The following tables contain detail of our projects, programmatic and other ongoing work that relate to the Priorities and Major Work Areas (MWA) we have identified in our 2014/15 Annual Plan. Timings and outputs in the tables are indicative and represent the current view of Ofcom at the time of press (31st March 2014). They are subject to change. During 2014/15 we will update these tables to reflect any changes we make to projects, outputs, and timings in the light of ongoing market, legislative and regulatory developments.

Projects and programmes are categorised by the strategic purposes set out in our Annual Plan. In certain cases individual activities may support multiple Priorities/MWAs. For clarity we have listed these once, under the most relevant heading.

A glossary for key acronyms is also included.
