

BBC Performance Tracker 2022-2023

Introduction – online respondents

We are conducting a study looking at people's attitudes to television, radio and online services in the UK, and we are keen to know your views. This study is being carried out for Ofcom, which is responsible for overseeing broadcast services in the UK. It should take around 20-25 minutes to complete.

You can refuse to participate or stop the survey at any point. The data that we are collecting is for research purposes only and we rely on your consent to process the data. Once the full year of interviewing has been completed, the combined findings will be published in the summer of 2023.

Following the introduction of GDPR legislation we need to draw your attention to our Privacy Policy which explains your rights. All our surveys are conducted under the Code of Conduct of the UK Market Research Society and their contact number is in our Privacy Policy. All information that you give us will be treated in the strictest confidence and your identity will not be passed on to a third party or connected to your answers in any way.

First, we will ask you a few questions about yourself and the media you use. This will only take a few minutes and will allow us to see whether you qualify to complete the full survey.

Could you please confirm you are happy to proceed?
