EMPLOYER COSTS FOR EMPLOYEE COMPENSATION – DECEMBER 2021

Employer costs for employee compensation for **civilian** workers averaged \$40.35 per hour worked in December 2021, the U.S. Bureau of Labor Statistics reported today. Wages and salaries cost employers \$27.83 and accounted for 69.0 percent of total costs, while benefits cost \$12.52 and accounted for the remaining 31.0 percent. (See chart 1 and table 1.)

Total employer compensation costs for **private industry** workers averaged \$38.07 per hour worked in December 2021. Wage and salary costs averaged \$26.86 and accounted for 70.5 percent of employer costs, while benefit costs were \$11.22 and accounted for 29.5 percent. (See chart 1 and tables 1 and 4.)

State and local government employer costs averaged \$54.96 per hour worked. Wages and salaries averaged \$34.09 per hour worked and represented 62.0 percent of total compensation costs, while benefit costs averaged \$20.87 and accounted for the remaining 38.0 percent. (See chart 1 and tables 1 and 3.)

Within total benefits, **supplemental pay** costs averaged \$1.21 per hour worked or 3.0 percent of total compensation for civilian workers, \$1.32 per hour worked (3.5 percent) for private industry workers, and \$0.52 per hour worked (0.9 percent) for workers in state and local government. (See chart 2 and table 1.)

Chart 1. Employer costs per employee hour worked, December 2021

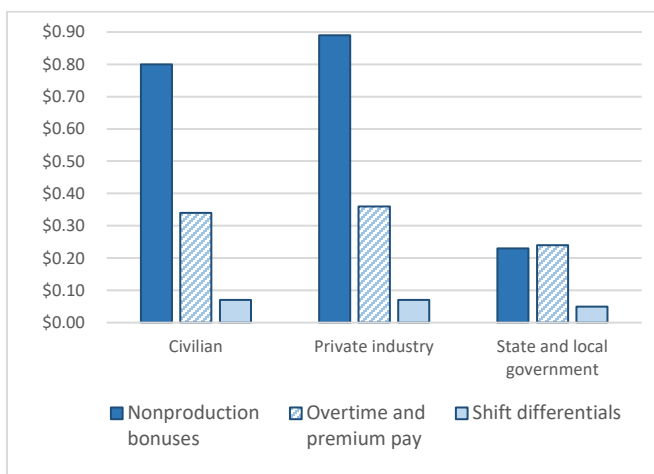

Chart 2. Supplemental pay costs per employee hour worked, December 2021

Supplemental pay includes employer costs for employee **shift differentials** (extra payments for working a non-traditional work schedule), **overtime and premium pay** (pay in addition to the regular work

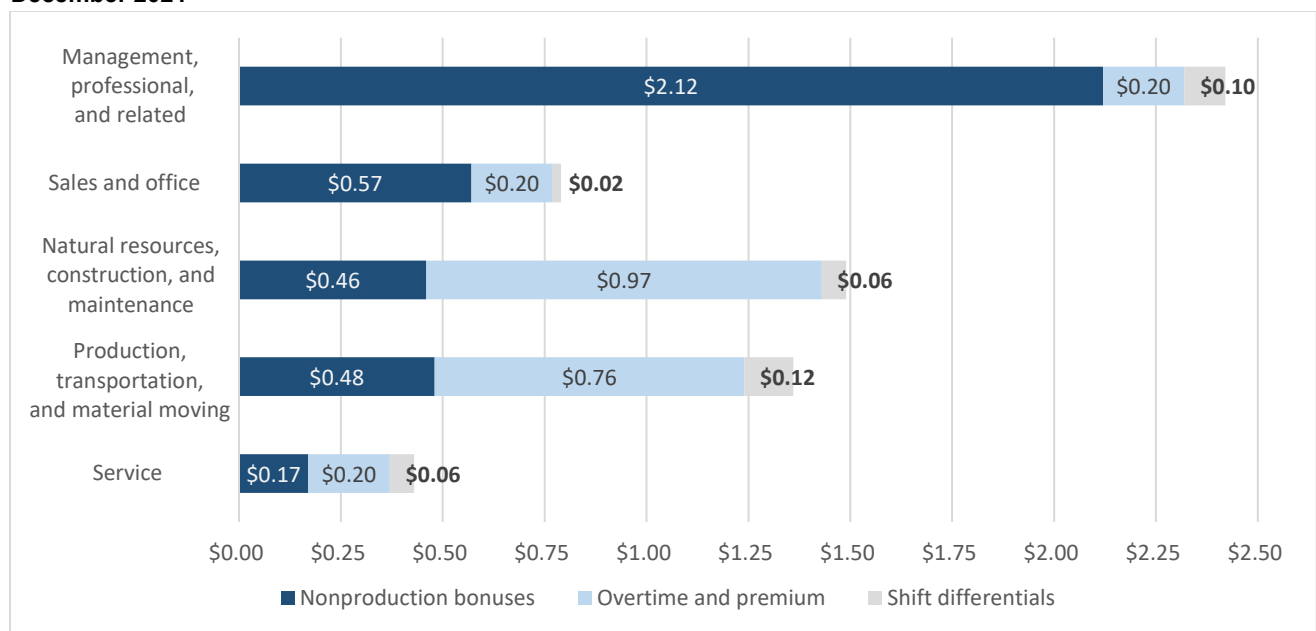

schedules, and pay for work on weekends and holidays), and **nonproduction bonuses** (such as holiday bonuses or end-of-year bonuses which are given at the discretion of the employer and are not tied to a production formula).

Supplemental pay costs in private industry

For private industry workers, nonproduction bonuses cost employers \$0.89 per employee hour worked or 2.3 percent of total compensation, overtime and premium pay cost \$0.36 per hour worked (0.9 percent), and shift differentials cost \$0.07 per hour worked (0.2 percent). (See chart 2 and table 1.)

Supplemental pay costs by **occupational group** ranged from \$0.43 per employee hour worked or 2.2 percent of total compensation for service occupations to \$2.41 (3.8 percent) for management, professional, and related occupations. (See chart 3 and table 4.)

Chart 3. Private industry supplemental pay component costs per employee hour worked by occupational group, December 2021

Nonproduction bonus costs ranged from \$0.17 per employee hour worked or 0.9 percent of total compensation for service occupations to \$2.12 (3.3 percent) for management, professional, and related occupations. **Overtime and premium pay** costs ranged from \$0.20 per employee hour worked or 0.7 percent of total compensation for sales and office occupations and \$0.20 (1.0 percent) for service occupations, to \$0.97 (2.4 percent) for natural resources, construction, and maintenance occupations. (See chart 3 and www.bls.gov/ncs/ect/data.htm.)

Supplemental pay costs varied by bargaining unit status. Supplemental pay costs for **union** workers were \$1.86 per hour worked or 3.6 percent of total compensation, while costs for **nonunion** workers were \$1.27 (3.4 percent). Overtime and premium costs were the largest component of supplemental pay costs for union workers at \$0.98 per hour worked, while for nonunion workers the largest component was nonproduction bonus costs at \$0.91. (See table 5 and www.bls.gov/ncs/ect/data.htm.)

Employer Costs for Employee Compensation for March 2022 is scheduled to be released on Thursday, June 16, 2022, at 10:00 a.m. (ET).

TECHNICAL NOTE

Employer Costs for Employee Compensation (ECEC), a product of the National Compensation Survey, provides the average employer cost for wages and salaries as well as benefits per hour worked. The ECEC covers the civilian economy, which includes data from both private industry and state and local government. Excluded from private industry are the self-employed, private household workers, and the agricultural sector. Federal government workers are excluded from the public sector.

Total benefit costs consist of five major categories and include 18 benefit costs:

- Paid leave - vacation, holiday, sick, and personal leave;
- Supplemental pay - overtime and premium, shift differentials, and nonproduction bonuses;
- Insurance - life, health, short-term and long-term disability;
- Retirement and savings - defined benefit and defined contribution; and
- Legally required benefits - Social Security (refers to Old-Age, Survivors, and Disability Insurance (OASDI) program), Medicare, federal and state unemployment insurance, and Workers' Compensation.

All workers are included in the benefit cost estimates including those that do not have plan access or do not participate. Costs are also affected by other factors such as cost sharing between employers and employees, plan features, and plan generosity. For the latest information on the percentage of workers with access to and participating in employer-sponsored benefit plans, including health care and retirement and savings plans, see www.bls.gov/ebs.

The National Compensation Measures provides additional details on the sample design, calculation methodology, and resources explaining changes over time, see www.bls.gov/opub/hom/ncs/home.htm.

Sample size: Data for this reference period were collected from a probability sample of approximately 30,100 occupational observations selected from a sample of about 7,500 private industry establishments and approximately 7,700 occupational observations selected from a sample of about 1,400 state and local government establishments that provided data at the initial interview. Beginning December 2021, an additional (fourth) private industry sample will be used in estimation to mitigate the impact of decreasing response rates.

Measures of reliability: Relative standard errors (RSEs) provide users a tool to ascertain the quality of an estimate to ensure that it is within an acceptable range for their intended purpose. RSEs are available at www.bls.gov/ncs/ect/ecec-rse.htm and database query tool at www.bls.gov/ncs/ect/data.htm.

Comparisons: Compensation cost levels in state and local government should not be directly compared with levels in private industry. Differences between these sectors stem from factors such as variation in work activities and occupational structures.

Classification systems: The National Compensation Survey publishes estimates of compensation costs and trends as well as benefit coverage by ownership, industry group, occupational group, and geographic areas, see www.bls.gov/ncs/national-compensation-survey-classification-systems-mapping-files.htm.

Additional information: Additional and historical ECEC estimates are available in the ECEC database query tool at www.bls.gov/ncs/ect/data.htm and in xlsx format at www.bls.gov/ncs/ect/tables.htm. The 2022 ECEC release schedule is available at www.bls.gov/schedule/news_release/ecec.htm. Subscribe to receive the BLS Economic News Release email at www.bls.gov/bls/list.htm.

Workers' compensation.....	0.47	1.2	0.45	1.2	0.57	1.0

¹ Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government.

² Includes costs for wages and salaries and benefits.

³ Includes premium pay for work (such as overtime, weekends, and holidays) in addition to the regular work schedule.

⁴ Social Security refers to the Old-Age, Survivors, and Disability Insurance (OASDI) program.

⁵ Cost per hour worked is \$0.01 or less.

⁶ Less than .05 percent.
