

SCOTTISH CYCLING ANTI-DOPING

ANNUAL REPORT 2021

Clean Sport Education Strategy and Implementation Plan

2022 will see the introduction of our Scottish Cycling's anti-doping strategy. Our mission is to protect the integrity of our clean sport within Scottish Cycling.

Our Education Strategy aims to target key anti-doping topics, in line with UKAD's clean sport curriculum in conjunction with our sport specific needs. These topics will cover; principles and values of clean sport, strict liability, rights and responsibilities of athletes, coaches and athlete support personnel, consequence of doping, anti-doping rule violations, the prohibited list, supplements, medications & TUE's, the testing process, testing pools and ADAMS, how to report doping, substances of abuse.

Coaches and Athlete Support Personnel will have specific education opportunities specific to their role relating to anti-doping with the sport of cycling.

Scottish Cycling Board are committed to Clean Sport with a designated Board Member responsible for oversight of all Clean Sport matters. Scottish Cycling Board of Directors approved the sign of Scottish Cycling Clean Sport Strategy and Implementation Plan in Dec 2021.

Education

- 100% of all Scottish Cycling Performance Development Programme riders had received a Clean Sport refresher session (by 19/12/2021).
- All Players, Coaches and Athlete Support Personnel received information regarding the prohibited list changes for 2022.
- Scottish Cycling are committed to using sharing the most up to date Clean Sport messages via their social media channels.
- Scottish Cycling worked in partnership with key facility partners to reinforce key anti-doping messages in facilities that are key to athlete development.

Compliance

- Scottish Cycling Board of Directors have approved Scottish Cycling Clean Sport Strategy and Implementation Plan and have submitted to UKAD for review against UKAD Assurance Framework.
