# **CDC Prior Approvals for Non-research Awards**

Office of Financial Resources, Office of Grants Services

CDC anticipates that recipients may need to make post-award changes to budget and programmatic plans during the period of performance to accomplish award objectives. This guidance provides CDC recipients with an overview of prior approval requests for post-award changes, and also describes the documentation recipients must submit for these requests. Additionally, the document provides links to other prior approval resources and tools to assist recipients with prior approval request submissions in the GrantSolutions system.

## Types of Activities Requiring Prior Approval

When recipients propose certain types of budget and programmatic-related changes from pre-award plans, prior approval may be required. See below for a description of typical activities which require prior approval. Recipients should review their terms and conditions of the Notice of Award (NoA) for a full listing of activities that require CDC prior approval for their specific award.

#### • Budget Revision

- Significant rebudgeting occurs when cumulative redirections among direct cost budget categories deviate (increase or decrease) by more than the rebudgeting threshold identified in the NoA. Typically, the rebudgeting threshold for CDC awards is 25 percent of the total approved budget in the budget period.
- Budget revisions made by a recipient with a high-risk condition noted in the NoA these changes require a prior approval, regardless of amount.
- Implementation of a new activity or entering into a sub-award that is not specified in the approved budget.
- Change in indirect cost rate costs incurred by a recipient for common or joint objectives and cannot be identified specifically with a particular project or program.
- Changes related to cost sharing or matching occur in instances such as the addition of funding from a supplemental award, which results in CDC recalculating cost sharing or matching amounts.
- Transfer of substantive programmatic work required for a recipient to transfer substantive programmatic work to a subaward.
- Change in scope an activity whereby the objectives or specific aims identified in the approved application are significantly changed by the recipient after award.
- **Carryover of Funds** the process by which unobligated federal funds remaining at the end of a budget period may be carried forward to another budget period within the period of performance to cover allowable costs of that budget period (whether as an offset or additional authorization). Recipients with <u>expanded authority for carryover</u> do not require prior approval to use unobligated funds for approved activities/costs that fall within the scope and objectives of the project.
- **No-Cost Extension** a limited period of time beyond the end of the period of performance needed to complete project activities.
- Change of Principal Investigator (PI) or Other Key Personnel when key personnel specified on the NoA change.

## Submission

Recipients should submit prior approval requests at least **30 days** before the date of the proposed change to allow for an adequate and timely review, and to ensure continuity of projects. Additionally, recipients should submit requests at least **120 days** prior to the end of budget period, to ensure timely GMO approval. The requests must be submitted to the assigned Grants Management Specialist/Officer (GMS/GMO) through a prior approval amendment in GrantSolutions. Prior approval must be granted by the GMS/GMO before a recipient undertakes any of the activities

#### contained in their request.

To initiate an amendment requiring prior approval, requests for non-research awards should be submitted via the <u>GrantSolutions</u> amendment process by the Authorized Organizational Representative (AOR), identified as the Administrative Official (ADO) role in GrantSolutions. *If requests are submitted in GrantSolutions by the Principal Investigator/Project Director or Financial Official, recipients must include a cover letter on official letterhead signed by the AOR.* Prior approval requests submitted without official AOR system authorization/access, or AOR letter with signature, will be returned without processing.

If an AOR signed prior approval request cover letter is required, it should be on official letterhead and include the items below.

- Date
- Recipient name and award number
- Point of contact name, phone number, and email address
- A brief description of the request

If an amendment involves a budget worksheet (i.e., Budget Revision or Carryover) it should be submitted individually (not combined with other prior approval requests).

### **Required Documentation**

CDC requires recipients complete GrantSolutions online forms specific to the type of prior approval amendment. The GMS/GMO may also require recipients to upload additional supporting documentation in GrantSolutions. Recipients should submit the GrantSolutions information and the required supporting documentation in GrantSolutions at the same time. All requests (with AOR signature if request not submitted by AOR, as described above) must include a cover letter uploaded to GrantSolutions with a brief description of the request.

The most common prior approval amendments are listed in the table below, along with the required GrantSolutions online forms and additional supporting documentation required for approval. The third column provides links to additional resources, including job-aids which include step-by-step information for how to complete the online forms within GrantSolutions and upload additional required documentation. Recipients should review the documentation requirements below, and then use the job-aids as a reference when submitting their requests in GrantSolutions. Recipients are encouraged to contact the GMO/GMS of record on their most recent Notice of Award for specific questions concerning a prior approval request.

Prior Approval Amendment	Required GrantSolutions Forms and Supporting Documentation	Additional Resources
<b>Budget Revision</b> (see page 1, under the bullet "Budget Revision" for a list of typical, budget- related activities for this amendment). A budget revision only occurs for funds awarded in the current active budget period.	<ul> <li>Cover letter (with AOR signature if request not initiated by AOR) which includes:         <ul> <li>A brief description of the request; include a statement that the budget revision remains within the scope of the Notice of Funding Opportunity (NOFO). Provide justification for any change in scope of approved activities, if applicable.</li> <li>A budget narrative outlining proposed changes, following the <u>CDC Budget Preparation Guidance</u></li> <li>Summary table which displays columns for the Original Budget, Difference from Original Amount, and New Revised Budget Total</li> </ul> </li> <li>Indirect Cost Rate Agreement (if applicable)</li> <li>SF-424A Budget Information Non-Construction (recipient can complete within GrantSolutions or</li> </ul>	Please use the <u>Prior Approval</u> <u>Budget Revision Cover Letter</u> <u>Template</u> to draft the cover letter. If an award has more than one component, please use the <u>Prior Approval Budget Revision</u> <u>Cover Letter Template- Multi-</u> <u>component Awards</u> to draft the cover letter. For instructions on how to submit the request in <u>GrantSolutions</u> , go to Budget
