Various stakeholders, including media professionals, civil society members, lawyers, journalism and law students, attended the discussion. Kh.Naranjargal, Chair of the Board at GIC gave opening speech in which she highlighted issues of impunity and crucial role of a variety of actors playing to ensure the safety of journalists. Then T.Ayushjav, GIC Executive director, and B.Purevsuren, GIC Lawyer, presented on the topics "Safety of Journalists and International Standards" and "The Media Legal Environment concerning the Safety of Journalists in Mongolia" respectively. The discussion was streamed live on Facebook at

Online campaign

The online campaign dedicated to the IDEI, included quotes from leading national and international experts on the concerned issues.

Mr Tapan Mishra, UN Resident Coordinator in Mongolia emphasized the importance of the safety of journalists, by saying "Only by guaranteeing the safety of journalists

and rooting out impunity can we safeguard a free and independent media that is fundamental for democracies, especially during the COVID-19 crisis when infodemic ravages the world. We shall remember 'journalism without fear or favour' brings just, peaceful, sustainable societies in the world."

As H.E. Traian Laurentiu Hristea, Ambassador of the European Union to Mongolia pointed out, "IDEI 2020 is marked amidst the COVID-19 pandemic, a period in which threats ... to journalists have increased as governments ... strive to restrict open reporting and misuse emergency powers to silence journalists... The European Union is committed to promoting and protecting the freedom of opinion and expression worldwide and condemns the increasing level of intimidation and violence that journalists, media actors and other individuals face in many countries across the world.

With the support of Open Society Forum, GIC launched a monitoring on civil and political rights, namely freedom of expression and the right to information, the right to association and peaceful assembly, and the right to freedom of thought, conscience and religion amidst COVID-19 pandemic. The aim of the monitoring is to raise awareness of

relevant stakeholders on international human rights standards and advocate for the respect of civil and political rights while taking emergency response measures. Starting from November 25, 2020, after the authorities had toughened measures against the pandemic, GIC has been analyzing whether Government’s measures against the coronavirus are compatible with human rights law and standards. In the framework of the monitoring activities, GIC will be providing free legal aid to those whose rights are violated, and launch a social media campaign entitled “Are my rights violated?” GIC’s appeal calling on the Government and the State Emergency Commission to respect civil and political rights during the pandemic was distributed through IFEX, the global network defending and promoting free expression and the Global Forum for Media Development (GFMD) network, thereby raising awareness of international stakeholders on relevant issues in Mongolia.
