constructed from whole LGAs utilising the Indian Ocean and LGA borders as its boundaries.

116. The proposed Division of Durack has a projected enrolment of 100 543 which is a variation from the average projected enrolment of plus 0.86 per cent.

## Forrest

117. The proposed Division of Forrest is bordered to the north and east by the Divisions of Canning and O'Connor – [Figure H](#) refers.

Figure H: Proposed Division of Forrest

118. Projected enrolment in the existing Division of Forrest is 104 683. This division requires a net reduction of between 1 508 and 8 486 electors in order to fit within the required numerical parameters.
119. The Committee proposes that the following electors are transferred out of the existing division:

Existing division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
<b>Total for existing Division of Forrest</b>	<b>100 700</b>	<b>100.00%</b>	<b>104 683</b>	<b>100.00%</b>
Number of electors moved to O'Connor	(6 141)	(6.10%)	(6 372)	(6.09%)
Number of electors remaining in the division	94 559	93.90%	98 311	93.91%

120. The Committee proposes that no electors are gained from any other division:

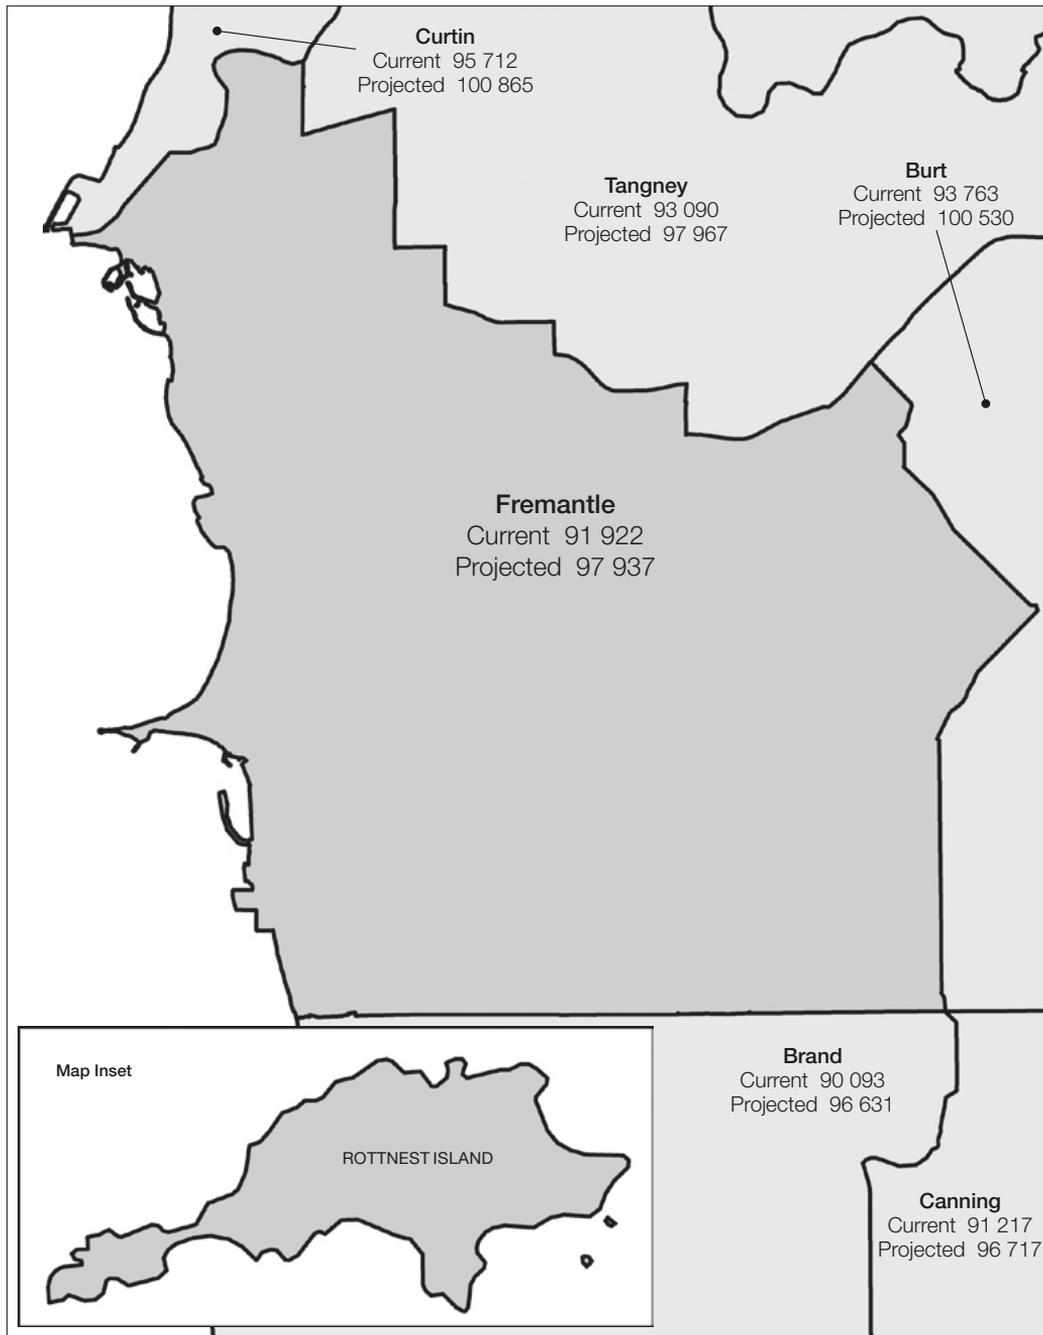

Proposed division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
Number of electors remaining in the division	94 559	100.00%	98 311	100.00%
<b>Total for proposed Division of Forrest</b>	<b>94 559</b>	<b>100.00%</b>	<b>98 311</b>	<b>100.00%</b>

121. The only modification to the Division of Forrest is to transfer the Collie LGA to the Division of O'Connor. This splits the Collie LGA from its community of interest with the other LGAs in the Bunbury-Wellington sub-region whilst retaining its unity with other LGAs that form the South West Region in the Division of O'Connor.
122. The proposed division is constructed from whole LGAs utilising the Indian Ocean, Southern Ocean and LGA borders as its boundaries.
123. The proposed Division of Forrest has a projected enrolment of 98 311 which is a variation from the average projected enrolment of minus 1.38 per cent.

## Fremantle

124. The proposed Division of Fremantle is surrounded by the Divisions of Brand, Burt, Canning, Curtin, and Tangney – [Figure I](#) refers.

Figure I: Proposed Division of Fremantle

125. Projected enrolment in the existing Division of Fremantle is 111 250. This division requires a net reduction of between 8 075 and 15 053 electors in order to fit within the required numerical parameters.
126. The Committee proposes that the following electors are transferred out of the existing division:

Existing division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
<b>Total for existing Division of Fremantle</b>	<b>104 399</b>	<b>100.00%</b>	<b>111 250</b>	<b>100.00%</b>
Number of electors moved to Curtin	(2 319)	(2.22%)	(2 471)	(2.22%)
Number of electors moved to Tangney	(10 158)	(9.73%)	(10 842)	(9.75%)
Number of electors remaining in the division	91 922	88.05%	97 937	88.03%

127. The Committee proposes that no electors are gained from any other division:

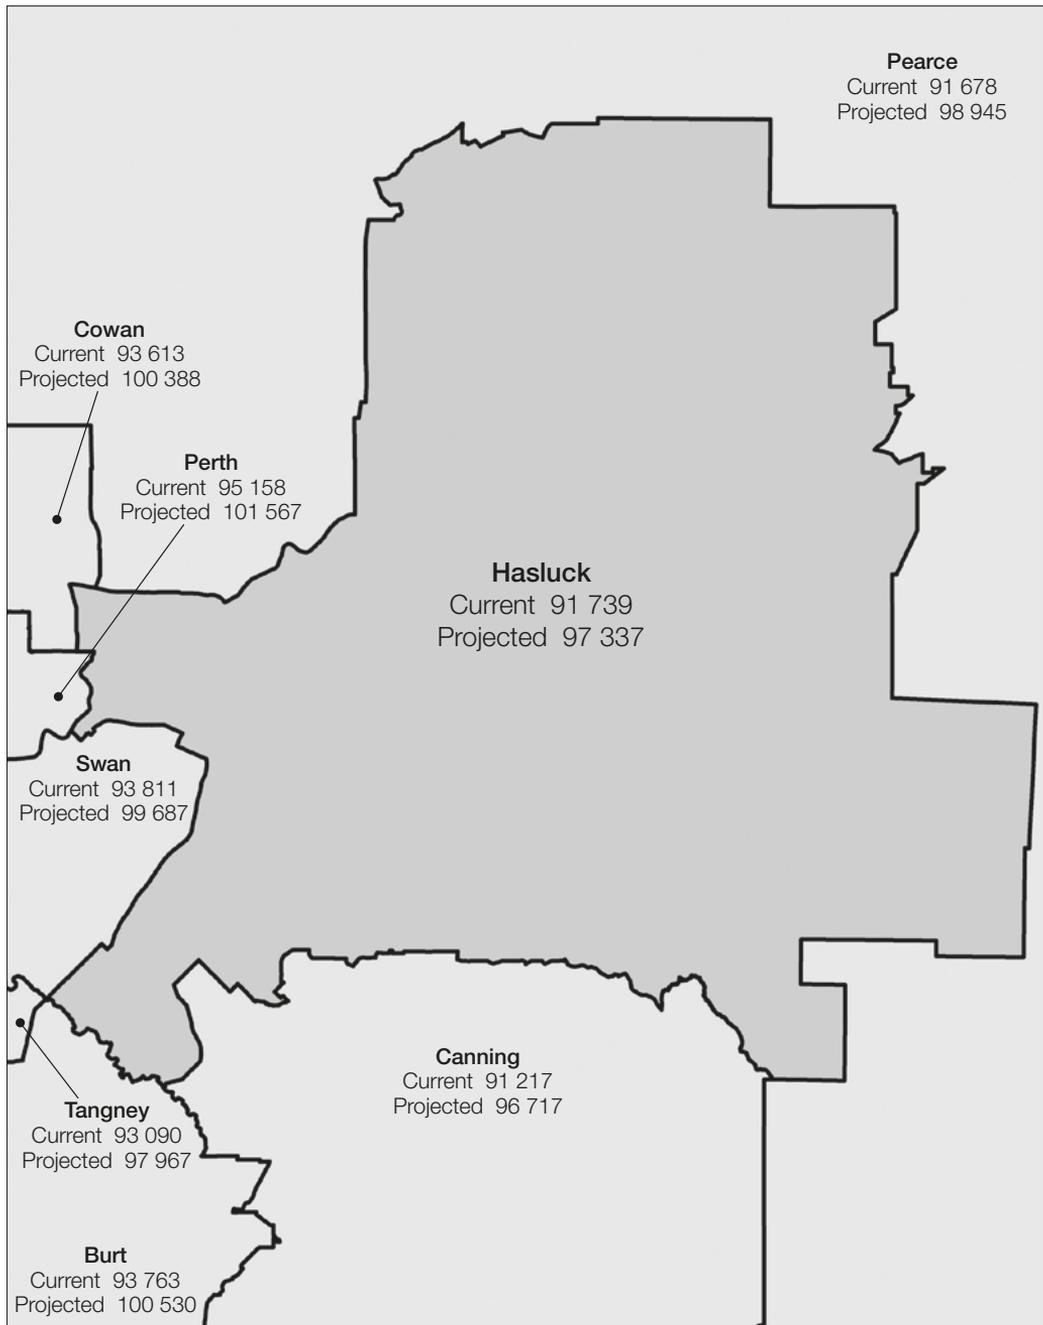

Proposed division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
Number of electors remaining in the division	91 922	100.00%	97 937	100.00%
<b>Total for proposed Division of Fremantle</b>	<b>91 922</b>	<b>100.00%</b>	<b>97 937</b>	<b>100.00%</b>

128. In order to maintain the Swan River as a strong boundary between divisions, and recognising a community of interest with its northern neighbours, the locality of North Fremantle is transferred out of the existing Division of Fremantle and into the Division of Curtin. The localities of Bicton and Willagee are transferred to the Division of Tangney. To ensure the division remains within numerical parameters the locality of Kardinya remains split between the Divisions of Fremantle and Tangney with the portion north of South St moved to the Division of Tangney. A small portion of the locality of Leeming, being Ken Hurst Park which lies south of the Roe Hwy, is transferred from the Division of Tangney as the Roe Hwy provides a stronger and more identifiable electoral boundary.
129. The Division of Fremantle's new boundaries are primarily constructed from the Indian Ocean, Swan River and LGA and locality boundaries, with whole LGAs and localities located within the one division where possible.
130. The proposed Division of Fremantle has a projected enrolment of 97 937 which is a variation from the average projected enrolment of minus 1.75 per cent.

## Hasluck

131. The proposed Division of Hasluck is surrounded by the Divisions of Burt, Canning, Cowan, Pearce, Perth, Swan and Tangney – [Figure J](#) refers.

Figure J: Proposed Division of Hasluck

132. Projected enrolment in the existing Division of Hasluck is 108 418. This division requires a net reduction of between 5 243 and 12 221 electors in order to fit within the required numerical parameters.
133. The Committee proposes that the following electors are transferred out of the existing division:

Existing division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
Total for existing Division of Hasluck	102 067	100.00%	108 418	100.00%
Number of electors moved to Burt	(36 855)	(36.11%)	(39 257)	(36.21%)
Number of electors moved to Canning	(1 365)	(1.34%)	(1 448)	(1.34%)
Number of electors moved to Pearce	(4)	(0.00%)	(4)	(0.00%)
Number of electors moved to Swan	(7 906)	(7.75%)	(8 466)	(7.81%)
<b>Number of electors remaining in the division</b>	<b>55 937</b>	<b>54.80%</b>	<b>59 243</b>	<b>54.64%</b>

134. The Committee proposes that the Division of Hasluck gains electors from the following existing divisions:

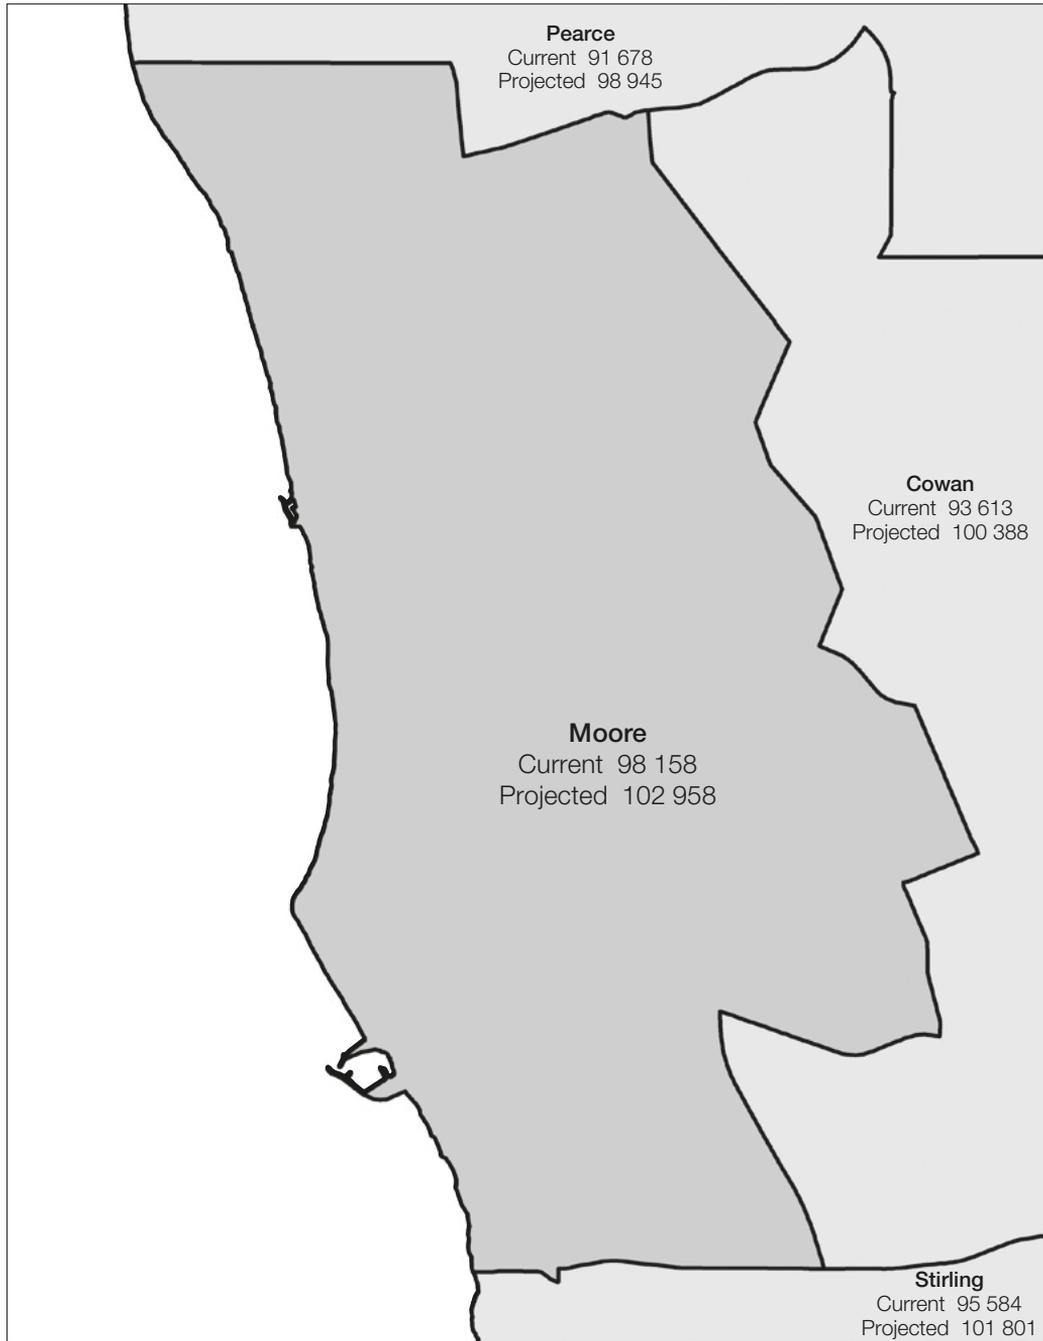

Proposed division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
Number of electors remaining in the division	55 937	60.97%	59 243	60.86%
Number of electors moved from Pearce	31 809	34.67%	33 801	34.73%
Number of electors moved from Swan	3 993	4.35%	4 293	4.41%
<b>Total for proposed Division of Hasluck</b>	<b>91 739</b>	<b>100.00%</b>	<b>97 337</b>	<b>100.00%</b>

135. The Division of Hasluck has contributed the highest number of electors to the new Division of Burt with substantial consequential elector movements required. More than one third of the Division of Hasluck's existing electors are transferred from the Gosnells LGA into the Division of Burt, utilising the Canning River as a strong border between the two divisions.
136. The Roe Hwy is utilised as a strong boundary with the transfer of the locality of High Wycombe, the remainder of Perth Airport and that portion of Forrestfield west of the Roe Hwy to the Division of Swan. The localities of Orange Grove and Martin are transferred to the Division of Canning. The locality of Middle Swan continues to be split between the Divisions of Hasluck and Pearce with a small portion (containing four electors) of the boundary altered from the minor Jane Brook waterway to Roe Hwy resulting in a stronger, more identifiable electoral boundary.
137. In order for this division to fall within numerical parameters, the remainder of the Mundaring LGA is transferred from the Division of Pearce to the Division of Hasluck, reuniting that LGA within the one division. The localities of Bickley, Hacketts Gully, Paulls Valley, Piesse Brook and Reservoir are transferred from the Division of Pearce to the Division of Hasluck. The localities of Walliston and Lesmurdie are reunited with those portions currently in the Division of Pearce transferring to the Division of Hasluck. Utilising Toodyay Rd as a strong boundary the localities of Jane Brook, Stratton, Midvale and the Red Hill portion south of Toodyay Rd are moved from the Division of Pearce. The split of the Gosnells LGA is confined to three divisions with the locality of Beckenham moved into the Division of Hasluck from the Division of Swan.
138. The proposed Division of Hasluck consists of a mix of urban and semi-rural areas. The boundaries are primarily constructed from LGA and locality boundaries, major rivers and main roads, with whole LGAs and localities placed within the one division where possible.
139. The proposed Division of Hasluck has a projected enrolment of 97 337 which is a variation from the average projected enrolment of minus 2.36 per cent.

## Moore

140. The proposed Division of Moore is surrounded by the Divisions of Cowan, Pearce and Stirling – [Figure K](#) refers.

Figure K: Proposed Division of Moore

141. Projected enrolment in the existing Division of Moore is 105 638. This division requires a net reduction of between 2 463 and 9 441 electors in order to fit within the required numerical parameters.
142. The Committee proposes that the following electors are transferred out of the existing division:

Existing division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
<b>Total for existing Division of Moore</b>	<b>99 748</b>	<b>100.00%</b>	<b>105 638</b>	<b>100.00%</b>
Number of electors moved to Pearce	(17 399)	(17.44%)	(19 008)	(17.99%)
Number of electors remaining in the division	82 349	82.56%	86 630	82.01%

143. The Committee proposes that the Division of Moore gains electors from the following existing divisions:

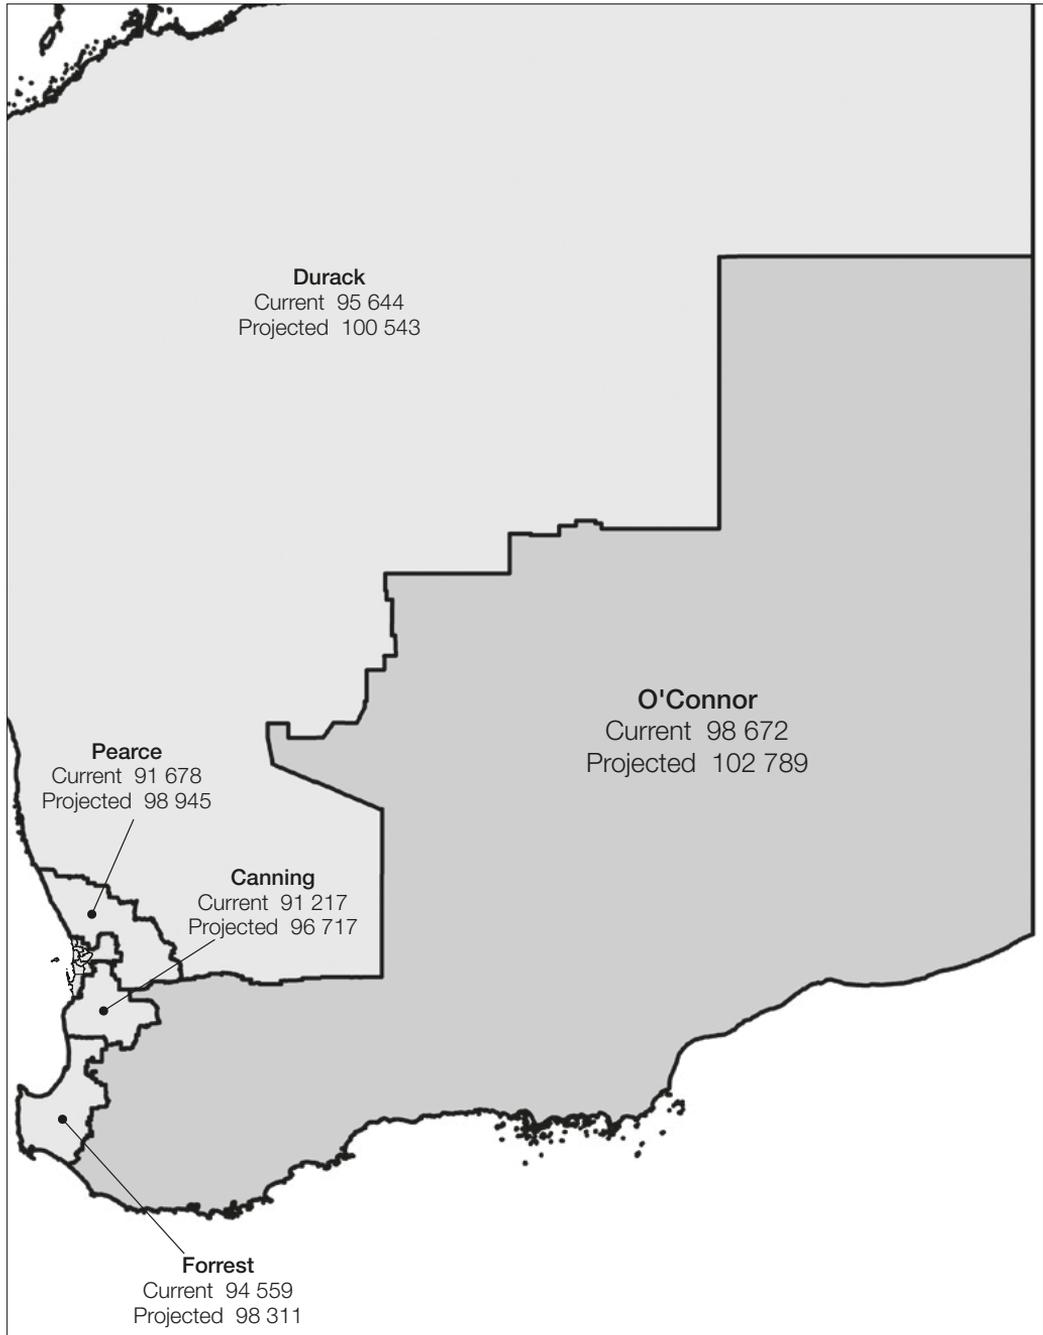

Proposed division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
Number of electors remaining in the division	82 349	83.89%	86 630	84.14%
Number of electors moved from Cowan	15 809	16.11%	16 328	15.86%
<b>Total for proposed Division of Moore</b>	<b>98 158</b>	<b>100.00%</b>	<b>102 958</b>	<b>100.00%</b>

144. The Division of Moore is impacted by consequential changes flowing from the creation of the new division.
145. The localities of Woodvale and the western portion of Kingsley are transferred from the Division of Cowan. The locality of Kingsley is split along Goollelal Dr, dividing the suburb at Lake Goollelal.
146. The localities of Carramar, Clarkson, Mindarie, Neerabup, Tamala Park and the remainder of Banksia Grove are transferred to the Division of Pearce, thereby reuniting the split suburb of Banksia Grove into one division.
147. The Division of Moore's proposed boundaries are primarily constructed from the Indian Ocean, the Joondalup LGA borders and some locality boundaries, with whole localities located within the one division where possible.
148. The proposed Division of Moore has a projected enrolment of 102 958 which is a variation from the average projected enrolment of plus 3.28 per cent.

## O'Connor

149. The proposed Division of O'Connor is surrounded by the Divisions of Canning, Durack, Forrest and Pearce – Figure L refers.

Figure L: Proposed Division of O'Connor

150. Projected enrolment in the existing Division of O'Connor is 99 748. This division can therefore transfer up to 3 551 electors to other divisions, or gain up to 3 427 electors from other divisions, and remain within the required numerical parameters.

151. The Committee proposes that the following electors are transferred out of the existing division:

Existing division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
<b>Total for existing Division of O'Connor</b>	<b>95 704</b>	<b>100.00%</b>	<b>99 748</b>	<b>100.00%</b>
Number of electors moved to Canning	(334)	(0.35%)	(334)	(0.33%)
Number of electors moved to Durack	(2 839)	(2.97%)	(2 997)	(3.00%)
Number of electors remaining in the division	92 531	96.68%	96 417	96.66%

152. The Committee proposes that the Division of O'Connor gains electors from the following existing divisions:

Proposed division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
Number of electors remaining in the division	92 531	93.78%	96 417	93.80%
Number of electors moved from Forrest	6 141	6.22%	6 372	6.20%
<b>Total for proposed Division of O'Connor</b>	<b>98 672</b>	<b>100.00%</b>	<b>102 789</b>	<b>100.00%</b>

153. The existing Division of O'Connor is within numerical parameters and does not technically require any alterations to its boundaries. However, modifications have been made to accommodate changes required for the Division of Forrest.

154. The Collie LGA is transferred from the Division of Forrest. This splits the Collie LGA from its community of interest with the other LGAs in the Bunbury-Wellington sub-region at the same time as retaining its unity with other LGAs that form the South West Region in the Division of O'Connor.

155. The LGAs of Bruce Rock, Narembeen, Quairading, Westonia and Yilgarn are transferred to the Division of Durack, thereby reuniting community of interests with the LGAs now joined with their sub regions within the Wheatbelt region into the one division. To ensure the Division of Canning meets numerical parameters, the rural LGA of Wandering is transferred from the Division of O'Connor.

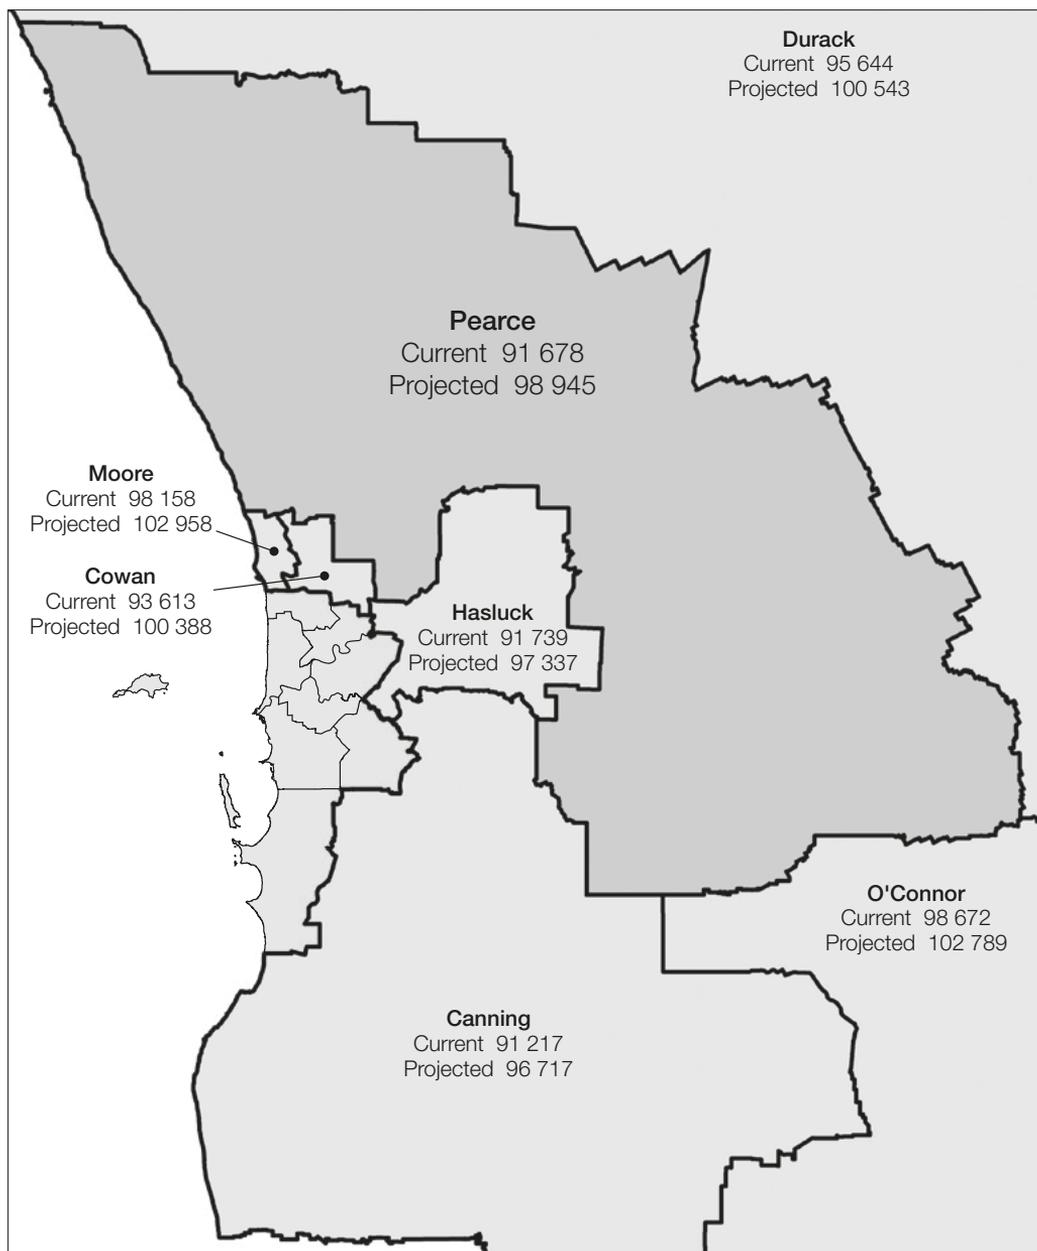

156. The proposed Division of O'Connor is constructed from whole LGAs utilising the Southern Ocean and LGA borders as its boundaries.

157. The proposed Division of O'Connor has a projected enrolment of 102 789 which is a variation from the average projected enrolment of plus 3.11 per cent.

## Pearce

158. The proposed Division of Pearce is surrounded by the Divisions of Canning, Cowan, Durack, Hasluck, Moore, and O'Connor – [Figure M](#) refers.

Figure M: Proposed Division of Pearce

159. Projected enrolment in the existing Division of Pearce is 115 583. This division requires a net reduction of between 12 408 and 19 386 electors in order to fit within the required numerical parameters.

160. The Committee proposes that the following electors are transferred out of the existing division:

Existing division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
<b>Total for existing Division of Pearce</b>	<b>107 896</b>	<b>100.00%</b>	<b>115 583</b>	<b>100.00%</b>
Number of electors moved to Canning	(764)	(0.71%)	(794)	(0.69%)
Number of electors moved to Cowan	(3 082)	(2.86%)	(3 387)	(2.93%)
Number of electors moved to Hasluck	(31 809)	(29.48%)	(33 801)	(29.24%)
Number of electors remaining in the division	72 241	66.95%	77 601	67.14%

161. The Committee proposes that the Division of Pearce gains electors from the following existing divisions:

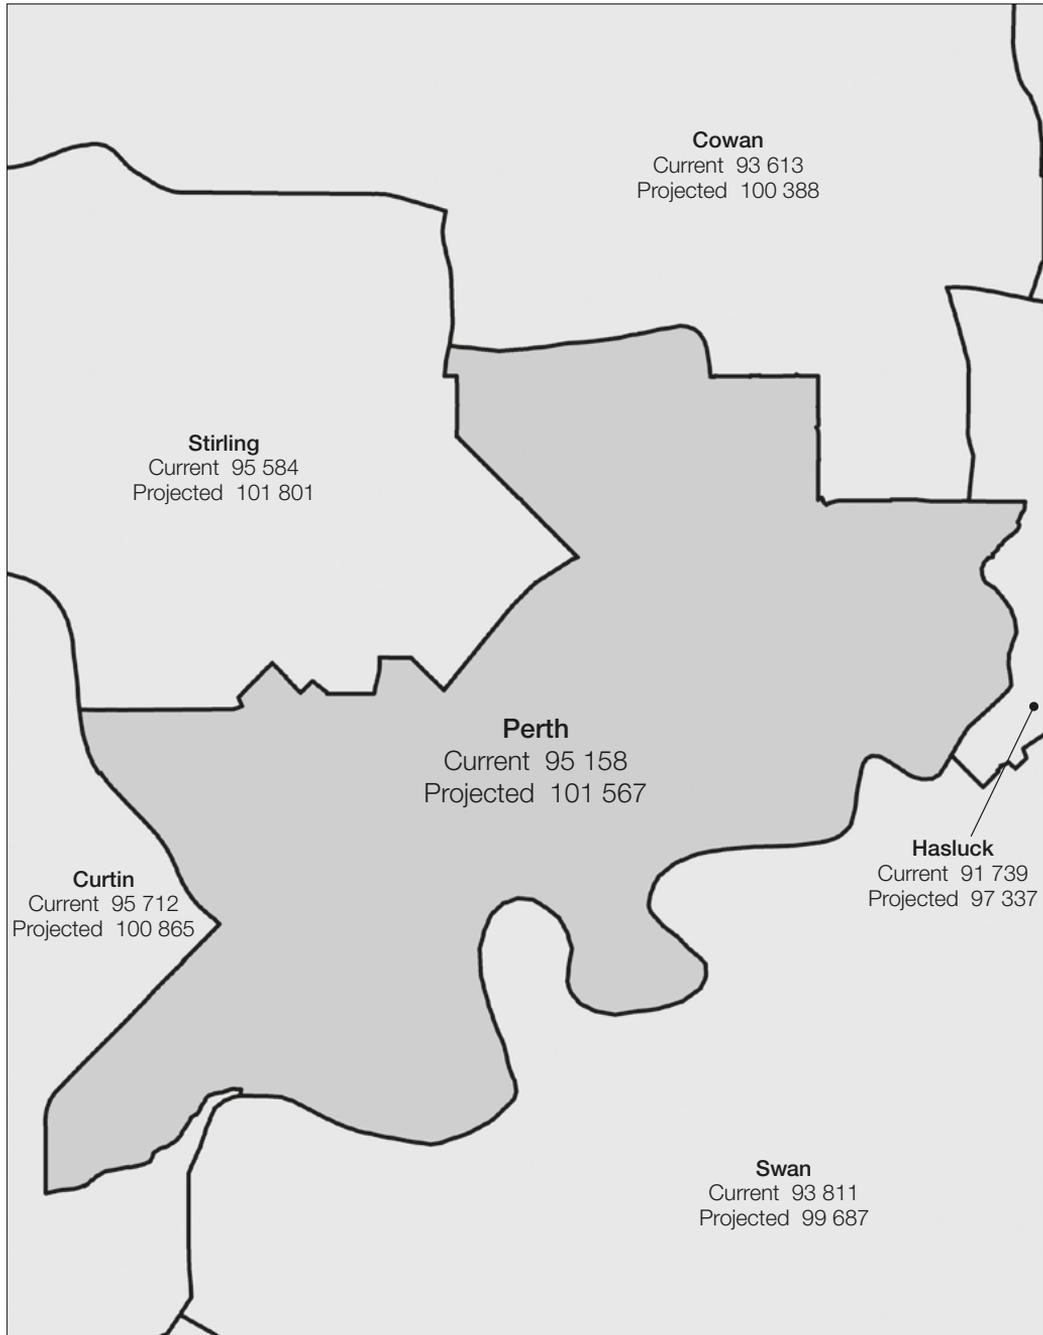

Proposed division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
Number of electors remaining in the division	72 241	78.80%	77 601	78.43%
Number of electors moved from Cowan	2 034	2.22%	2 332	2.36%
Number of electors moved from Hasluck	4	0.00%	4	0.00%
Number of electors moved from Moore	17 399	18.98%	19 008	19.21%
<b>Total for proposed Division of Pearce</b>	<b>91 678</b>	<b>100.00%</b>	<b>98 945</b>	<b>100.00%</b>

162. The existing Division of Pearce has the highest projected growth of all divisions and therefore must contribute the highest number of electors to other divisions. The Division of Pearce is also impacted by its neighbouring Division of Hasluck contributing the highest number of electors to the creation of the new Division of Burt. This has resulted in substantial movement of electors in the Division of Pearce.
163. The remainder of the Mundaring LGA is transferred to the Division of Hasluck, thereby reuniting the LGA within the one division. The remainder of the Kalamunda LGA, comprising of the localities of Bickley, Hacketts Gully, Paulls Valley, Piesse Brook and Reservoir are transferred to the Division of Hasluck. The localities of Carmel, Canning Mills and Pickering Brook are transferred to the Division of Canning. Those parts of the localities of Walliston and Lesmurdie that are currently contained within the Division of Pearce are transferred to the Division of Hasluck, thereby reuniting those localities within one division. Utilising Toodyay Rd as a strong boundary, the localities of Jane Brook, Stratton, and the Red Hill portion south of Toodyay Rd are transferred to the Division of Hasluck. The localities of Whiteman and Bennett Springs are transferred to the Division of Cowan.
164. The localities of Carramar, Clarkson, Mindarie, Neerabup and Tamala Park are transferred from the Division of Moore. The locality of Mariginiup is transferred from the Division of Cowan and the locality of Banksia Grove is transferred from both the Division of Cowan and the Division of Moore, thereby reuniting the split suburb of Banksia Grove into one division. The locality of Middle Swan continues to be split between the Division of Hasluck and the Division of Pearce with a small portion of the boundary (containing four electors) altered from the minor Jane Brook waterway to Roe Hwy resulting in a stronger more identifiable electoral boundary.
165. The Division of Pearce's proposed boundaries are constructed from the Indian Ocean, main roads, and LGA and locality boundaries, with whole LGAs and localities contained within the one division where possible.
166. The proposed Division of Pearce has a projected enrolment of 98 945 which is a variation from the average projected enrolment of minus 0.74 per cent.

## Perth

167. The proposed Division of Perth is surrounded by the Divisions of Cowan, Curtin, Hasluck, Stirling and Swan – Figure N refers.

Figure N: Proposed Division of Perth

168. Projected enrolment in the existing Division of Perth is 104 840. This division requires a net reduction of between 1 665 and 8 643 electors in order to fit within the required numerical parameters.
169. The Committee proposes that the following electors are transferred out of the existing division:

Existing division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
<b>Total for existing Division of Perth</b>	<b>98 113</b>	<b>100.00%</b>	<b>104 840</b>	<b>100.00%</b>
Number of electors moved to Cowan	(9 629)	(9.81%)	(10 357)	(9.88%)
Number of electors moved to Stirling	(8 735)	(8.90%)	(9 278)	(8.85%)
Number of electors remaining in the division	79 749	81.28%	85 205	81.27%

170. The Committee proposes that the Division of Perth gains electors from the following existing divisions:

Proposed division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
Number of electors remaining in the division	79 749	83.81%	85 205	83.89%
Number of electors moved from Curtin	12 637	13.28%	13 503	13.29%
Number of electors moved from Stirling	2 772	2.91%	2 859	2.81%
<b>Total for proposed Division of Perth</b>	<b>95 158</b>	<b>100.00%</b>	<b>101 567</b>	<b>100.00%</b>

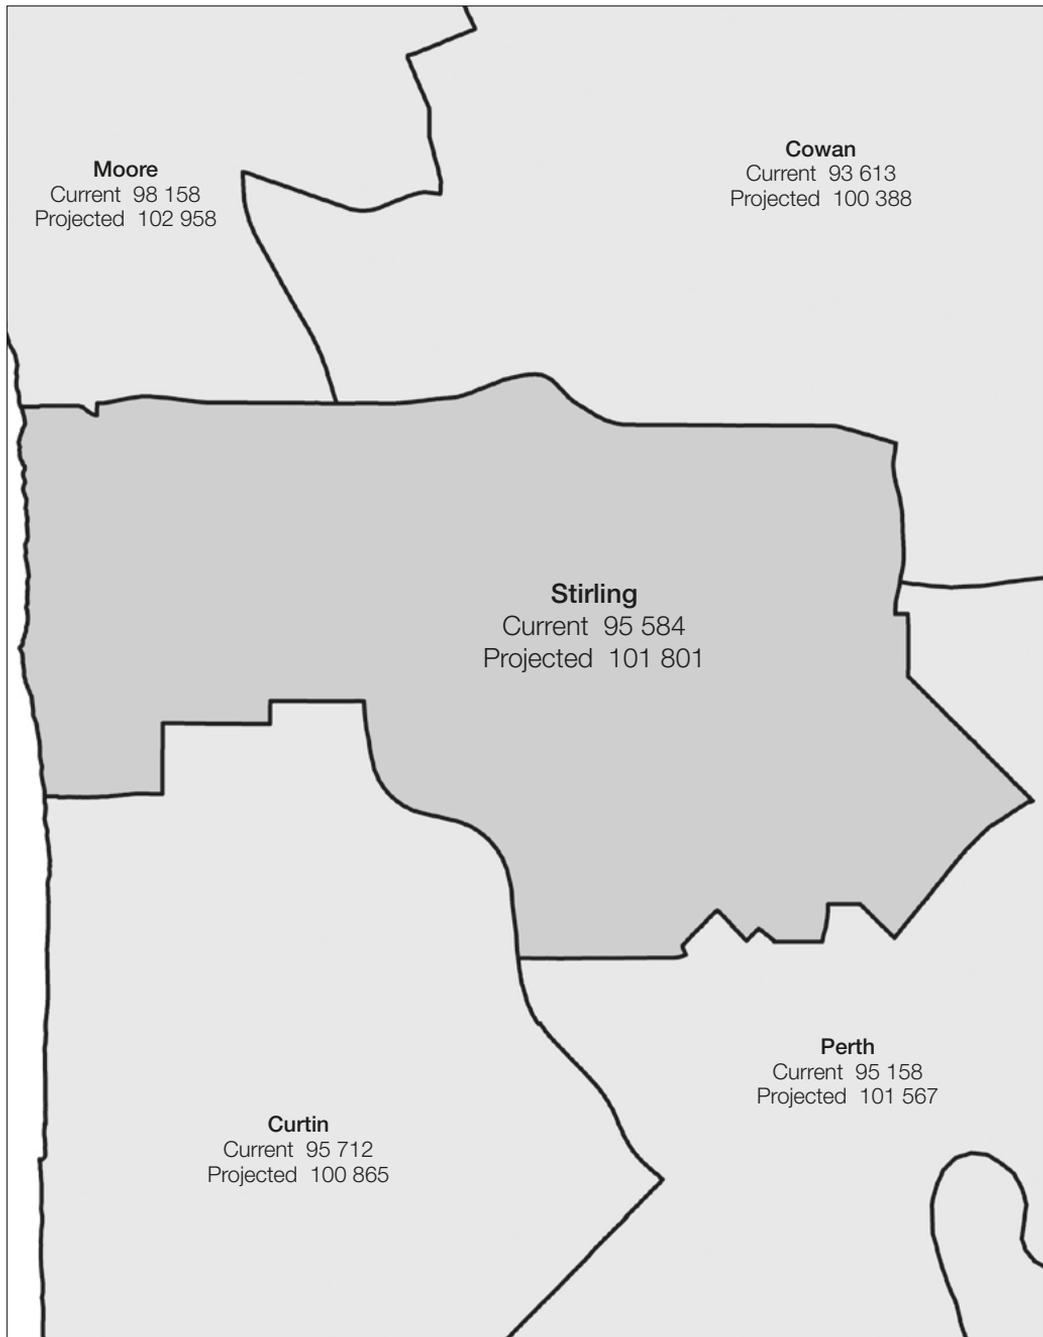

171. The localities of Beechboro, Kiara and Lockridge are transferred to the Division of Cowan. The locality of Dianella is reunited in one division with the Division of Perth portion transferred to the Division of Stirling. A small portion of the locality of Morley bound by Wellington Rd and Walter Rd West is transferred to the Division of Stirling because those roads provide a stronger and more identifiable boundary than the Dianella locality boundary.
172. The remainder of the Vincent LGA and the greater majority of Perth LGA are transferred to the Division of Perth from the Division of Curtin, thereby reuniting those LGAs within one division. The localities of West Perth and King's Park are transferred from the Division of Curtin. The small portion of the Perth LGA that lies south of Mounts Bay Rd remains in the Division of Curtin as Mounts Bay Rd forms a stronger, more identifiable electoral boundary. The locality of Coolbinia and the remainder of Menora are transferred from the Division of Stirling, which reunites Menora into one division.
173. The Division of Perth's proposed boundaries are constructed using the Swan River, main roads, LGA and locality boundaries, with whole LGAs and localities contained within the one division where possible.
174. The Committee noted an existing proposal to adjust the boundaries of the City of Perth that may impact the deliberations of future Committees when assessing community of interests matters for this administrative area.<sup>10</sup>
175. The proposed Division of Perth has a projected enrolment of 101 567 which is a variation from the average projected enrolment of plus 1.89 per cent.

<sup>10</sup> City of Perth Bill 2015 (WA): [www.parliament.wa.gov.au](http://www.parliament.wa.gov.au)

## Stirling

176. The proposed Division of Stirling is surrounded by the Divisions of Cowan, Curtin, Moore and Perth – Figure O refers.

Figure O: Proposed Division of Stirling

177. Projected enrolment in the existing Division of Stirling is 105 461. This division requires a net reduction of between 2 286 and 9 264 electors in order to fit within the required numerical parameters.

178. The Committee proposes that the following electors are transferred out of the existing division:

Existing division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
<b>Total for existing Division of Stirling</b>	<b>99 079</b>	<b>100.00%</b>	<b>105 461</b>	<b>100.00%</b>
Number of electors moved to Curtin	(9 458)	(9.55%)	(10 079)	(9.56%)
Number of electors moved to Perth	(2 772)	(2.80%)	(2 859)	(2.71%)
Number of electors remaining in the division	86 849	87.66%	92 523	87.73%

179. The Committee proposes that the Division of Stirling gains electors from the following existing divisions:

Proposed division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
Number of electors remaining in the division	86 849	90.86%	92 523	90.89%
Number of electors moved from Perth	8 735	9.14%	9 278	9.11%
<b>Total for proposed Division of Stirling</b>	<b>95 584</b>	<b>100.00%</b>	<b>101 801</b>	<b>100.00%</b>

180. The locality of Dianella is reunited in one division with the Division of Perth portion transferring to the Division of Stirling. A small portion of the locality of Morley bound by Wellington Rd and Walter Rd West is transferred from the Division of Perth as those roads form a stronger and more identifiable electoral boundary.

181. The split localities of Doubleview and Innaloo are transferred to the Division of Curtin, reuniting those localities within one division. The localities of Osborne Park and Scarborough remain split between the Division of Stirling and the Division of Curtin. Osborne Park is divided by the Mitchell Fwy with the portion east of the freeway remaining in the Division of Stirling. The additional portion of Scarborough locality that is east of Duke St to the Doubleview locality border is transferred to the Division of Curtin.

182. The locality of Coolbinia and the remainder of Menora are transferred to the Division of Perth; this move reunites Menora into one division.

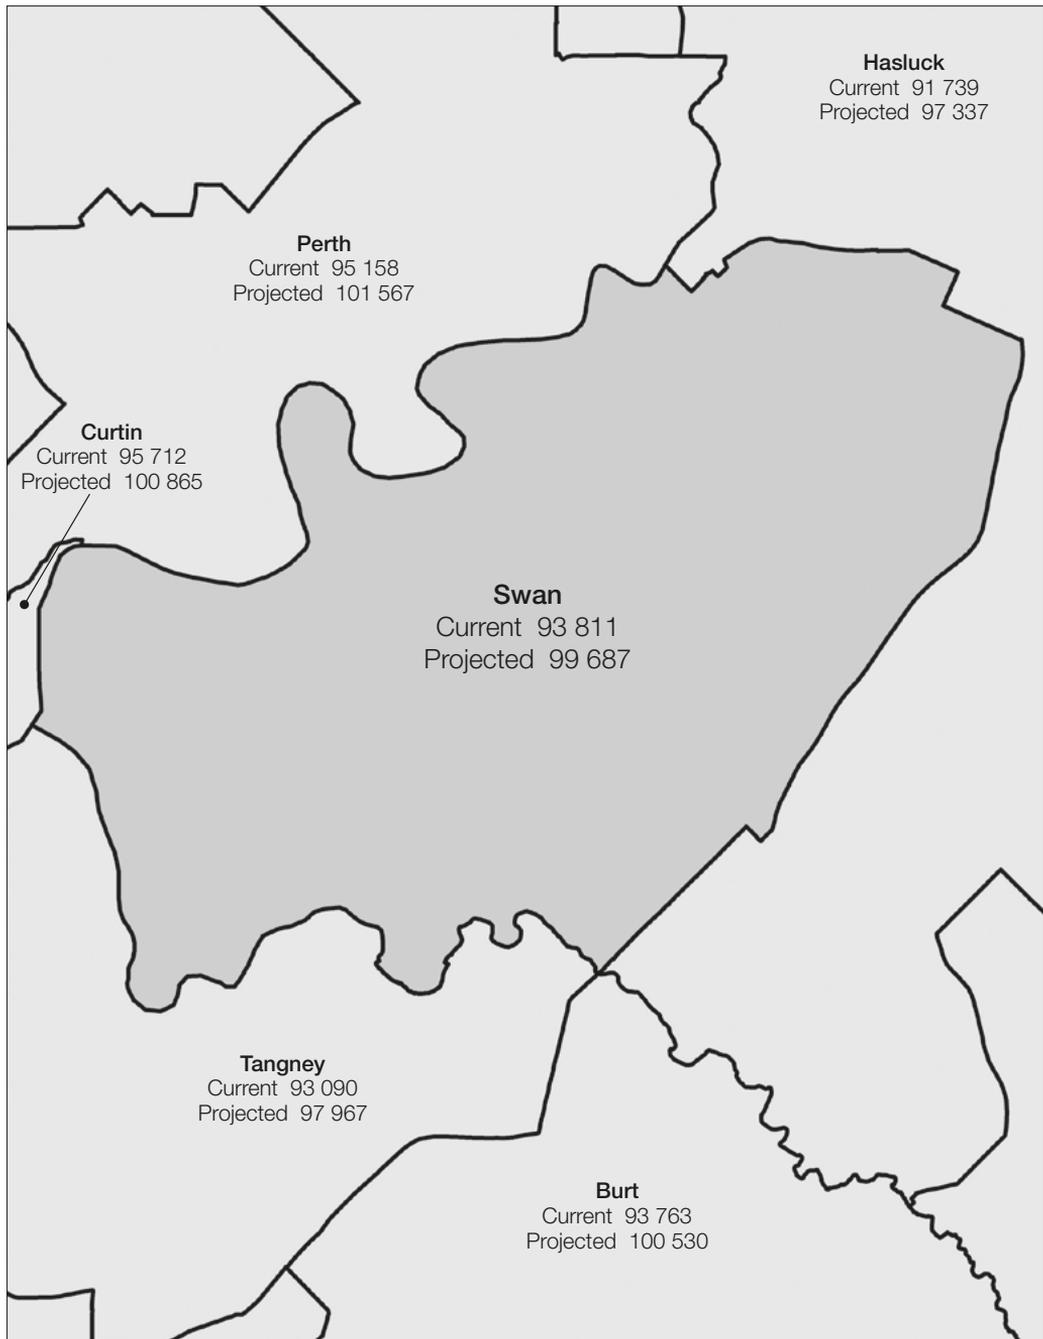

183. The Division of Stirling's proposed boundaries are constructed using the Indian Ocean, main roads, LGA and locality boundaries, with whole LGAs and localities located within the one division where possible.

184. The proposed Division of Stirling has a projected enrolment of 101 801 which is a variation from the average projected enrolment of plus 2.12 per cent.

## Swan

185. The proposed Division of Swan is surrounded by the Divisions of Burt, Curtin, Hasluck, Perth and Tangney – [Figure P](#) refers.

Figure P: Proposed Division of Swan

186. Projected enrolment in the existing Division of Swan is 104 453. This division requires a net reduction of between 1 278 and 8 256 electors in order to fit within the required numerical parameters.

187. The Committee proposes that the following electors are transferred out of the existing division:

Existing division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
<b>Total for existing Division of Swan</b>	<b>98 298</b>	<b>100.00%</b>	<b>104 453</b>	<b>100.00%</b>
Number of electors moved to Burt	(3 166)	(3.22%)	(3 411)	(3.27%)
Number of electors moved to Hasluck	(3 993)	(4.06%)	(4 293)	(4.11%)
Number of electors moved to Tangney	(5 234)	(5.32%)	(5 528)	(5.29%)
Number of electors remaining in the division	85 905	87.39%	91 221	87.33%

188. The Committee proposes that the Division of Swan gains electors from the following existing divisions:

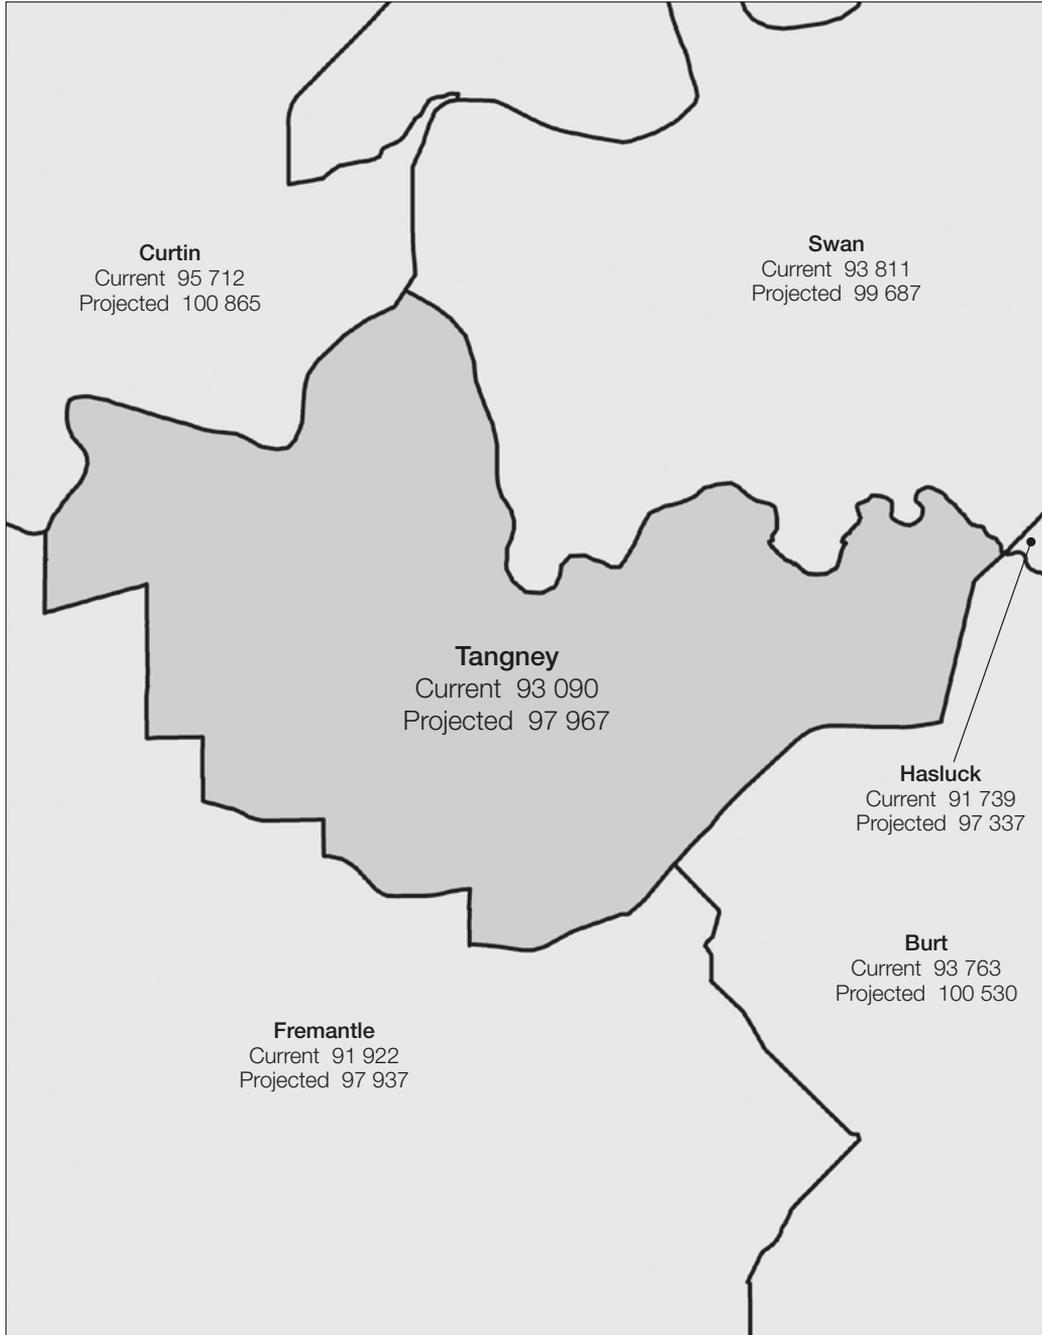

Proposed division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
Number of electors remaining in the division	85 905	91.57%	91 221	91.51%
Number of electors moved from Hasluck	7 906	8.43%	8 466	8.49%
<b>Total for proposed Division of Swan</b>	<b>93 811</b>	<b>100.00%</b>	<b>99 687</b>	<b>100.00%</b>

189. Utilising the Canning River as a strong boundary, the locality of Beckenham is transferred to the Division of Hasluck; Langford is transferred to the Division of Burt and Ferndale, Lynwood and the remainder of Riverton are transferred to the Division of Tangney.
190. The Roe Hwy is utilised as a strong boundary with the transfer of the locality of High Wycombe, the remainder of Perth Airport and the portion of Forrestfield west of the highway from the Division of Hasluck.
191. The proposed Division of Swan's boundaries are constructed using the Swan and Canning Rivers, main roads, LGA and locality boundaries, with whole LGAs and localities located within the one division where possible.
192. The proposed Division of Swan has a projected enrolment of 99 687 which is a variation from the average projected enrolment of 0.00 per cent.

## Tangney

193. The proposed Division of Tangney is surrounded by the Divisions of Burt, Curtin, Fremantle, Hasluck and Swan – Figure Q refers.

Figure Q: Proposed Division of Tangney

194. Projected enrolment in the existing Division of Tangney is 101 344. This division can therefore transfer up to 5 147 electors to other divisions, or gain up to 1 831 electors from other divisions, and remain within the required numerical parameters.

195. The Committee proposes that the following electors are transferred out of the existing division:

Existing division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
<b>Total for existing Division of Tangney</b>	<b>95 828</b>	<b>100.00%</b>	<b>101 344</b>	<b>100.00%</b>
Number of electors moved to Burt	(18 130)	(18.92%)	(19 747)	(19.49%)
Number of electors remaining in the division	77 698	81.08%	81 597	80.51%

196. The Committee proposes that the Division of Tangney gains electors from the following existing divisions:

Proposed division	Current enrolment as at 1 December 2014		Projected enrolment as at 8 February 2017	
	Number	Percentage	Number	Percentage
Number of electors remaining in the division	77 698	83.47%	81 597	83.29%
Number of electors moved from Fremantle	10 158	10.91%	10 842	11.07%
Number of electors moved from Swan	5 234	5.62%	5 528	5.64%
<b>Total for proposed Division of Tangney</b>	<b>93 090</b>	<b>100.00%</b>	<b>97 967</b>	<b>100.00%</b>

197. The Division of Tangney is within numerical parameters and therefore does not technically require any alterations to its boundaries. However, the division experiences moderate elector movement with the locality of Canning Vale transferred to form part of the new Division of Burt. This requires the transfer of electors from other existing divisions in order for the Division of Tangney to meet numerical requirements.

198. Utilising the Canning River as a strong boundary the localities of Ferndale, Lynwood and the remainder of Riverton are transferred from the Division of Swan. The localities of Bicton and Willagee are transferred from the Division of Fremantle. To ensure the division remains within numerical tolerances, the locality of Kardinya remains split between the Division of Fremantle and the Division of Tangney with the portion north of South St transferred from the Division of Fremantle. A small portion of the locality of Leeming, being Ken Hurst Park which lies south of the Roe Hwy, is transferred to the Division of Fremantle as the Roe Hwy forms a stronger and more identifiable electoral boundary.

199. The Division of Tangney's proposed boundaries are constructed using the Swan and Canning Rivers, main roads and locality boundaries, with whole localities situated within the one division where possible.

200. The proposed Division of Tangney has a projected enrolment of 97 967 which is a variation from the average projected enrolment of minus 1.72 per cent.

## Chapter 3

# What next?

This chapter outlines the legislative requirements that are to be met following the release of the proposed redistribution, through to the final determination of the names and boundaries of electoral divisions in Western Australia.

201. This report sets out the Committee's proposed boundaries and names of the federal electoral divisions for Western Australia, together with the Committee's reasons for this proposed redistribution. Interested individuals and organisations are able to consider this proposal and lodge objections prior to the finalisation of electoral boundaries and names by the augmented Electoral Commission.
202. The timetable for the remainder of this redistribution process is set out in [Appendix H](#).

### Invitation for objections

203. Written objections to any aspect of the proposed redistribution must be lodged with the Electoral Commission by 6pm (AWST) on Friday 18 September 2015. Any objections received after this time cannot be considered.

### Invitation to provide comments on objections

204. All objections received will be made available for public inspection from Monday 21 September 2015 on the AEC website and at the office of the Australian Electoral Officer for Western Australia.
205. Interested individuals and organisations can lodge written comments on the objections with the Electoral Commission up until 6pm (AWST) on Friday 2 October 2015. Comments received after this time cannot be considered.
206. All comments received will be made available for public inspection from Monday 5 October 2015 on the AEC website and at the office of the Australian Electoral Officer for Western Australia.

### Objections and comments on objections

207. Written objections and comments on objections are considered by the augmented Electoral Commission. The augmented Electoral Commission comprises of:
  - the three members of the Electoral Commission – the Chairperson, the Electoral Commissioner and a non-judicial member, currently the Australian Statistician, and
  - the three remaining members of the Committee.
208. As part of its considerations, the augmented Electoral Commission may hold an inquiry into any objection or comment on an objection.

## The second redistribution proposal

209. At the conclusion of its considerations, the augmented Electoral Commission will announce its own proposed redistribution. If the augmented Electoral Commission considers that this proposal is significantly different from the Committee's proposal, the augmented Electoral Commission will invite further objections. Advice will be provided should this prove necessary.

## Final determination of boundaries and names of divisions

210. The augmented Electoral Commission will make a final determination of boundaries and names of the electoral divisions for Western Australia by way of notice published in the Gazette on 19 January 2016.
211. Copies of the augmented Electoral Commission's determination and reasons for that determination, together with the work of the Committee, will be tabled in both Houses of Parliament. Once this has occurred, this material will be made available to the public via the AEC website.

## How to lodge an objection or comment on an objection

212. Objections and comments on objections may be lodged via the AEC website at [www.aec.gov.au/Electorates/Redistributions/2014/wa](http://www.aec.gov.au/Electorates/Redistributions/2014/wa). Objections and comments on objections can also be submitted in the following ways:
- by email to: [FedRedistribution-WA@aec.gov.au](mailto:FedRedistribution-WA@aec.gov.au)
  - in person during business hours to: The Electoral Commission, Level 13, 200 St Georges Terrace, Perth, WA, 6000
  - by mail to: The Electoral Commission, PO Box 7081, Cloisters Square PO, WA, 6850
  - by fax to: 08 6363 8016.

## Further information

213. A wide range of information is available online, including:
- further information about the federal redistribution process in Western Australia, including an indicative timetable and background information – [www.aec.gov.au/Electorates/Redistributions/2014/wa](http://www.aec.gov.au/Electorates/Redistributions/2014/wa)
  - information about current electoral divisions in Western Australia – [www.aec.gov.au/profiles](http://www.aec.gov.au/profiles)
  - guidelines for making a public submission – [www.aec.gov.au/Electorates/Redistributions](http://www.aec.gov.au/Electorates/Redistributions)
  - guidelines for naming federal electoral divisions – [www.aec.gov.au/Electorates/Redistributions](http://www.aec.gov.au/Electorates/Redistributions)
  - the legal requirements for a federal redistribution as outlined in Part IV of the Electoral Act – [www.comlaw.gov.au/Details/C2014C00616](http://www.comlaw.gov.au/Details/C2014C00616)
  - general information about the redistribution process – [www.aec.gov.au/Electorates/Redistributions](http://www.aec.gov.au/Electorates/Redistributions)

# Appendices

## Appendix A: Legislative compliance table

The following table demonstrates the Committee's compliance with the various redistribution provisions of the Electoral Act.

Section of the Electoral Act	Requirement	Compliance
s.59(2)(a)	Basis for conducting redistribution	Increased entitlement to members of the House of Representatives for Western Australia, from 15 to 16
s.59(1)	Direction to commence redistribution	Gazette notice published on 1 December 2014
s.63A(3) and (4)	Alteration of projection time for equality of enrolments	The projection time was altered to 8 February 2017 and notified by way of Gazette notice published on 1 December 2014
s.65	Determination of current enrolment quota by written instrument	The then acting Electoral Commissioner signed written instrument on 8 December 2014
s.64(1) and (2)	Invitation to make written suggestions and written comments on suggestions	Gazette notice published on Wednesday 11 March 2015 Notices published in <i>The Weekend West</i> and <i>The Weekend Australian</i> on 14 March 2015 Suggestions closed at 6pm (AWST) on Friday 10 April 2015 Comments on suggestions closed at 6pm (AWST) on Friday 24 April 2015
s.60(1)	Appointment of the Committee	Appointed in writing by the Electoral Commission by instrument dated 11 April 2015
s.64(3)	Suggestions made available for public perusal on the 5th Monday after publication of the Gazette notice	Suggestions were made available at the office of the Australian Electoral Officer for Western Australia and on the AEC website on Monday 13 April 2015 Comments were made publicly available on the AEC website on 28 April 2015
s.62	Proceedings at Committee meetings	Four Committee meetings were held, on 22 May and 5, 19 and 29 June 2015: <ul style="list-style-type: none"> <li>▪ the Electoral Commissioner formally chaired each meeting,</li> <li>▪ the four Committee members were present at each meeting, and</li> <li>▪ all questions were resolved unanimously.</li> </ul>
s.63	Sub-committees	No sub-committees were formed to assist the Committee

Section of the Electoral Act	Requirement	Compliance
s.64(4)	Consideration of all suggestions and comments on suggestions received by the statutory timeframe	The Committee considered, in detail, each of the 27 suggestions and 16 comments on suggestions received at its meeting on 22 May 2015
s.66(1)	Committee to make proposed redistribution	<p>This report provides the Committee's proposed redistribution of Western Australia into 16 electoral divisions</p> <p>All proposed divisions fall within the range of not less than 90 per cent and not more than 110 per cent of the current enrolment quota</p> <p>All proposed divisions fall within the range of not less than 96.5 per cent and not more than 103.5 per cent of average divisional enrolment at the projection time</p> <p>Community of interests, means of communication and travel, physical features and area, and the boundaries of existing divisions have been given due consideration by the Committee in making the proposed redistribution</p>
s.67	Reasons for the proposed redistribution are stated in writing	The Committee's reasons for the proposed redistribution are contained throughout this report
s.67A	Outline of proposed redistribution	No preliminary outline was released in relation to the proposed redistribution
s.68	Notice of proposed redistribution	Arrangements are in place for the required publications and notices to be made available as required

## Appendix B: Operation of statutory requirements for the making of a proposed redistribution

Section 66 of the Electoral Act requires the Committee, in making its proposed redistribution of Western Australia, to abide by the following requirements:

- the Committee must ensure that the number of electoral divisions that Western Australia is to be divided into, is equal to the number of members of the House of Representatives to be chosen in Western Australia at the next general election, and
- the Committee must abide by the following requirements contained in section 66 of the Electoral Act:

(3) *In making the proposed redistribution, the Redistribution Committee:*

(a) *shall, as far as practicable, endeavour to ensure that, if the State or Territory were redistributed in accordance with the proposed redistribution, the number of electors enrolled in each Electoral Division in the State or Territory would not, at the projection time determined under section 63A, be less than 96.5% or more than 103.5% of the average divisional enrolment of that State or Territory at that time; and*

(b) *subject to paragraph (a), shall give due consideration, in relation to each proposed Electoral Division, to:*

(i) *community of interests within the proposed Electoral Division, including economic, social and regional interests;*

(ii) *means of communication and travel within the proposed Electoral Division;*

(iv) *the physical features and area of the proposed Electoral Division; and*

(v) *the boundaries of existing Divisions in the State or Territory;*

*and subject thereto, the quota of electors for the State or Territory shall be the basis for the proposed redistribution, and the Redistribution Committee may adopt a margin of allowance, to be used whenever necessary, but in no case shall the quota be departed from to a greater extent than one-tenth more or one-tenth less.*

(3A) *When applying subsection (3), the Redistribution Committee must treat the matter in subparagraph (3)(b)(v) as subordinate to the matters in subparagraphs (3)(b)(i), (ii) and (iv).*

These statutory requirements are expressed in a hierarchical order.

The purpose of paragraph 3(a) is suggested by its history. It has undergone some transformation since the *Commonwealth Electoral Legislation Amendment Act 1983* stipulated that boundaries were to be drawn, as far as practicable, to achieve equal numbers of electors in each of a state's divisions three-and-a-half years after a redistribution. By 1984 'it was observed that the three-and-a-half year rule had in some areas forced the adoption, on purely numerical grounds, of boundaries which took little account of perceived community of interest'.<sup>11</sup> Therefore, in 1987, the rule was relaxed to permit a measure of tolerance to plus or minus two per cent from average projected enrolment. Subsequently, the JSCEM concluded that:

11 JSCEM's *Report on the Effectiveness and Appropriateness of the Redistribution Provisions of Parts III and IV of the Commonwealth Electoral Act 1918* (December 1995) paragraph 4.3

*the numerical criteria do not allow “due consideration”, in the words of the Act, to be given to the qualitative factors. Rather, the political parties and others attempting to frame electoral boundaries essentially find themselves engaged in a mathematical modelling exercise. In order to relax the enrolment requirements to that extent necessary to allow a realistic degree of flexibility the Committee recommends ... that subsections 66(3)(a) and 73(4)(a) of the Electoral Act be amended, so as to extend the variation from average divisional enrolment allowed three-and-a-half years after a redistribution from two to 3.5 percent.<sup>12</sup>*

The JSCEM also, in the same report, refers to its recommended amendment as one that ‘would maintain substantial restrictions on malapportionment [and] would allow other legitimate policy objectives to be more effectively met’.

Paragraph 3(a) follows this recommendation. The terms of the recommendation, and the discussion which preceded it, make clear the purpose of paragraph 3(a), as it now stands, and how it was intended to interact with the other criteria set out in the sub-paragraphs of paragraph (b), to which also ‘due consideration’ must be given. The Committee has considered the suggestions and comments and made its proposed redistribution on this basis.

In summary, the primary criteria are to:

- endeavour to ensure that the number of electors in the proposed divisions are within a range of 3.5 per cent below or above the average divisional enrolment at the projection time, and
- ensure that current enrolments are within the range between 90 per cent and 110 per cent of the current enrolment quota.

The secondary criteria to be considered by the Committee are community of interests, means of communication and travel, physical features and area of proposed divisions. The Committee also considers the boundaries of existing divisions; however the Electoral Act stipulates that this criterion is subordinate to all other secondary criteria.

<sup>12</sup> *ibid.* paragraph 4.11

## Appendix C: Public suggestions for the Western Australia federal redistribution

27 written suggestions were received.

No.	Submitted by
S1	Jeff Waddell

# Appendix F: Guidelines for naming federal electoral divisions

Determining the names of federal electoral divisions is part of the process of conducting a federal redistribution within a state or territory.

The criteria used by redistribution committees to propose the names of electoral divisions, and used by the augmented Electoral Commission to determine the names of electoral divisions, have previously been the subject of recommendations from the JSCEM. From these recommendations, a set of guidelines were developed as a point of reference only.

It should be noted that redistribution committees and the augmented Electoral Commission are in no way bound by the guidelines.

## **Naming after persons**

In the main, divisions should be named after deceased Australians who have rendered outstanding service to their country.

When new divisions are created, the names of former Prime Ministers should be considered.

## **Federation division names**

Every effort should be made to retain the names of original federation divisions.

## **Geographical names**

Locality or place names should generally be avoided, but in certain areas the use of geographical features may be appropriate (e.g. Perth).

## **Aboriginal names**

Aboriginal names should be used where appropriate and as far as possible existing Aboriginal divisional names should be retained.

## **Other criteria**

The names of federal divisions should not duplicate existing state districts.

Qualifying names may be used where appropriate (e.g. Melbourne Ports, Port Adelaide).

Names of divisions should not be changed or transferred to new areas without very strong reasons.

When two or more divisions are partially combined, as far as possible the name of the new division should be that of the old division which had the greatest number of electors within the new boundaries. However, where the socio-demographic nature of the division in question has changed significantly, this should override the numerical formula.

## Appendix G: Description of the method used to calculate the areas of electoral divisions

The AEC maintains the electoral roll on the basis of alignment to Statistical Area 1s (SA1s), and is able to provide statistical data on enrolments and projected enrolments at this level. Accordingly, in formulating its proposals, the Committee utilised Western Australia's 5 599 SA1s as its basic building blocks. The SA1s have defined boundaries and are of differing population, area sizes and shapes. In a small number of cases where the Committee considered that a particular SA1 boundary did not form a strong electoral boundary, the SA1 was split along a stronger boundary.

The indicative area of each proposed electoral division has been calculated by aggregating the area of:

- all land-based SA1s,
- any parts of land-based SA1s, and
- any lakes, ponds, rivers, creeks, wetlands or marshes not already included in land-based SA1s that are contained within the divisional boundary of each electoral division.

Areas are calculated on the Geocentric Datum of Australia (GDA94) spheroid using the AEC's Electoral Boundary Mapping System (EBMS), developed within the 'MapInfo Professional' software package.

The Committee used EBMS to model and assess various boundary options. This system was also made available for public use during the comments period, and will be made available during the objections period at the office of the Australian Electoral Officer for Western Australia in Perth.

## Appendix H: Timetable for the remainder of the redistribution process

Section of the Electoral Act	Requirement	Date
s.68(2)	Invitation to make written objections and written comments on objections	Gazette notice published on Friday 21 August 2015
s.68(2)(a)	Objections close at 6pm on the 4th Friday after publication of the Gazette notice	Written objections must be received by 6pm (AWST) on Friday 18 September 2015
s.69(2)	Objections made available for public perusal starting on the 5th Monday after publication of the Gazette notice	Objections will be made available at the office of the Australian Electoral Officer for Western Australia and on the AEC website on Monday 21 September 2015
s.68(2)(b)	Comments on objections close at 6pm on the 6th Friday after publication of the Gazette notice	Comments on objections must be received by 6pm (AWST) on Friday 2 October 2015
s.69(4)	Comments on objections made available for public perusal starting on the 7th Monday after publication of the Gazette notice	Comments on objections will be made available in the office of the Australian Electoral Officer for Western Australia and on the AEC website on Monday 5 October 2015
s.72(1) and (2)	Consideration of all objections and comments on objections received by the statutory timeframe	The augmented Electoral Commission will consider objections and comments on objections by no later than 1 December 2015
s.72(3)	Public inquiry/inquiries held (if required) into objections and comments on objections	To be determined
s.72(10)(b)	The augmented Electoral Commission announces its proposed redistribution	To be determined
s.72(12) and (13)	Further objection period – if required	To be determined
s.73(1)	Determination of names and boundaries of electoral divisions published in the Gazette	Tuesday 19 January 2016
s.75(2)	Redistribution report laid before both Houses of Parliament	To be determined
	Redistribution report and maps available to the public	To be determined

## Appendix I: Statistical summaries of proposed divisions

Previous redistribution reports have set out how each proposed division is constituted from existing divisions, arranged under Statistical Local Areas (SLAs) which broadly corresponded with LGAs.

The statistical summaries provided below are arranged under SA2s. Each SA2 is comprised of a grouping of SA1s, which form the base building blocks for the redistribution.

It is important to note that SA2s do not necessarily align to LGA boundaries. A description of how SA2s differ from SLAs is available on the ABS website.

### Brand

Proposed division make up	Current enrolment 1 December 2014	Projected enrolment 8 February 2017
Electors retained from the existing Division of Brand		
Anketell – Wandí	1 158	1 203
Baldivis	13 756	15 211
Bertram – Wellard (West)	5 464	6 051
Calista	4 466	4 774
Casuarina – Wellard (East)	1 021	1 078
Cooloongup	5 810	6 076
Hope Valley – Postans	62	62
Kwinana Industrial	15	15
Parmelia – Orelia	6 646	7 094
Port Kennedy	8 139	8 796
Rockingham	10 558	11 025
Rockingham Lakes	3	2
Safety Bay – Shoalwater	8 272	8 649
Singleton – Golden Bay – Secret Harbour	9 847	10 639
Waikiki	7 882	8 421
Warnbro	6 994	7 535
<b>Total electors retained from the existing Division of Brand</b>	<b>90 093</b>	<b>96 631</b>
<b>Total for proposed Division of Brand</b>	<b>90 093</b>	<b>96 631</b>
Electors transferred from the existing Division of Brand to another proposed electoral division		
Electors transferred to proposed Division of Canning		
Greenfields	(6 951)	(7 348)
Mandurah	(390)	(401)
Mandurah – North	(8 876)	(9 725)
<b>Total transferred to proposed Division of Canning</b>	<b>(16 217)</b>	<b>(17 474)</b>
<b>Total electors transferred from the existing Division of Brand to another proposed electoral division</b>	<b>(16 217)</b>	<b>(17 474)</b>

## Burt

Proposed division make up	Current enrolment 1 December 2014	Projected enrolment 8 February 2017
Electors transferred from another electoral division into the proposed Division of Burt		
Electors transferred from the existing Division of Canning		
Armadale – Wungong – Brookdale (part)	10 595	11 181
Camillo – Champion Lakes	3 499	3 738
Forrestdale – Harrisdale – Piara Waters	6 918	7 394
Kelmscott	6 841	7 330
Mount Nasura – Mount Richon – Bedforddale (part)	2 122	2 233
Seville Grove	5 637	6 239
