Message from the Editor-in-Chief

BioChem (ISSN 2673-6411) is an international and interdisciplinary open access journal encompassing the fields of molecular biology, cell biology, structural biology, nucleic acid biology, chemical biology, synthetic biology, disease biology, biophysics, and theoretical biochemistry. It publishes reviews, research articles, communications, and letters. Our aim is to encourage scientists to publish their experimental and theoretical research in as much detail as possible.

Editor-in-Chief

Prof. Dr. Yehia Mechref

Scope

- molecular biology
- molecular basis of biological processes
- structural biology
- gene and protein structure and expression
- folding of biomolecules
- biochemistry
- chemical biology
- synthetic biology
- protein biosynthesis
- membrane function and post-translational modification
- disease biology
- drugs and pharmaceuticals
- cell biology
- chemical, physical, mechanistic, and/or structural basis of biological or cell function
- cells
- nucleic acid biology
- theoretical biochemistry
- advances in biochemical, biophysical, and molecular methodologies as well as imaging techniques and data analysis

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Recognition of Reviewers

APC discount vouchers, optional signed peer review, and reviewer names published annually in the journal

Rapid Publication

First decisions in 16 days; acceptance to publication in 5.8 days (median values for MDPI journals in the second half of 2023)
