EMPLOYER COSTS FOR EMPLOYEE COMPENSATION – JUNE 2015

Private industry employers spent an average of \$31.39 per hour worked for employee compensation in June 2015, the U.S. Bureau of Labor Statistics reported today. Wages and salaries averaged \$21.82 per hour worked and accounted for 69.5 percent of these costs, while benefits averaged \$9.56 and accounted for the remaining 30.5 percent. Total compensation costs for **state and local government** workers averaged \$44.22 per hour worked in June 2015. Total compensation costs for **civilian** workers, which include private industry and state and local government workers, averaged \$33.19 per hour worked in June 2015.

Employer Costs for Employee Compensation (ECEC), a product of the National Compensation Survey, measures employer costs for wages, salaries, and employee benefits for nonfarm private and state and local government workers. Current employment weights are used to calculate ECEC cost levels, whereas fixed employment weights are used in the Employment Cost Index (ECI). For additional information on comparing changes in compensation measures see the Technical Note in this release.

Chart 1. Employer costs for employee compensation per hour worked: retirement and savings costs by major industry group, private industry, June 2015

Cost per hour worked

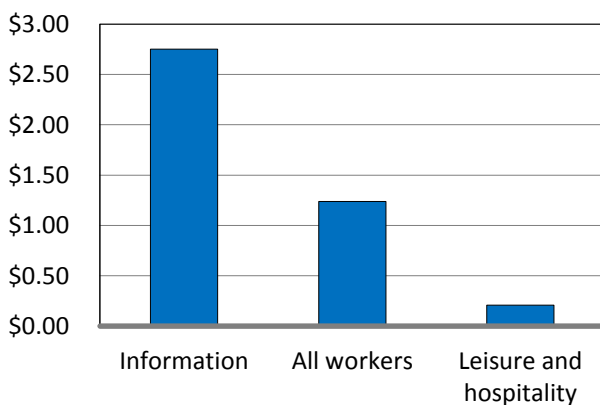

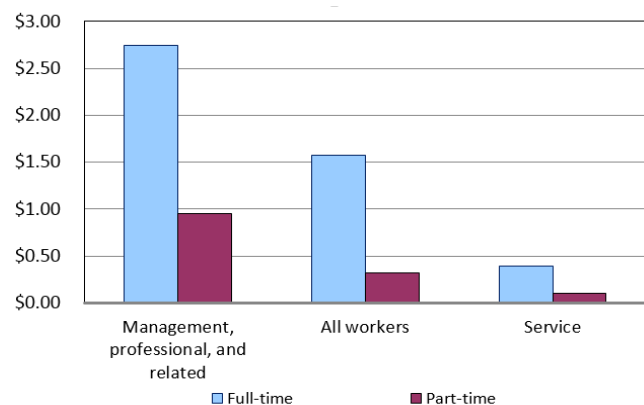

Chart 2. Employer costs for employee compensation per hour worked: retirement and savings costs by full-time and part-time status, private industry, June 2015

Cost per hour worked

Retirement and savings costs in private industry

In June 2015, average costs in **private industry** for **retirement and savings** benefits were \$1.24 per hour worked, or 4.0 percent of total compensation. The average cost per hour worked for **defined**

benefit plans—retirement plans that specify a benefit typically based on age, years of service, and earnings—was 55 cents or 1.8 percent of total compensation. The average cost for **defined contribution** plans—retirement plans usually based on employer contributions to individual employee accounts—was 69 cents or 2.2 percent of total compensation. (See table 5.)

Employer costs for retirement and savings plans are affected by several factors, including the percentage of employees that participate in the plans offered by their employer. (The National Compensation Survey produces comprehensive data on the percentage of workers with access to and that participate in retirement plans. Data for March 2015 are available at www.bls.gov/news.release/pdf/ebs2.pdf).

Retirement and savings costs varied widely by **major occupational group**. Costs for management, professional, and related workers were \$2.56 per hour worked (4.6 percent of total compensation), compared to \$1.94 for natural resources, construction, and maintenance workers (5.7 percent) and 24 cents for service workers (1.6 percent). (See table 5.)

Retirement and savings costs were higher both in amount and as a proportion of total compensation for **union workers** (\$4.05 and 8.7 percent of total compensation) than for **nonunion workers** (96 cents and 3.2 percent). Defined benefit plan costs were significantly higher for union workers (\$2.91 and 6.3 percent) than for nonunion workers (32 cents and 1.1 percent). (See table 5.)

Retirement and savings costs were higher per hour worked in **goods-producing industries** (\$2.04 and 5.5 percent of total compensation) than in **service-providing industries** (\$1.08 and 3.6 percent). Retirement and savings costs for all **major industry groups** ranged from \$2.75 in the information industry to 21 cents in leisure and hospitality. (See table 6 and chart 1.)

Retirement and savings costs increased both in cost per hour worked and proportion of total compensation with **establishment employment size**. Establishments with fewer than 100 workers averaged 72 cents (2.7 percent of total compensation), significantly less than establishments with 500 workers or more, averaging \$2.78 (6.0 percent). (See table 8.)

Employer retirement and savings benefit costs for **full-time workers** in private industry averaged \$1.57 per hour worked (4.3 percent of total compensation), significantly higher than 32 cents for **part-time workers** (2.0 percent). Retirement and savings costs for full-time workers in management, professional, and related occupations averaged \$2.78 per hour worked, compared with 95 cents for part-time workers. Employer retirement and savings benefits costs for service workers were significantly lower than all other occupational groups at 39 cents for full-time workers and 10 cents for part-time workers. (See chart 2 and table 11.)

Benefit costs in private industry

Private industry employer costs for **paid leave** averaged \$2.15 per hour worked or 6.9 percent of total compensation, **supplemental pay** averaged \$1.10 or 3.5 percent, **insurance** benefits averaged \$2.57 or 8.2 percent, and **legally required benefits** averaged \$2.50 per hour worked or 8.0 percent. (See table A and table 5.)

Table A. Relative importance of employer costs for employee compensation, June 2015

Compensation component	Civilian workers	Private industry	State and local government
Wages and salaries	68.5%	69.5%	63.8%
Benefits	31.5	30.5	36.2
Paid leave	6.9	6.9	7.3
Supplemental pay	3.0	3.5	0.8
Insurance	8.9	8.2	11.9
Health benefits	8.4	7.7	11.6
Retirement and savings	5.1	4.0	10.2
Defined benefit	3.2	1.8	9.4
Defined contribution	1.9	2.2	0.8
Legally required	7.6	8.0	5.9

The Employer Costs for Employee Compensation for September 2015 is scheduled to be released on Wednesday, December 9, 2015, at 10:00 a.m. (EST).

Employer Costs for Employee Compensation (ECEC) data on total compensation, wages and salaries, and benefits in private industry are produced annually for 15 metropolitan areas. Selected metropolitan area data were most recently included in the March 2015 news release published in June 2015. For further information about metropolitan area ECEC estimates see: “BLS Introduces New Employer Costs for Employee Compensation Data for Private Industry Workers in 15 Metropolitan Areas,” at www.bls.gov/opub/mlr/cwc/bls-introduces-new-employer-costs-for-employee-compensation-data-for-private-industry-workers-in-15-metropolitan-areas.pdf.

Supplemental tables with occupational, establishment size, and bargaining status series by industry group are available at www.bls.gov/ncs/ect/sp/ecsuphst.pdf and www.bls.gov/ncs/ect/sp/ecsuptc35.pdf.

Relative standard errors for all cost estimates in the most recent news release and in supplementary tables are available at www.bls.gov/ncs/ect/sp/ececrse.pdf and www.bls.gov/ncs/ect/sp/ecsprse.pdf.

Historical ECEC data are available in three listings at www.bls.gov/ect/#tables. The first historical listing covers data for the March reference periods from 1986 to 2001. These data use the Standard Industrial Classification (SIC) and Census of Population occupational classification systems. The second listing contains data for the March, June, September, and December reference periods from March 2002 to December 2003. These data are also based on the SIC and Census of Population occupational classification systems. The final listing includes data for March 2004 to the current reference period. These are based on the North American Industry Classification System (NAICS) and Standard Occupational Classification (SOC) systems.

Information in this release will be made available to sensory impaired individuals upon request—Telephone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

BLS news releases, including the ECEC, are available through an e-mail subscription service at: www.bls.gov/bls/list.htm.

TECHNICAL NOTE

Employer Costs for Employee Compensation (ECEC) measures the average cost to employers for wages and salaries and benefits per employee hour worked. ECEC includes the civilian economy, which includes data from both private industry and state and local government. Excluded from private industry are the self-employed and farm and private household workers. Federal government workers are excluded from the public sector. The private industry series and the state and local government series provide data for the two sectors separately.

Sample size

The ECEC cost levels for this quarter were collected from a probability sample of approximately 37,200 occupations selected from a sample of about 8,600 establishments in private industry and approximately 8,900 occupations from a sample of about 1,500 establishments in state and local government.

Comparing ECEC and Employment Cost Index (ECI) data

Current employment weights are used to calculate ECEC cost levels. The weights are derived from the Quarterly Census of Employment and Wages (QCEW) and the Current Employment Statistics (CES). The ECI, which measures the change in employer costs for employee compensation, is calculated with fixed 2012 employment counts to prevent employment shifts among occupations and industries from influencing the changes. Therefore, changes over time in the ECEC will likely differ from those in the ECI. For additional information, see www.bls.gov/opub/mlr/cwc/explaining-the-differential-growth-rates-of-the-eci-and-ecec.pdf.

Comparing private and public sector data

Compensation cost levels in state and local government should not be directly compared with levels in private industry. Differences between these sectors stem from factors such as variation in work activities and occupational structures. Manufacturing and sales, for example, make up a large part of private industry work activities but are rare in state and local government. Professional and administrative support occupations (including teachers) account for two-thirds of the state and local government workforce, compared with one-half of private industry.

ECEC quarterly publication focus

ECEC news releases are published quarterly, providing civilian, private industry, and state and local government cost per hour estimates as well as additional detail on a specific compensation cost topic of interest. This quarter focuses on retirement and savings costs in private industry. Topics of news releases for the upcoming reference periods are as follows:

- September 2015—Compensation costs in state and local government
- December 2015—Supplemental pay benefit costs in private industry

ECEC detailed information and measures

For detailed information on the Employer Costs for Employee Compensation, see Chapter 8, National Compensation Measures of the *BLS Handbook of Methods* at www.bls.gov/opub/hom/pdf/homch8.pdf.

Table 1. Employer costs per hour worked for employee compensation and costs as a percent of total compensation: Civilian workers, by major occupational and industry group, June 2015

¹ Includes workers in the private nonfarm economy excluding households and the public sector excluding the Federal government.

² Includes mining, construction, and manufacturing. The agriculture, forestry, farming, and hunting sector is excluded.

³ Includes utilities; wholesale trade; retail trade; transportation and warehousing; information; finance and insurance; real estate and rental and leasing; professional and technical services; management of companies and enterprises; administrative and waste services; educational services; health care and social assistance; arts, entertainment and recreation; accommodation and food services; other services, except public administration; and public administration.

⁴ Includes premium pay (such as overtime, weekends, and holidays) for work in addition to the regular work schedule.

⁵ Cost per hour worked is \$0.01 or less.

⁶ Less than .05 percent.

⁷ Social Security refers to the Old-Age, Survivors, and Disability Insurance (OASDI) program.

Note: The sum of individual items may not equal totals due to rounding.

Table 2. Employer costs per hour worked for employee compensation and costs as a percent of total compensation: Civilian workers, by occupational and industry group, June 2015

Series	Total compensation	Wages and salaries	Benefit costs

¹ Includes workers in the private nonfarm economy excluding households and the public sector excluding the Federal government.

² Includes postsecondary teachers; primary, secondary, and special education teachers; and other teachers and instructors.

³ Farming, fishing, and forestry occupations were combined with construction and extraction occupational group as of December 2006.

Note: The sum of individual items may not equal totals due to rounding.

Table 3. Employer costs per hour worked for employee compensation and costs as a percent of total compensation: State and local government workers, by major occupational and industry group, June 2015

Compensation component	Occupational group ¹								Industry group	
	All workers		Management, professional, and related		Sales and office		Service		Service-providing ²

¹ This table presents data for the three major occupational groups in State and local government: management, professional, and related occupations, including teachers; sales and office occupations, including clerical workers; and service occupations, including police and firefighters.

² Service-providing industries, which include health and educational services, employ a large part of the State and local government workforce.

³ Includes premium pay (such as overtime, weekends, and holidays) for work in addition to the regular work schedule.

⁴ Social Security refers to the Old-Age, Survivors, and Disability Insurance (OASDI) program.

⁵ Cost per hour worked is \$0.01 or less.

⁶ Less than .05 percent.

Note: The sum of individual items may not equal totals due to rounding.

Table 4. Employer costs per hour worked for employee compensation and costs as a percent of total compensation: State and local government workers, by occupational and industry group, June 2015

Series	Total compensation	Wages and salaries	Benefit costs					
			Total	Paid leave	Supplemental pay	Insurance	Retirement and savings	Legally required benefits
